Principle of Non-Interference.

LONDON, Nov. 26.—The conference between the representatives of the employers and delegates of the striking engineers that began Wednesday morning behind closed doors, after many weeks of negotiation, has taken a decided step toward a settlement of the points in dispute by an acceptance on both sides of the general principle of non-interference in the management of the trades unloss or the employment of the state Principle of Non-Interference.

Scuttled His Ship

Alger Goes Down into His Pocket.

Printing to Be Done Here and Elsewhere.

Secretary Yields With No Great Alacrity.

He Says He Does not Know The Work is to Begin and That Advertising for Bids Will not Hurry Matters Along.

[BY DIRECT WIRE TO THE TIMES.] WASHINGTON, Nov. 26.—[Exclusive Dispatch.] Sealed proposals for building the deep-water harbor of refuge and commerce at San Pedro will immediately be asked for by the War Department in accordance with the last River and Harbor Appropria-tion Bill, which provides for the building of a \$2,900,000 harbor at the above-mentioned place. This decision was reached by Secretary Alger today after a long and vexations delay. The advertisements for this work will be printed in Los Angeles, San Fran-cisco, Chicago and St. Louis, and will be paid for with Alger's own money.

The Comptroller of the Treasury, who was asked to give an opinion as to whether the remainder of the \$50,000 appropriated for the payment of the expenses of the board of engineers appointed to locate the harbor could be used for the payment of advertis-ing, has not yet rendered a decision, but to avoid further delay, Secretary Alger determined to take the matter into his own hands and straightway advertise for bids.

Secretary Alger is not establishing a precedent in paying out of his own pocket for work which the government pocket for work which the government should compensate, as Daniel Lamont, Alger's immediate predecessor, brought forth \$50,000 from his own pocket in 1894 to pay the standing army, because of the failure of Congress to make sufficient appropriation.

"The people of Catitornia will be glad to know that work will soon begin on San Pedro." I said, talking to Secretary Alger tonight.

Secretary Alger tonight.

"Don't be too sanguine about that,"
he replied. "I don't know that work
is to begin. I have directed Chief En-

is to begin. I have directed Chief Engineer Wilson to advertise for bids, but this is the only step I can take until Congress makes provision for building the harbor. Repeat what I have said to you a score or more of times, that there is no money available to pay contractors. Advertising for bids won't hurry matters along."

"Why do you advertise, then?" was asked.

asked.
"Well, I did so to stay this continual annoyance from people who think they know more about the work of the de-partment than myself. I have no au-thority to advertise for this work and money, because there is no government money, because there is no government money available. In directing the advertisement of this work I am taking the chance of getting reimbursed for the money expended.

"It will be a day or so yet before the department mails the advertisements."

department mails the advertisements to California." PHOCION.

THAT FIFTY THOUSAND.

Available.
[ASSOCIATED PRESS DAY REPORT.]

[ASSOCIATED PRESS DAY REPORT.]
WASHINGTON, Nov. 25.—Orders were issued today by Secretary Alger to advertise for proposals for the building of the breakwater at San Pedro Harbor, Cal. This is irrespective of the decision of the Comptroller of the Treasury, who has been asked whether there is any available fund from which the expense of advertising can be paid. Of the \$50,000 appropriated by Congress for the expenses of the commission and other things, about \$17,000 remains. If it shall be held, as seems probable, that this is applicable to the general expenses of the San Pedro project, there will be sufficient means to advertise the project, but not to pay the civil engineers and inspectors and the other necessary expenses of the general plan.

EXAMINER'S VERSION.

EXAMINER'S VERSION. [ASSOCIATED PRESS DAY REPORT.] SAN FRANCISCO, Nov. 26.-A special to the Examiner from Washington says: "Secretary of War Alger has sent to a number of newspapers ad-vertisements for bids for the San Pewhich can be used for defraying the expense, the Secretary has decided to pay for the advertisements from his own purse. He will rely on Congress, when it meets, to reimburse him."

RAZORS AND CLUBS. They Come into Play at a Negre

Festival.
ASSOCIATED PRESS DAY REPORT. Wilmington (Del.,) Nov. 26.—A special to the Every Evening from Lewis, Del., says that at a colored festival held in that town, Cephus Miller, a Virginia negro. became engaged in a quarrel with John E. Lockwood, a colored resident of Lewis. Miller drew a revolver and fired several shots at Lockwood, killing him instantly. Another man was shot through the head. Lockwood's friends immediately attacked Miller with clubs and razors, beating and slashing him until he was unconscious. He was resoued by the Town Constable and locked up. The infuriated negroes made several attempts during the night to lynch the murderer, but were prevented by the Constable and his deputies. Miller is still unconscious and may die. WILMINGTON (Del.,) Nov. 26.

Paragray's Flag Advanced.

NEW YORK, Nov. 26.—The Herald's correspondent in Ascunsion, Paragray, says that Col. Hermoso has planted the Paragrayan flag on Bahia Negro territory, which is in dispute with Bolivia. Two forts armed with 250 men and two batteries have been tarritory.

LOVERING GUILTY. is Reported to Be the Court

martial's Verdict.
[ASSOCIATED PRESS DAY REPORT.]

Institute of the court-martial which has just completed its labors in the court-martial of the court-martial is that the 'accused is guilty as charged in the specifications, and that he be reprimanded by the reviewing authority. The court is thus lenient in view of the good character of the accused, as shown in the evidence. The foregoing is, according to the statement of aman who knows, the exact verdict of the court-martial which has just completed its labors in the case of Capt. Leonard Lovering of Fort Sheridan, charged with brutal treatment of Private Charles Hammond.

"It took the court-martial one hour to reach its decision. The first ballot resulted in seven members of the court-martial votting 'guilty,' and five 'not guilty.' The usual court-martial is composed of thirteen members, but Maj. Randolph, who has been detailed to attend the court, was unable to do so, and so tweive men sat as a jury to decide the fate of Capt. Lovering. There was a vigorous effort made to have those parts of the specifications charging Capt. Lovering with 'cruelty' and 'brutality' stricken out. It was finally decided to consider the charges as they were set forth in the specifications, and the decision was reached without making the changes."

GEN. BROOKE BARREED. [ASSOCIATED PRESS DAY REPORT.]

[ASSOCIATED PRESS DAY REPORT.]
WASHINGTON, Nov. 26.—The record
of the court-martial in the case of of the court-martial in the case of Capt. Lovering has not yet reached the War Department. Gen. Brooke being regarded somewhat in the light of an accuser of Lovering, the papers will not come before him at all, either for review or for transmission to Washington from Chicago. The judge-advocate of the court, it is expected, forwarded the papers directly to Judge-Advocate-General Lieber at the War Department, who will submit them with his indorsement to Gen. Miles, who, in turn, will send the case up to Secretary Alger, and eventually it may reach the White House.

A SOUTHERN VIEW. Gen. Marmaduke on the Victory o

[ASSOCIATED PRESS NIGHT REPORT.]
ST. LOUIS, Nov. 26.—Gen. Vincent
Marmaduke of Sweet Springs, Mo.,
who was recently appointed by the exConfederate Veterans of Missouri as
chairman of a committee to write an
authentic history of the part Missouri
and Missourians took in the civil war,
today issued a remarkable address. It
was addressed to the ex-Confederates
of Missouri, and said in part:

today issued a remarkable address. It was addressed to the ex-Confederates of Missouri, and said in part:

"The honor and glory of this great struggle was with the South, and southern soldiers sought in justice to themselves and their dead commades to preserve the memory of it. While the North and northern soldiers are invelghing against all manifestations of sectional feeling, they are erecting monuments to their successful leaders and telling the story very much to their credit and to our detriment.

"The North had more than four soldiers to one in the South. Its armies were reinforced and assisted by 600 sallors. It had unlimited credit, which meant an unlimited supply of money. It had factories to manufacture everything needed to arm and equip, to supply and maintain its great armies and fleets. It had railroads running in every direction for the transportation of its troops. It had intercourse with the whole world, and would draw recruits for its army and navy from the whole world, and would draw recruits for its army and navy from the whole world, and would draw recruits for its army and navy from the whole world.

"The South had none of these advantages, or had them only to a limited extent. But notwithstanding all

"The South had none of these advantages, or had them only to a limited extent. But notwithstanding all its advantages, it took the North four years to crush the South, and then it did it by a grinding process and without having gained a single decisive victory."

BARCELONA DYNAMITERS.

Callis Renounces a Confession
Which He Made.
[ASSOCIATED PRESS NIGHT MEPORT.] BARCELONA, Nov. 26 .- [By Atlan tic Cable.] Great interest is felt in the trial now in progress here of the two men, Callis and Enrique, accused by Ascheri, instigator of the bomb-throwing outrage during the procession of the Corpus Christi in the spring of last year, of throwing bombs at a strike meeting in 1886, when several persons were killed and many others

persons were killed and many others injured. Callis was lately condemned to Callis was lately condemned to twenty years' imprisonment as an accombilee of Ascheri in the Corpus Christi outrage. During his trial on that charge he confessed himself guilty of the bomb-throwing of 1886. Brought now to trial on that confession, he alleges that it was extorted from him by torture at Montjuich fortress, and his statement that he was subjected to torture is confirmed by the testimony of other convicts called as witnesses.

by the testimony of other convicts called as witnesses.

Enrique, arraigned with him on the charge of bomb-throwing in 1886, was accutited today. With regard to the ascertion of Callis that he was tortured. Lieut. Portas and others called for the prosecution deny that there is any truth in the story, and the weight of evidence is against Callis. The public prosecutor demands a sentence of imprisonment for life in his case.

Union Pacific Opposition.

Union Pacific Opposition.

LONDON, Nov. 26.—Messrs. Robinson and Leslie, well-known leading accountants, have issued a circular to the holders of the committee's certificate shares of the Union Pacific stock, in which they protest against the Reorganization Committee, without permission, proposing to alter the condition under which a heavy assessment is paid, namely, the using the whole sum of money to buy the Union Pacific main line alone, which deprives, as the circular contends, the assessed shareholders of their reversionary right to the Kansas division. Messrs. Robinson and Leslie are organizing an opposition committee. opposition committee.

Dend Under a Trestle.

ST. LOUIS, Nov. 26.—Madison Stookey of Belleville, Ill., Deputy I trict Internal Revenue Collector, one of the best-known men in South-ern Illinois, was found dead under a trestle crossing, a mile above Columbia, Ill., early this morning. He is sup-posed to have fallen from a train, but much mystery surrounds the case. Stookey was until recently superin-tendent of the Believille water works.

Dr. George R. Horn Dead. PHILADELPHIA, Nov. 26.—Dr. George R. Horn, for a number of years gecretary of the American Philosophical Society, died in this city, aged 55 years. Dr. Horn was president of the American Entomological Society. He truss looked upon as the leading entomologist of America, and he served as corresponding secretary for the leading se

Principles of Autonomy Made Public.

An Insular Parliament With a Governor-General.

Government Minority in the

Administration. Riot at Porto Rico Started by Lib

PASSOCIATED PRESS NIGHT REPORT. MADRID, Nov. 27 .- [By Atlantic Ca The Official Gazette publishe

erated Prisoners Cheering for

the United States-Americans All

ble.] The Official Gazette publishes this morning (Saturday) the royal decrees granting autonomy to Cuba and Porto Rico, thus removing the anxiety that had begun to be expressed on all sides as the result of the government's reticence and unexplained delay.

Article 1 explains the principles of the future governments of the two islands.

Article 2 decrees that the govern-ment of each island shall be com-posed of an insular parliament, divided into two chambers, while a governorgeneral representing the home govern-ment shall exercise in its name the supreme authority.

Article 3 declares that the faculty

of making laws of colonial affairs resta with the insular chambers and the overnor-general.

Article 4 directs that the insula

representation shall be composed o

Article 4 cirects that the insular representation shall be composed of two corporations with equal power, a chamber of representatives and a council of administration.

Article 5 provides that the council of administration shall consist of thirty-five members, of whom eighteen shall be elected and seventeen nominated by the home government.

Article 6 provides that the members of the council of administration must be Spaniards, over 35 years of age, who were born on the island, and who have resided there continuously for four years. It specifies numerous officials, such as Senators, presidents of courts and chambers of commerce and other bodies, as eligible to the election to the council.

Article 15 empowers the throne of the Governor-General to convoke, suspend or dissolve the chambers, with an obligation to reassemble them within three months.

CHEERED FOR AMERICA.

land. They soon found their way to a drinking saloon, par,ook of stimulants, and began cheering for the United States, crying "Hurrah for free-America." This demonstration was resented by the crowds about the place, and a rolt followed. The police were called upon to interfere, and compelled the liberated men to embark. During the disturbance the police captured the insurgent Col. Alipo Sanchez, who was described as being incognito in Porto Rico.

Rico.
Señor Maritos Garcia, the Governor of Santa Clara, has arrived at Sagua in order to be better able to judge of the condition of the reconcentrados. From this day on these unfortunate people will receive rations.

The Spanish authorities today released from prison Thomas J. Jordan, a prisoner captured, according to the allegations, after the landing of an expedition by the American steamer Three Friends, and Manuel Hernandez, who is said to have been a member of another filibustering expedition. Both men were under sentence of death.

The government has also released from prison Juan Arias Agustin Cossio, Emilo Betancourt and Rosendo Betancourt.

NO AMERICAN PRISONER [ASSOCIATED PRESS NIGHT REPORT.]

HAVANA, Nov. 26.—No American prisoner is now confined in prison in the Island of Cuba.

OHIO'S LEGISLATURE.

FIFTEEN REPUBLICAN MAJORITY ON JOINT BALLOT.

Votes for United States Sen ator in Opposition to Sixty-five Democrats-Five Fusionists Come into Line.

(ASSOCIATED PRESS NIGHT REPORT.) CINCINNATI (O.) Nov. 26.—At the ecent election the fusion ticket, which carried this county, contained nine Democrats and five Republican mem-bers of the Legislature. There has been some doubt as to how the Republican fusionists would vote on joint

ballot for United States Senator.

At a meeting of these fusionists here they decided to vote for the Republican caucus nominee, which will make the Legislature stand 80 Republicans to 65 Democrate on joint ballot for United States Senator.

GNAWED BY RATS

of a Beatrice, Neb., Recluse Who Was Well-to-do.
[ASSOCIATED PRESS NIGHT REPORT.]

[ASSOCIATED PRESS NIGHT REPORT.]
BEATRICE (Neb.,) Nov. 26.—Campbell Smith, an aged recluse, was found dead in his house, where he lived glonatonight by neighbors. The condition of the body indicated he had been dead two days. Rats had mutilated the hody. Smith was well-to-do, but eccentric and miserly. His living expenses were \$2.50 a month, while in his trunk were found demand certificates of deposit on local banks, city warrants and deeds to farms and city property aggregating many thousands of dollars. He was a lawyer and highly-educated. His relatives, if he has any, live in Ohle or Illinois.

CHEERED FOR AMERICA.

Liberated Prisumers Cause a Riot at Porto Rico.

[ASSOCIATED PRESS DAY REPORT.]

HAVANA, Nov. 26.—[By Central American Cable.] Advices just received from Porto Rico say that a riot occurred there yesterday. It appears that a steamer having on board a number of political prisoners recently released from the Spanish penal settlements on the African coast, in accordance with the amnesty decree, arrived there, and the liberated men were allowed to Had Her Husband Killed.

President Abramovich Calls in a Detachment of Police.

Even These are Powerless to Keep Deputies Quiet.

The Lender and One of His Turbulent Following Ejected from the House-The Opposition Decides to Impeach the Ministry.

[ASSOCIATED PRESS NIGHT REPORT.] VIENNA, Nov. 26.-[By Atlantic Cable.] Today's proceedings in the Reichsrath exhausted Herr Abrahamoyich, the president, both physically and mentally, and he was obliged to abandon the struggle when it was at its height. Dr. Kramarz, the vice-president, a young Czech, considerably the junior of Herr Abrahamovich, followed him.

but he succeeded no better in his at-tempts to dominate the disorders. The opposition leaders held another meeting this evening and decided. It is

said, to impeach the ministry.

Workmen took but little part in the street demonstrations today. They intend to organize demonstrations on their own account, which will probably be more serious in their results.

POLICE KEPT BUSY. [ASSOCIATED PRESS DAY REPORT.] VIENNA, Nov. 26.—[By Atlantic Ca. ble.] The disorder in the lower house of the Reichsrath was so accentuated to-day that a strong detachment of police had to be called in to preserve order.

When the president of the house en-tred he was greeted with cries of "Get tred he was greeted with cries of "Get out." The Leftists rose to their feet in a body, many of the deputies shricked wildly, and an indescribable tumult followed.

During the tumult a Social-Democrat, During the tumult a Social-Democrat, Herr Berner, made a rush for the president, and a lively fist fight followed between Berner and the house attendants, who attempted to protect the chair. Thereupon another Social-Democrat. Herr Resel, jumped upon the ministerial bench, and, nurrying to the presidential chair, seised the papers which were lying on the president's desk and tore them to pleces while other Social-Democrats hastened to Herr Berner's assistance, occupied the tribune and demanded satisfaction for the attendants' pummelling of Herr

the attendants'

Democrate and deputies indulged in a free fight, and Herr Berner was ejected from the house.

In the mean time a detachment of ten police arrived in the house, and the officer in command called upon the Social-Democrate to withdraw from the Presidential platform. They, however, refused to withdraw and resisted the attempt of the police to eject them. They were eventually removed, forcibly and singly. The police the made a cordon around the tribune. These scenes were enacted prior to the formal opening of the house. While the deputies were fighting and howling on the floor of the house a tumult rose in the second gallery, which the attendants promptly cleared.

The authorities then caused all the lobbies of the house to be filled with police, the gates were closed, and the building was guarded by a strong police force. The session of the house, in the mean time, was suspended. When the lower house reassembled this afternoon after the forced adjournment of the morning, the reappearance of President Abrahamovich was greeted by a storm of abuse. the slamming of deek lids, whistling, etc. He repeatedly tried to address the Leftists, but his voice was insudible amid the uproar, the only distinguishable sounds being Leftist cries of "Out with the police.

Dr. Wolff, the German Nationalist leader, as yesterday, contributed prominently to the pandemonium. Upon this occasion he kept on blowing a shrill whistling.

In the midst of this uproar President Abrahamovich opened the sitting.

prominent part in the disturbanced this morning, took part again in shrill whistling.

In the midst of this uproar President Abrahamovich opened the sitting, and twice called Dr. Wolff to order. As this had no effect upon the turbulent German Nationalist, the President suspended him for three sittings.

So soon as the Leftists realized what had occurred, they burst out into a state of unbridled fury, shricking insults at Dr. Abramovich. Herr Dazynski, a Socialist Deputy, yelled: "Tou ought to be in jail."

Other infurnated Deputles shouted all kinds of invectives. Individual contributions to the uproar were indistinguishable from the general uproar, in spite of this disgraceful scene and the insults hurled at him, President Abrahamovich was apparently unmoved, but when he recognized that it was useless to make any further attempt to trainsact business he quietly spoke a few words to a police officer hear him and suspended the sitting, amid deafening and vociferous cries of "Shame." from the Leftists, and applause from the Rightists. The substance of the words spoken to the police officer by the President soon became apparent, for an officer and four policemen removed Dr. Wolff from the house by force, in spite of considerable opposition on the part of his clique.

When the President again reëntered with a shower of opprobrious epithets, including cries of "Criminal" "Traitor!" "Get out!" After withstanding this storm for a period, the President again left the house, but only for a moment, and on his return he instructed the police to withdraw, declaring, amid a tremendeus uproar: "entrust the president suppersonal question. The honor of your leare, but remember this is ne personal question. The honor of your please, but remember this is ne personal question. The honor of your please, but remember this is ne personal question. The honor of your please, but remember this is ne personal question. The honor of your please, but remember this is ne personal question. The honor of your please, but remember this is ne

ent summoned the police, and the eputy was ejected. Subsequently the President suspended-leven other Deputies:

REVOLUTION THREATENED.
[ASSOCIATED PRESS NIGHT REPORT.]
VIENNA, Nov. 26.—After 9 o'clock VIENNA, Nov. 26.—After 9 o'clock this evening the aspects of the streets became more threatening. It is estimated that a crowd of 10,000, including a very large number of students, assembled and threatened the government with revolution and Count Badeni, the Premier, with the guillotine. An attempt was made to attack Count Badeni's house. The police repeatedly charged the crowd, but refrained from using arms.

The students resisted with sticks. The police inspector was severely in

The students resisted with stacks.

The police inspector was severely injured by a kick from a horse; another was thrown from his horse and so badly hurt that it was necessary to remove him to a hospital. A few students and some citizens received slight injuries. Not until 11 o'clock was cultive resigned. MEN AGREE TO MARRY THEM

quiet restored.

Today's edition of most of the evening newspapers have been confiscated, and the police have freely arrested per-sons offering papers for sale in the

sons offering papers for sale in extrects.

A serious riot is reported at Gratz, the capital city of Styria. It appears that the students and a large body of workmen attacked three newspaper offices, doing some damage. The police, with the assistance of the troops, have restored order, and twenty arrests have been made of the ringleaders.

The attitude maintained by Herr Abrahamovich, the President of the chamber, greatly enraged his opponents.

nents.

Samuel L. Clemens (Mark Twain) was among those expelled from the gallery of the Unterhaus today.

MRS. NACK NOT CALLED.

PROSECUTION RESTS AND SUR-PRISES THORN'S COUNSEL

Case the Defendant is Placed the Stand the Woman May Testify in Rebuttal-The Testimon

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Nov. 26.—Lawyers Howe and Moss, who have diligently when, after a brief adjournment, Dist. Atty. Youngs informed the court that the people rested their case. It was generally expected that Mrs. Nack would be put on the stand to reiterate her confession, and the lawyers who had been assigned to look after Thorn's interests thought that she would repeat her statement of two weeks ago Later in the afternoon Dist.-Atty foungs said that he was not prepare to say whether Mrs. Nack, who has made such a famous scene in the first trial by her confession, would be produced or not. The case, as far as the District Attorney's opinion went, was fully proved without the woman's testimony. Later on, however, one of Youngs's advisers said that in the case that the defense put Thorn on the stand, the prosecution would certainly produce Mrs. Nack in rebuttal.

YESTERDAY'S TESTIMONY.
[ASSOCIATED PRESS DAY REFORT.] ASSOCIATED PRESS DAY RETORT.]

NEW YORK, Nov. 28.—The trial of Martin Thorn, charged with the murder of Guldensuppe, was resumed at Long Island City today. The first witness was the barber Keene, whose examination had not been concluded when the court adjourned last Wednesday evening. In reply to Mr. Howe's questions, this witness admitted that the stiletto which he had shown to Thorn had a poisoned point, and he seemed to be very uncomfortable after having made this admission. Then he said he only kept it as an ornament, afterward explaining that his brother had made him a present of it.

Edward Speck, a bartender, testified to seeing Thorn in the saloon on East Thirty-sixth street Tuesday, June 25. Thorn was showing a watch to a driver named Fedderer. Thorn had also exhibited some money, and said: "This is what I got out of my carriage ride last Saturday afternoon."

Carl Merloh, who keeps a barber shop, testified that Thorn told film about living with Mrs. Nack and having had a row with another boarder (Guldensuppe,) at whom he fired a pistol, but did not intend to hurt him. This row occurred in March or April last.

This witness said he had sent Thorn NEW YORK, Nov. 26.-The trial of

This witness said he had sent Thorn

for a bottle of "shampoo mixture," Wednesday, June 23. The witness said he did not see Thorn Friday, June 25. He had a letter from the prisoner, ask-

Detective Dennis Sullivan identified a piece of the surface from the Woodside cottage which had a bullet hole in it. The witness also identified two bullets found in the bathroom and the room adjoining. These bullets were of 32-caliber, and evidence was introduced to show that they fitted the revolver found on Martin Thorn when he was arrested.

At 3:30 o'clock a brief recess was aken, and when the court reconvened taken, and when the court reconvened Dist-Atty. Youngs announced that the prosecution rested its case. The court then adjourned till Monday, when the defense will begin its case.

CURRENCY REFORM.

Secretary Gage's Plan Has the Indorsement of the Administration.
[ASSOCIATED PRESS DAY REPORT.]

WASHINGTON, Nov. 26.—The annual report of the Secretary of the Treasury, according to the present plans, will be sent to Congress either on the first or second day of the coming session. As to the Secretary's plans for the reform of the currency enough has been learned to give confidence that the President is in full accord with his views and recommendations, although in his official utterance, as expressed in his forthcoming message to Congress, he may not give a complete and specific indorsement to all the propositions covered by the Secretary's report. WASHINGTON, Nov. 26.-The a

all the propositions covered by the Secretary's report.

It is also understood that the forth-coming report of the monetary commission will cover recommendations essentially no different from those embodied in Secretary Gage's report to Congress. Those most familiar with both of these important papers sive assurance that the difference between them will be easily reconciled, and that to the support of the propositions so harmonious the monetary commission will be able to bring to bear the powerful influence of the great body of business men which the committee represents.

COAST RECORD.

TWO CHINESE WOMEN ADDED TO THE POPULATION.

Company With Two San Francisco Procurers.

AFTER BEING UNITED THEY ARE ALLOWED TO PROCEED.

rant's Attorneys Ask for a Writ of Mandate-Three Steamers

[BY DIRECT WIRE TO THE TIMES.] VANCOUVER, Nov. 26.—[Exclusive Dispatch.] Authorities in Vancouver eccived a letter by the last oriental steamer that two Chinese women were passengers on the steamer, and had been purchased by two procurers and were being brought into the sountry for mmoral purposes. The police had some rouble in locating them, but finally lid so in the house of a merchant in

Detectives were detailed to shadow them, and after three days the two procurers turned up from San Fran-

The quartette were promptly arrested The women, after considerable per-suasion, confessed that they had been sent to San Francisco by the two Chinamen mentioned, who said they were their husbands. These Chinamen lived in San Francisco. The authorities stopped them and deported them to Hong-Kong, but on instructions given before they salled they took the next steamer to Vancouver. As all the par-

ties presumably gave fictitious names, it is impossible to locate them. The police department, fearing that under the lax Canadian laws regarding Chinese they could not convict them of any offense, asked the San Francisco Chinamen if they would be willing to marry the women who had made three trips across the Pacific on their behalf. They replied in Chinese "in a minute." They were soon united in matrimony, according to the rites of the Presbyterian church. Armed with marriage licenses, the couple left for San Fran-cisco today, laughing in their voluminous sleeves at the way they had punched holes in the laws of Uncle Sam and Queen Victoria.

RICH ORE AT HAVILAH. Los Angeles Gold Mining Company

Makes a Strike.

[BY DIRECT WIRE TO THE TIMES.]

CALIENTE, Nov. 26.—[Exclusive CALIENTE, Nov. 28.—[Exclusive Dispatch.] The report reaches here today that a big strike has been made in the old Warrington mine in Havilah. A nine-foot ledge of \$30 ore has been developed on the 560-foot level. This is the mine worked in early days by a New York company and later by H. W. Blaisdell of Yuma. The latter work resulted in nothing. The Los Angeles Gold Mining Company recently bonded the mine, and has been developing it for the past thirty days.

bonded the fitne, and has been developing it for the past thirty days.

It appears the ledge was lost by
the New York company, and a period
of years caused a cave-in on the lower
level, exposing a regular ledge that had
been blinded by a "horse" in the vein,
which threw the miners off. There is
intense excitement in Havilah, and in a
new camp beyond called Clinedike,
founded by G. W. Cline, a Colorado
prospector. He has discovered a large
ledge of gold-bearing quarts that is
said to be thirty feet in width, and
prospecting \$15 to \$30 a ton in gold.

Attorney-General Insists That

it Take Place.
[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Nov. 26.—The at-torneys for Theodore Durrant today filed another document with the clerk torneys for Theodore Durrant today fled another document with the clerk of the had a letter from the prisoner, asking him to say that he was sent for the bottle of shampoo mixture on the 25th and had been in the place to the greater part of that Friday. Witness gave the letter to Captain O'Brien the day after Thorn was arrested. Merleh identified the letter when it was handed him by the prosecuting lawyer. In answer to Mr. Howe, the witness said he had known Thorn for a long time, and the prisoner always bore an excellent reputation.

The principal witness of the afternoon was John Gotha, the barber to whom Thorn is alleged to have made a confession soon after the murder. His story on the stand agreed substantially with the account printed at the time, and corroborated that made by Mrs. Nack.

OTHER TESTIMONY.

[ASSOCIATED PRESS NIGHT REPORT.]

Detective Dennis Sullivan identified a piece of the surface from the Woodside cottage which had a bullet hole in it. The witness also identified to bullets found in the bathroom and the room adjoining. These bullets were of 32-caliber, and evidence was introduced to show that they fitted the revolver found on Martin Thorn when he was

A TRADE ANNULLED,

San Diego Judge Awards Heavy Damages in a Real Estate Suit. [ASSOCIATED PRESS DAY REPORT.]

SAN DIEGO, Nov. 26.—Judge Hughes warded damages of \$15,000 to S. A. awarded damages of \$15,000 to S. A. Barbour of Chleago today in his suit against Warren J. Flick of this county. The suit grew out of an exchange of Barbour's equity in a tenement house in Chleago for the large ranch of Flick, in this county, which exchange was made without Barbour seeing the property, Flick to retain a \$13,000 mortgage on the ranch.

on the ranch.

The case has been hotly contested, and Judge Hughes decided that the ranch value had been misrepresented to Barbour. The decision wipes out the mortgage and gives Barbour \$2000 besides.

TO THE GOLDEN NORTH. Pacific Const Steamship Company to Start Three More Steamers.

(ASSOCIATED PRESS NIGHT REPORT.) PORTLAND (Or.,) Nov. 26.—The Pacific Coast Steamship Company today announced that three steamers would be placed on the route between this city and Dyea and Skaguay, Alaska, giving a five-day service from Portland.

land.

The steamer George W. Elder is already on the run, and the steamer Oregon is undergoing repairs preparatory to entering the trade. The third steamer has not yet been decided upon.

ship George W. Elder arrived this evening from Skaguay and Dyea. The Elder's passenger list included some fifteen people, besides several Chinese.

- DUNHAM IS WANTED.

The Reply Sent to an Inquisitive Pine Bluff Citisen. [ASSOCIATED PRESS DAY REPORT.]

SAN JOSE. Nov. 26.—Chief of Police Kidward received the following tele-gram from Pine Bluff, Ark., this morning, the message being dated today:, "Is James C. Dunham still wanted there?. If so, state the reward and telegraph description. Wire answer immediately

telegraph description. Wire answer immediately.

[Signed] "JOHN HORTIS."
The Chief knows nothing more than what the telegram tells. He wired the writer that Dunham was very much wanted. The facts have been turned over to the Sheriff's office. Sheriff Lyndon has not yet received the photographs and letter of description of the Van Buren suspect. This may come on any mail.

He received a telegram from the arresting officer there, this morning, saying that the man is reticent, but says he has been a groceryman and a nurseryman. Very little credence is given the story until further particulars are received.

Car-inspector Satto of New York Missing at San Francisco, [ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, Nov. 26.—Andrea Satto, car inspector of the Third-ave-nue street-car line of New York City,

nue street-car line of New York City, arrived here last Sunday. Monday he disappeared under circumstances that cause the police to believe that he has met with foul play.

Reaching the city in company with his wife, Satto stopped during Sunday night at the Brooklyn Hotel. The next afternoon the couple engaged rooms at No. 230 Montgomery avenue, paying for one week in advance. In paying the bill Satto took from his pocket a roll containing nearly \$500, which action, it is thought, may have led up to his disappearance. Leaving his wife in the room, the inspector went out for his baggage, and has not been seen since.

SATTO NOT KNOWN.

NEW YORK, Nov. 26.—The name of Andrew Satto does not appear in the New York directory, and the Third-avenue Company officials say that no such man was ever in their employ.

A BARTENDER'S FRIGHT.

Kills an Ione Citisen in Mistake for a Robber.
[ASSOCIATED PRESS DAY REPORT.]

[ASSOCIATED PRESS DAY REPORT.]
IONE, Nov. 28.—Louis Cassells, a bartender at R. C. Mayes's saloon, shot and killed Fred Grover, whom he mistook for a robber, at 10 o'clock last night. Cassells had just closed the saloon, and while carrying the day's receipts in a sack in his hond, stopped colots in a sack in his hand, stopped to extinguish the lamp over the door At that moment Grover, who is a peaceable and highly-respected citizen peaceable and highly-respected citizen stepped suddenly from the roadway to Cassells' side. The latter, without so word of warning, drew a gun and shol Grover in the right breast, the bullet pleroing the lung and emerging under the shoulder.

the shoulder.

Grover leaves a widow and six small children. The friends of the deceased talk of lynching Cassells, who is now confined in the County Jail.

DEFYING THE TONGS. hinese Merchants Will No Longe

Submit to Blackmail.
[ASSOCIATED PRESS DAY REPORT.] SAN FRANCISCO, Nov. 26.—The Chronicle says that the Chinese inhab-itants of this city have combined to

cieties. These business men have signed a compact not to submit to further blackmail, and without their usual income the highbinders will be forced to leave the city or go to work.

Over twenty highbinder societies are affected by this arrangement. While the exact membership of these societies is not known, it is estimated to be in the neighborhood of 1500. All of these are not fighting men, but they have been affiliated with the tongs, and have been furnished money when occasion demanded.

A DISPUTED REWARD.

Vladislaw Zakrewskei Claims H

Secured Kovalev's Conviction. [ASSOCIATED PRESS NIGHT REPORT.] SAN FRANCISCO, Nov. 26 .- Joh O'Malley commenced suit today against the State of California and Chief of Police Lees to prevent the payment to Lees of a reward of \$1000 offered by the Lees of a reward of show other by the State for the arrest and conviction of the murderer of Francis H. L. Weber and his wife, Lizzie M. Weber, who were butchered in their home in Sac-ramento December 29, 1894.

ramento December 29, 1894.

O'Malley, who holds the assigned claim of Vladislaw Zakrewskei, alleges the reward for the arrest and conviction of Ivan Kovalev, who was hanged for the crime, belongs to Zakrewskei, who arrested Kovalev and gave the most damaging testimony against him.

WILL GET THE MARION.

Gov. Budd Consents to Her Transfer to San Diego.
[ASSOCIATED PRESS DAY REPORT.]

SAN DIEGO, Nov. 26.—U. S. Grant, who is now in San Francisco, wired the Tribune this morning from that city, saying that Gov. Budd had consented to the transfer of the Marion to San Diego, and he had written the de-

San Diego, and he had written the details of the cost of maintenance in a letter.

This is a great victory for the San Diego Reserves and for the Tribune, which has made the fight against a strong opposition in San Francisco to the delivery of the Marion at this port after the Secretary of the Navy had granted her to the San Diego division.

A Witness's Retraction.

A Witness's Retraction,
SACRAMENTO, Nov. 26.—George
Shaw, a witness in the case of Harry
Linch, now being tried here for robbery, created a sensation in court today by declaring that the testimony
given by him at Linch's preliminary
examination in the Police Court was
false. He attempted to excuse himself
by saying he was intoxicated at the
time he gave his testimony. The prosecution will put on witnesses and try
to show that the statement made by
Shaw at the preliminary examination
had been previously made to a police
officer; also that he was not intoxicated at the time. An information for
perjury will be filed against him.

Capi. Jenks Bonneed. The steamer George W. Elder is already on the run, and the steamer Oregon is undergoing repairs preparatory to entering the trade. The third steamer has not yet been decided upon.

LOS ANGELIES PROSPECTORS.
[ASSOCIATED PRES NOHT ERFORT.]

ASTORIA (Or.,) Nov. 24.—The steamer Alice Blanchard arrived this

Witnesses Against Welburn.

SAN FRANCISCO, Nov. 26.—The
United States grand jury today began
the examination of witnesses against
Oscar M. Welburn, ex-collector of internal revenue, the government having decided to try once more to secure
his conviction. The matter will be
taken up again on Tuesday The Nelile O'Brien case, which was not embraced in the former indictments, and
a new case not yet mentioned are the
subject matters of the present investigation.

Capt. W. A. Phillips Dead. Capt. W. A. Phillips Dead.

SAN FRANCISCO. Nov. 26.—Capt.
W. A. Phillips, United States inspector
of steam vessels, died this morning.
Capt. Phillips had been declining for
some months. About a week ago comeplications resulting from stomach
troubles set in, which resulted in death
He was born of Scotch parentage in
Ireland sixty-nine years ago. He
served in the United States navy during the civil war, and came to California in 1871.

Nevada Stage Robbery. CARSON (Nev.,) Nov. 28.—As a result of the first stage-robbery in this section for fifteen years, the stage running between Bishop and Independence was relieved of the Wells-Fargo Express box, containing about \$1000. The money represented tax collections being conveyed to the county seat. The hold-up occurred in an exposed part of the road, only two miles from a railroad station.

Sacramento Election Contest. Sacramento Election Contest.

SACRAMENTO, Nov. 25,—Albert J.
Brown today filed papers in the Superior Court to contest the election of A. L. Frost, the Republican nominee, as City Treasurer. Frost defeated D. W. Carmichael, the Democratic-Populist nominee, by about sixty votes, according to the returns. Fraud is alleged on the part of officers of the election in certain precincts.

Took His Father's Deeds. Took His Father's Deeds.

STOCKTON, Nov. 26.—In the Superior Court today an order was issued requiring George T. Hughes to appear next Wednesday forenoon and produce some papers and deeds belonging to his father, William Hughes, which the son seized recently. The son brought proceedings some time ago to be appointed guardian of the old man, whom he declared to be incompetent.

Gov. McCord's Reception TUCSON (Ariz.,) Nov. 28.—The reception of the citizens of Tucson to-night to Gov. McCord and the visiting members of the administration was the greatest outpouring of people since the reception and sword presentation to Gen. Nelson A. Miles November 8, 1887. After the reception a grand ball fol-lowed. The Governor and party re-turns to Phoenix tomorrow morning.

Giant Powder Killed Him. BAKER CITY (Or..) Nov. 28.—A fatal accident occurred last evening at the Elkshorn Bonanza mine, James Cagel ignited some giant powder and the magazine exploded with terrific force. Cagel was killed instantly, his body being mangled in a frightful manner. Thomas Hopkins was painfully, though not fatally, wounded.

Bark Oakland's Long Voyage. ASTORIA (Or.,) Nov. 28.—The American bark Oakland, Capt. Whitney, arrived tonight, thirty-seven days from San Pedro. Capt. Whitney says he was three days getting out of Santa Barbara Channel, and met with light northerly winds until he struck the recent gale off Cape Blanco. This he weathered safely.

Fell Off the Ark.

STOCKTON, Nov. 26.—This after-noon the body of a man was found in the mud and water of McLeod's Lake, near Nelson's boathouse. The corpse was seen by Nelson, who reported the fact to the Coroner. The body proved to be that of Michael Sheridan, who occupied an ark in the lake. He had been drinking heavily for several days.

His Last Rest.

SAN QUENTIN PRISON, Nov. 26.—
John Jensen, who was received at the prison March 21, 1888, from Fresno county, to serve a forty years' sentence for murder, died in the hospital last night from chronic dysentery. He was burled in the prison cemetry today, the grave being marked only by a slab bearing his prison number, 12,914.

Ah Yet No Longer. gan's ranch, near here, committed sul-cide yesterday by morphine poisoning. He was despondent over the loss at the gambling table of \$500, which he drew from his employer last week for the purpose of returning to China.

Valley Road Tunnel. SAN FRANCISCO, Nov. 26.—The di-ectors of the San Joaquin Valley Railrectors of the San Joaquin Valley Rall-road have ordered work commenced on the tunnel in Contra Costs county for the road that is to run from Stockton west to Point Richmond. The tunnel is to be one mile in length, and will cost about \$500,000.

The Bear's Departure.

The Henr's Departure.

SEATTLE (Wash.,) Nov. 28.—Preparations for the departure of the revenue cutter Bear are about completed, and if no unforeseen delay occurs she will weigh anchor tomorrow afternoon and start on her mission of mercy to the Arctic Ocean to relieve the imprisoned whaling fleet.

Concord Back from Alaska SAN FRANCISCO, Nov. 26.—The United States gunboat Concord arrived from Alaska, via Victoria, B. C., today. She will go to Mare Island Navy Yard for an overhauling, after which she will be sent to China to take the place of the Yorktown on that station.

Resented a Rebuff.

CARSON (Nev.), Nov. 26.—Because he was rebuffed when, uninvited, he attempted to join a party drinking in a saloon today, Adam Uber shot and killed Hans Anderson, the host of the occasion. The murderer was hastily taken to Genoa by the officers.

Rubbed Against the German ASTORIA (Or..) Nov. 26.—During the ebb tide the British ship Peru dragged her anchor, and the swift current carried her with considerable force against the German ship William Tillie, also at anchor in the lower harbor. The damage was slight. A Drunkard's Suicide

SANTA CRUZ, Nov. 28.—Frank Lauk, who was lodged in jail here for being drunk, committed suicide by strangling himself. He tied a handkerohief around his neck and stuffed the rags down his throat. He was undenbtedly delirious at the time. Found in the City Reservoir

TACOMA (Wash.) Nov. 26.—The body of Mrs. Frances Selby was found this morning in the reservoir which furnishes the city with water. She was 67 years old, and it is supposed that poverty drove her to suicide. Overturned Lamp's Work.

EUREKA, Nov. 28.—An overturlamp this morning destroyed the ho
of C. D. Richardson, near Indian

Black Sand Mining. EUREKA, Nov. 26.—The Standard Beach Mining Company has leased 126 acres of land for black-sand mining, and has purchased valuable machin-ery for the work. The results thus far are most encouraging.

SAN FRANCISCO, Nov. 26.—The grand jury has passed judgment on the nickel-in-the-slot machines. It has concluded that the good order of the community demands that these machines be suppressed.

Painter's Leg Broken. ARROYO GRANDE, Nov. 26.—Gus Helleson, an aged German painter, fell from the roof of a building today, breaking his leg and sustaining such injuries as will, with his advanced age, terminate fatally.

SAN LUIS OBISPO, Nov. 26.—The twelve-year-old son of Manuel Nunes a prominent ranch-owner, was killed today by being thrown from his horse the fail fracturing his skull.

DEMANDS ON CHINA.

GERMANY ASKS HEAVY INDEMNITY

Kinochou Bay Be First Evacu-ated-Gen. Chang Kola Con-demacd to Death-Viceroys Busy With Coast Defenses.

[ASSOCIATED PRESS DAY REPORT.] LONDON, Nov. 26.—[By Atlantic Cable.] Special dispatches received here today from Shanghal say that Baron von Heyking, the German Min ister to China, has presented to the Chinese government the demands of Germany for reparation for the recent murder of the German missionaries and the destruction of German mis-sion property. These gemands include the execution of the murderers of Nies and Henley; the punishment of the implicated officials, the reconstruc-tion of the mission buildings; the pay ment of an indemnity of 600,000 tael to the relatives of the victims,

ment of an indemnity of 600,000 taels to the relatives of the victims, and also the payment of a heavy indemnity to cover the expenses of the German naval expedition and the maintenance of a German force at Kiaochou. The Chinese government replied that Klaochou Bay must be evacuated before the demands can be discussed. Baron von Heyking refused to consent to this, and a deadlock was the result.

The Foreign Department diplomats, the special dispatches further announced, say that the German conditions are impossible of acceptance, and they assert they were only presented to enable Germany to retain Kiaochou Bay, and to extend northward her occupation of Chinese territory.

It is reported that Chang Köin, the Chinese general who was in command of the fortifications at Kiaochou Bay, and who surrendered to the Germans without firing a shot, has been condemned to death by the Chinese way council. The viceroys of Canton, Foothoo and Nankin are trying to put the coast defenses in a proper state of repair, with the view of preventing future seizures of Chinese territory.

COAL STRIKE OFF Pwelve Thousand Illinois Miner

CHICAGO, Nov. 26 .- The coal-min ing strike in the Northern lillinois dis-trice ended today. Twelve thousand have gone back to work in the Coal City. Braidwood, Carbon Hill, Spring Valley. Lodi. Seatonville, La Salle and Oglesby fields. One thousand men re-main out at Streator, the only point where miners and owners have not

A settlement there is predicted within a week. Victory is with the miners, although they have not won all they asked. Their chief demand was for a

although they have not won all they asked. Their chief demand was for a "mine run" price, that is, a rate per ton as the coal comes from the mine, unscreened. This has been conceded in some places. Where the rate remains fixed in price per net ton of screened coal, substantial advances have been won. The increase in wages all through the districts amounts, approximately, to 10 cents a ton over the schedule made last May.

The strike has been on since July 4. It started as a part of the general strike ordered by the United Mine Workers of America. The Pennsylvania and Ohio miners settled their differences early in September. The Indiana work was resumed about the same time. The 30,000 miners of Illinois refused to ratify the terms of the agreement made at Columbus, O., and continued the strike.

WHITECAP CONVICTED.

But the Legislature Had to Make Judicial Circuit. [ASSOCIATED PRESS DAY REPORT.]

[ASSOCIATED PRESS DAY REPORT.]

KNOXVILLE (Tenn.,) Nov. 26.—The jury at Sevierville, in the case sgainst Pleas Wynn and Cotlett Tipton, charged with the murder of William Whaley and wife in that county last December, brought in a verdict this morning convicting Wynn and acquitting Tipton.

The crime was a dastardly one, and was an outgrowth of the whitecap organization existing in that country. In order to secure punishment of whitecaps, the State Legislature, at its last session, made a new judicial circuit annexing Sevierville county to Knox, so that Judge T. A. B. Nelson would try the cases. There are also cases against Robert Catlett and Itobert Wade, charged with having instigated the crime, and paid Wynn and Tipton for its commission.

THOSE RAISED WAGES.

So Great an Achievement Was Announced, ST. LOUIS (Mo.,) Nov. 26.—Vice President Warner of the Missouri Pa cific tonight said in regard to the gen cific tonight said in regard to the general advance of salaries: "There were only a few men who were cut in 1893. Engineers, conductors, trainmen, telegraph operators, agents and machinists were not cut then. It has been decided to restore the 10 per cent, to such office clerks and a few officers who had held their positions when changed from 1893, when the reductions were made to date, the total amount of which will be between \$5000 and \$4000 annually."

A Fine Battleship,
WASHINGTON, Nov. 26.—The Naval
irial board has made a report upon the
recent two-days trial of the big battleship lows at sea that theroughly
sustains Commedore Dowey's comment
that the ship was as fine a type of
ship of her class as there is in the
vertil.

Both the Advocates and Opponents of the Treaty Reported to Be Agreed on That Point.

PRESIDENT IS EAGER FOR IT.

EXECUTIVE SESSIONS.

Senators Caffery and Cockrell Voice Their Adverse Views Senators Fairbanks and Burrows are Confident.

[ASSOCIATED PRESS DAY REFORT.]

NEW YORK, Nov. 28.—A special to the Herald from Washington says:

"Hawaii will be annexed to the United States during the coming session of Congress. This is one of the certainties of the session. Senators and Representatives, both advocates and opponents, who have thus far arrived in Washington are practically unanimous on this point. President McKinley's message will strongly urge upon the Senators early ratification of the annexation treaty, and it will be one of the first topics brought up in the executive sessions.

Stenator Caffery of Louisiana, who will oppose annexation in any form, said: [ASSOCIATED PRESS DAY REPORT.]

'I am radically opposed to the annexation of any more ierritory to the United States. I think it is foreign to the best policy we can pursue to extend the limits of our jurisdiction over regions of the earth far remote from our natural boundaries. The ac-culsition of territory now included in the United States, excepting Alaska, and powerful impulse to extend our and powerful impulse to extend our domain from ocean to ocean, between the Bittish possessions on the north and the Latin people on the south. Now that this has long been accomplished, and the entire included region amalgamated, with its population in intelligent sympathy with the Constitution and the institutions which exist under it, the question of territorial annexation should rest.

"I can see no resson or adventors.

nexation should rest.

"I can see no reason or advantage in reaching out 2000 miles into the Pacific to take in s. little group of allen islands, which are not geographically allied to this continent, and the acquisition of which can do little for use beyond constituting an outlying naval station, which we are already able to establish there without annexation. That their territorial extent is small does not prevent their annexation from constituting a dangerous precedent for the addition of alien people.

annexation from constituting a dangerous precedent for the addition of alien people.

"Cuba is so much nearer to us than Haweii that she is almost a part of us geographically, but her people are as alien to us as if they lived in the satipodes. The annexation of Hawaii would naturally serve as an argument for the acquisition of that island also. The annexation of Danish-America, and more of Spanish-America would then follow, all of which is foreign to our policy, as I understand it. I acknowledge the existence of a powerful element in the Senate in favor of annexing Hawaii, but can see no reason in following its leadership."

"Senator Cockrell of Missouri is also opposed to the treaty, though he believes that Hawaii will be annexed by legislation, probably during the next session. He said:

"I doubt very much if the necessary two-thirds of the Senators will be found in ratification of the annexation treaty when the time comes to vote. I expect, rather, to see the islands become a part of the United States by an act of Congress, in the same manner in which we acquired Texas. An annexation treaty could not be passed at that time, but legislation to annex the republic was easily passed. The conditions appear to be similar in the case of Hawaii.

"I don't know just in what political states Hawaii may become a part of the Union, but she will probably he

"I don't know just in what pointeal status Hawali may become a part of the Union, but she will probably be not endowed with Statehood immediately. Provisional government of some kind will probably be established at first." Senator Fairbanks of Indiana said:
"The ratification of the treaty will be
accomplished during the coming session without serious opposition."
Senator Burrows of Michigan expressed a belief that a majority of the
Senators are ready to ratify the treaty,
and that annexation will be an accomplished fact in a short time.

afternoon from Copper River. There is no landing-place at Prince William sound, where the Blanchard took fifty-three prospectors from Los Angeles. The men were landed, however, at one of the canneries of the Alaska Packers' Association, three miles below.

THE ELDER'S LIST.

IANNICATED PRESS NIGHT REPORT.

government's consent would have to be obtained.

"In case Great Britain were engaged in hostilities, a diplomat pointed out, it would be practically impossible for France to send-a message over any cable which did not pass through British territory, except that which connects France and Cape Cod, Mass.
"M. Patenotre has made a representation on the subject to Secretary Sherman, who said he did not think it would make much difference. This government could use it if it desired, and in case of necessity an opposition line could be established.
"The French officials, however, point out that in case of a war between the United States and England, the government would find itself handicapped if the cable was under British control."

SENATOR DAVIS WILL MOVE,

SENATOR DAVIS WILL MOVE.

[ASSOCIATED PRESS NIGHT REPORT.]
ST. PAUL (Minn.) Nov. 26.—Senator C. K. Davis leaves next Tuesday
for Washington. Senator Davis said for Washington. Senator Davis said to a reporter today that, on the convening of Congress, he would move for the adoption of the Hawaiian annexation treaty. He is very confident that it will be accepted, although he has not made any canvass among the Senators to learn their sentiments in the matter.

Senator Davis is of the opinion that the materity of the people force and

Senator Davis is of the opinion that the majority of the people favor amexation, and he is enthusiastic over the great importance of such a possession to this country. He characterizes as absurd the statements of certain American newspapers which oppose the annexation on the grounds that only 2 per cent. of the people of Hawaii desire it, and that such a move would be but a perpetuation of the crime of this government in deposing the former Hawaiian government.

ALIMONY IN ARREARS.

BASSO EUGENE COWLES'S EX-WIFE

Her Attorney Applies to the New York Supreme Court to Secure a Bond to Compel Payment-The Singer's Fat Salary.

IBY DIRECT WIRE TO THE TIMES.] NEW YORK, Nov. 26.—(Exclusive Dispatch.) Lizzie V. Cowles in Septem-ber last secured an absolute divorce from her husband, Eugene, the basso of the Bostonians. Mrs. Cowles's attor-ney today applied to the Supreme Court to compel Cowles to furnish a bond to secure \$1000 arrears of alimony due

her by her former husband.

Cowles was directed by Justice Stover to pay his wife \$38 a week permanent alimony and \$10 a week for the support of their son, Eugene P. Cowles, who was placed in her custody. It was shown that Cowles is in receipt of \$150 a week from the Bostonians Company for singing four nights a week, and his hotel bills never averaged less than if a day, Counsel for Mrs. Cowles said she and her child were utterly desti-tute.

SECRETARY LONG'S REPORT

FEATURES OF INTEREST TO THE

Construction on Puget Sound and a Mare Island-The Pacific Squad-ron-Docks Needed-Naval Militia-Tukon Patrol.

ISPECIAL CORRESPONDENCE OF THE TIMES. WASHINGTON, Nov. 20.—Secretary WASHINGTON, Nov. 20.—Secretary John D. Long of the Navy Department in reporting to the President the operations of his department for the past fiscal year, states that the present effective fighting force of the navy consists of four battleships of the first class, two battleships of the second class two armored gruisers, sixteen class, two armored cruisers, sixteen cruisers, fifteen gunboats, six double-turreted monitors, one ram, one dyna-mite gunboat, one dispatch-boat, one transport steamer and five torpedo boats. There are under construction five battleships of the first class, sixteen torpedo boats and one submarine boat. There are sixty-four other naval vessels, including those used as training, receiving, and naval-reserve ships, tugs, disused single-turreted monitors, and some unserviceable craft. There is, further, the auxiliary fleet. This consists, first, of more than twenty subsidized steamers which comply with the requirements of the postal act of March 3, 1891, with regard to their adaptability to naval service, and to an armament of main and secondary batteries; second, a very much greater number of large merchant marine steamers, which can be availed of at any time of need. These auxiliaries, ranging from 2000 to 12,000 tons, will, if occasion require, form a powerful fleet of ocean cruisers, capable of swift and formidable attack upon an enemy's commerce. Their great coal capacity will also enable them to remain a long time at sea in search of the whereabouts of hostile vessels. He says:

"The country is to be congratulated upon the results obtained in the rebuilding of the navy. While its ships are not as many—and it is not necessary they should be—as those of some other great powers, they are, class for class, in power, speed, workmanship and offensive and defensive qualities, the equal of vessels built anywhere else in the world."

Tables are given showing what vessels have been received into the navy teen torpedo boats and one subma-rine boat. There are sixty-four other

equal of vessels built anywhere else in the world."

Tables are given showing what vessels have been received into the navy since the last annual report, and what are under construction. The vessels under construction should be completed during the coming year, except the five battleships, which will probably not be ready for service before the latter part of 1898. Of the latter the Kearsarge and Kentucky are nearly half completed. About three-quarters of their armor has been delivered, a part of which has been secured in place on the ships. The other three, the Alabama, Illinois and Wisconsin, were begun subsequent to the last annual report. With the exception of a small amount of diagonal cosement armor, which the ship contractors have agreed to furnish at the price fixed by law, it will be necessary to preliminarily accept them without armor, in accordance with the terms of the contract for their construction.

The ships are so designed, however, and the contract so drawn that this

struction.

The ships are so designed, however, and the contract so drawn that this can be done without much other embarrassment to the government than the delay in their final completion. But the delay in their final completion. But this, Secretary Long says, is a great embarrassment, practically making these vessels useless meantime to the navy. To prevent this, provision should at once be made for obtaining the armor necessary to their completion. Congress at its last session appropriated a sum of money for the armor for the battleships Alabama, Illinois and Wisconsin, but provided that the price should not exceed an average of \$300 per ton. In response to advertisements, the two companies which now manufacture such armor, replied that they were unable to furnish it at that price. As a result, the final completion of these vessels will be delayed.

As a result, the final completion of these vessels will be delayed.

In compliance with the direction of Congress the department has appoint an armor-factory board, composed of officers selected with especial regard to their fitness for this duty. They have made a careful investigation of the problems presented, and have visited some of the principal steel and iron manufacturing points in the country. The result will be transmitted to Congress in a special report.

problems presented, and nave visited some of the principal steel and from manufacturing points in the country. The result will be transmitted to Congress in a special report.

Work on the torpedo boats has not proceeded as rapidly, on the whole, as the terms of the contracts require. The number of these boats contracted for in the last two years has induced some contractors to enter into competition for their construction who were without previous experience in such work, but no reason appears for doubting that the contracts will be fulfilled in every respect except that of time. An important addition of light-draft and composite gunboats to the effective force of the navy had been made since the last annual report.

The act making appropriations for the naval service for the fiscal year ending June 30, 1898, authorized the construction of not more than three torpedo boats, of not less than thirty knots speed, to cost in all not exceeding \$300,000; of one practice vessel for the naval academy, to be propelled by steam and asail, at a cost, including outfit, of \$250,000; and of two tugs, one for the naval station, Port Royal, S. C., and the other for the Puget Sound naval station, Port Royal, S. C., and the other for the Puget Sound naval: station, Port Royal, S. C., and the other for the provering a variety of designs. This large number of competitors, he says, is a gratifying evidence of the growth of our ship-building plants, and the experience gained in naval building by these new contractors cannot fall to prove a source of strength to the navy. The contracts for these thirty-knot boats were nawarded to the lowest bidders who complied with the requirements.

The original appropriation for the training vessel for the Naval Academy was for the building of one composite vessel, propelled by steam and sail, at a cost, including outfit, of \$250,000. The deficiency act of July 19, 1897, struck out the provision for propulsion by steam, and reduced the appropriation to \$125,000, which is inadequate for the constru

CARE AND MAINTENANCE OF THE FLEET.

The report of the chief constructor gives in detail the work of the past year in connection with the repair and preservation of vessels. It there ap-

was therefore necessarily suspended during the latter part of the fiscal year. This has caused an immediate drain upon the funds for the present year, which probably will likewise be prematurely exhausted. The department is making special effort to keep down the requests for and the estimates and cost of repairs.

It is impossible, however, to hold these expenses at what they would be if done under the competition and under the longer hours and more favorable conditions of private establishments, and the chief constructor, in his estimates for the ensuing year, is justified in asking for a larger appropriation under this head, especially as the constant additions to the numbers of vessels in the service necessarily involves increased expenditures for care and maintenance.

The fleet of torpedo boats available for active service is rapidly increasing. Provision has been outlined for their stowage and preservation at small cost. The department has during the past year adopted the practice of placing in reserve such vessels as it deems advisable for any reason not to retain in active commission.

SHIPS IN COMMISSION.

SHIPS IN COMMISSION. The North Atlantic squadron, under nd of Rear Admiral Bunce until

The North Atlantic squadron, under command of Rear Admiral Bunce until May 1, 1897, and since then under Rear Admiral Sicard, has had, during the past year, the benefits which result from exercises in drill and fleet maneuvers. This squadron is composed of the New York (first rate.) flagship; Massachusetts (first rate.) Furitan (first rate.) Indiana (first rate.) Iwa (first rate.) Teracor (second rate.) Montgomery (second rate.) Marblehead (third rate.) Wilmington (third rate.) Detroit (third rate.) Annapolis (third rate.) Nashville (third rate.) Fern (fourth rate.) Vesuvius (fourth rate.)

Embracing three battleships of the first class, two of the second, and some of our best cruisers, it makes the most formidable fleet asembled since the civil war. The department has been able during the past year, for the first time, to exercise battleships as a squadron. This fleet visited Charleston during February, and was exercised in a blockade of that port. The value of exercise of this kind to the fleet canot be overestimated, and it is the intention of the Department to utilize the North Atlantic squadron as far as possible in drills and maneuvers, from the results of which data can be obtained as to the most effective method of using the fleet in time of war.

The smaller ships of the squadron

from the results of which data can be obtained as to the most effective method of using the fleet in time of war.

The smaller ships of the squadron have been assigned in turn to active duty in connection with enforcing neutrality laws on the gulf coast and the coast of Georgia. Florida and the Carolinas. The work has been done with great vigilance and to the credit of the commanding officers.

The Pacific squadron, Rear Admiral Miller commanding, consists of the Oregon (first rate,) Philadelphia (second rate,) flagship; Monierey (second rate,) flagship; Monierey (second rate,) Alert (third rate,) and Murietta (third rate). The Asiatic squadron-Rear Admiral McNair commanding, consists of the Olympia (first rate,) flagship; Boston (second rate,) Yorktown (third rate,) Monocacy (third rate,) Machias (third rate,) Yorktown (third rate,) Monocacy (third rate,) Machias (third rate,) Petrel (fourth rate.) The Concord (third rate,) and the Helena (third rate,) have been ordered to join it. These vessels have been crulsing on the coast of Asia wherever it was deemed advisable to show our flag or look after Ametican interests, and during the summer, all the ships, except the Monocacy, rendezvoused at Chefoo.

The European squadron, Rear Admiral Selfridge commanding, comprises the San Francisco (second rate,) flagship; Raleigh (second rate,) and Bancroft (fourth rate,) and during the greater part of the past year has been engaged in protecting American interests in the eastern part of the Mediterranean, where the unsettled condition of affairs, which finally resulted in the war between Turkey and Greece, made the presence of the fleet desirable. The South Atlantic squadron, Capt. Chester commanding, consists of the Cincinnati (second rate) and the Castine (third rate,) the gunnery school ship Amphitrite, the cadet practice ship Standish, the first-class crulsers Columbia and Minneapolis in reserve, the Dolphin (third rate,) on special service.

The newly-compelted flagship Brooklyn was present at the jubilee com-

pedo boats Porter, Du Font, Cusning and Ericsson, on special service.

The newly-completed flagship Brooklyn was present at the jubilee commemorating the sixtieth anniversary of the coronation of Queen Victoria, and, with its officers, was cordially reclaimed as representing there our needed.

in the occasion.

Secretary Long notes the application of electricity to various uses on warships, and states that he has ordered it substituted for steam power on the battleships Illinois and Alabama. THE CONSTITUTION

In compliance with the request of the civil authorities in Massachusetts, In compinance with the request of the civil authorities in Massachusetts, the department ordered the frigate Constitution towed to Boston, to participate in the celebration of the one hundredth anniversary of her launching on the 21st of October, 1797. Secretary Long says the widespread interest in this anniversary and the patriotic sentiment to which it gave rise throughout the country found fitting expression in the ceremonies consummated that day by the city of Boston in honor of this most gallant of the historic ships of the navy. In view of the affection with which the people regard the Constitution, the department believes that it should be preserved and handed down to future generations. It is therefore suggested that a sufficient appropriation be made to fit it for use as a training ship. This would prevent it from passing off the list of the navy, and would keep alive the patriotic sentiment of which the old frigate has always been an inspiration.

NAVAL CONSTRUCTION.

NAVAL CONSTRUCTION. Some attention is paid to the progress of naval construction abroad, and the most striking feature is said to be that of the Japanese government. She already ranks next to England and France in the extent of her naval building. She has added during the past year to her fleet two first-class battleships, built in England, and her programme for the tuture will render her by the year 1902 the strongest naval power in the Pacific Ocean. It appears from the report of the Bureau of Yards and Docks that today the most urgent need of the naval service is an increase of dock facilities. Of the eleven government docks—nine on the Atlantic and two on the Pacific Coast—three were designed to accommodate battleships of the first-class, one at New York, one at Port Royal, S. C., and one at Bremerton, Wash., on Puget Sound. ress of naval construction abroad, and

PACIFIC COAST.

On the Pacific Coast there is but one dock of sufficient size to dock a modern dock of sufficient size to dock a modern battleship. This is on Puget Sound, 900 miles from San Francisco. Access to it is through a narrow channel twenty miles long, one side of which is in possession of a foreign country. This lack of docking facilities should be remedied at the earliest possible moment. The necessity is imperative. The department therefore appointed in August last a special board to examine the matter, and the valumble report made by it will be forwarded to

though less expensive than stone or concrete, are not durable.

A plan for the location of additional government docks, recommended by this board as a result of its investigations, is comprehensive and should be substantially carried out. When completed, it will give the necessary facilities demanded by the extensive coast line of our country. There are seven strategic divisions of our coast: First, from the Bay of Fundy to Cape Cod. second, from Cape Cod to Sandy Hook; third, from Sandy Hook to Cape Henry; fourth, from Cape Henry to Cape Sable: fifth, the coast line bordering on the Guif of Mexico; sixth, the southern portion of the Facific Coast, and seventh, the northern portion. There should be docks and repair shops in each division, and these should be placed, as for as possible, at great commercial and industrial centers, not only because workmen and material can be obtained more readily and more reasonably at such points, but also because such points require and will have from their importance to the country, a strong land defense; and, as the docks also require strong defense, one set of fortifications will cover both civil and military property. The department recommends that work on docks or dock improvements be begun at once at Boston, Portsmouth, N. H.: New York, League Island, Norfolk, Port Royal and Ariglers (New Orleans,) and that at Mare Island the new first-class dock recommended by the board be provided as soon as the depth of water, which is now only twenty-feet, shall be increased, as it ought to be, to the proper extent.

The International Dry Dock and Construction Company of New York proposes to construct and maintain a steel floating dry dock of the pattern recommended by the board, 550 feet long, of over 15,000 tons capacity, costing \$1,500,000, and to complete the same ready for service in nine months, if insured by the government 6 per cent. Interest on the amount invested for twenty years. For this remuneration they propose, in addition, to allow the use of the dock for 100 days each

within that time. Their proposal includes the free use and possession of the dock by the United States for 100 days each year in peace, and its entire use in war on terms to be mutually agreed upon, or, failing that, to be fixed by arbitration. Secretary Long says it is possible that the same thing can be done at San Francisco, where the low water at Mare Island is a present embarressment in the way of constructing at the navy yard there a dock of sufficient size for our largest vessel. The estimates for improvements submitted by the commandants of the navy yards to the Chief of the Bureau of Yards and Docks amount to more than \$8,000,000. For the coming fiscal year the Bureau of Construction and Repair asks for improvements and repairs to the navy yards at Portsmouth, Boston, New York, League Island, Norfolk, Mare Island and Puget Sound to the extent of \$50,000 each; the Bureau of Yards and Docks as follows: Boston, \$15,000; Norfolk, \$35,000; Naval Station, Puget Sound, \$50,000; the Bureau of Yards and Docks as follows: Boston, \$15,000; Washington, \$76,347; Norfolk, \$146,000; Mare Island, \$222,571; Port Royal, \$65,000; Puget Sound, \$19,-432; also for housing torpedo vessels at such navy yards and stations as may be selected, \$222,000; for coaling wharf at Japonski Island, Alaska, \$500, and for repairs and preservation of navy yards, and preservation of navy yards, the change to be made gradually and extended from time to time.

EMPLOYEES.

Of the complaints which have come

Of the complaints which have com-to the department, charging favoritism in the employment, promotion, reduction, dismissal, or grading of employés at navy yards, hardly one has proved to be well grounded, although careful and extended investigation has been had, the complainants in some cases being represented by counsel. This demonstrates, as well perhaps as any-thing could, the merit of the present registration system.

ORDNANCE AND ARMOR. Progress has been made under the Bureau of Ordnance in arming our vessels in keeping with their increase in number. All the guns, 547 in number, required for the main batteries of the modern ships of the navy have been completed except those for the five battleships now under construction, and for the Hartford. These guns, however, will be completed far in advance of the battleships. During the past year eighty-eight guns of various calibers, from four to thirteen inches for the main batteries of vessels, have been completed at the naval gun factory, and 169 are now in process of manufacture. For secondary batteries for naval vessels the department has ordered 963 guns. One hundred three-inch field guns have been manufactured. The manufacture of 100 heavy one-pounder automatic quick-firing guns has been undertaken. A number of six-inch guns of ordinary type are under conversion into rapid-firing guns. Contracts have been made during the past year for a quantity of commen and armore hereing shells for Progress has been made under the under conversion and page guns. Contracts have been made during the past year for a quantity of common and armor-plercing shells for one-pounder and six-pounder guns, and for guns of from four to thirteen-inch

for guns of from four to thirteen-inch calliber.

Progress has also been made in obtaining a reserve supply of guns and projectiles for naval vessels and for auxiliary cruisers. At the present time 142 guns for this purpose are in process of manufacture, twelve of which are of large caliber, and 130 suitable for arming auxiliary cruisers. This number will be sufficient to arm only twenty-one vessels with six guns each. It is deemed desirable by the department that this work should be steadily prosecuted. The board for the inspection of merchant vessels has scheduled sixty vessels, and recommends batsixty vessels, and recommends bat-teries as follows: Forty-six six-inch 205 five-inch and 206 four-inch guns

205 five-inch and 206 four-inch guns. There are now in process of manufacture 41 six-inch, 40 five-inch and 40 four-inch guns, leaving to be provided 5 six-inch, 165 five-inch and 157 four-inch guns.

During the past year the contract for armor for the Iowa was completed by the delivery of a balance of 265 tons. Since October 1, 1896, 2691 tons of armor for the Kearsarge and Kentucky have been delivered in installments as required by contract. There remain yet to be delivered 2876 tons. The total amount of armor delivered prior to October 1, 1896, was 19,283 tons, making the total amount of armor contracted for in this country since this industry was domesticated, 25,115 tons.

ALASKA'S NEEDS.

ALASKA'S NEEDS.

Authority is asked to purchase a sultable tract of land contiguous to the able tract of land contiguous to the waters of New York, where a magnagine can be erected for our principal naval station there, and attention is invited to the recommendation of the chief of the Bureau of Navigation for the construction of a etern-wheel boat of light draft for patrol service on the Yukon River. It would essentially aid in securing a proper observance of the law in Alaska. The appropriation necessary for this purpose is estimated at \$30,000, and as much more for the establishment of three small posts at different points on the river, and for providing a proper outfit for the officers and men.

ENLISTED MEN. ENLISTED MEN.

ing the past summer in a number of the lake cities, and a number of excellent men enlisted. The department intends to repeat this action in the Southern States, believing that similar enlistments can be secured on the Guifroast. The records of the bureau show that of the 2846 petty officers in general service June 30, 1837, 48 per cent. were native born and 35 per cent. were native born and 37 per cent. were native born and 70 per cent. were citizens of the United States; and of the 5840 other men in general service 58 per cent. were native born and 70 per cent. were citizens of the United States. It should be said that of these petty officers and men a great number are of long seafaring experience, and have excellent and deserving records.

NAVAL ACADEMY.

The superintendent of the Naval Academy recommends, and the board of visitors concur with him, that the ultimate age of admission to the academy be fixed at 18 years, instead of 20, as at present, in order to insure a more uniform age of officers attering the service. Under the present system graduates are sometimes nearly 26 years of age at the time of leaving standards and the device of the state of the consent of the Treasurg raduates are sometimes nearly 26 years of age at the time of leaving standards and the development of the provision for the maintenance of the naval defense, and it the words 'submarine mining outfits,' to admit of training the militia for this the words 'submarine mining outfits,' to admit of training the militia for this surpose. Plans have been formulated with a view to establishing coast signal stations for naval defense, and it the words 'submarine mining outfits,' to admit of training the militia for this purpose."

NAVAL WAR RECORDS.

are of long seafaring experience, and have excellent and deserving records.

NAVAL ACADEMY.

The superintendent of the Naval Academy recommends, and the board of visitors concur with him, that the ultimate age of admission to the academy be fixed at 18 years, instead of 20, as at present, in order to insure a more uniform age of officers entering the service. Under the present system graduates are sometimes nearly 25 years of age at the time of leaving the academy, and are frequently outranked by those who are younger by four or five years. As a large percentage of those who fail at the academy are over 18 when they enter it, this change would tend to lessen the expense to which the government is put in maintaining and educating them from one to six years, only to find that they ultimately fail to pass the required examinations.

Attention is invited to the unanimous resolution of the board of visitors to the Naval Academy, in which "the board calis attention to the obvious fact that the irregular method of constructing buildings upon the academy grounds has been wasteful and unsatisfactory, and recommends that in future different construction obtain here, especially in conformity with the general plan previously adopted." The condition of many of the buildings at the academy is such as to make it desirable that Congress should consider the question of their reconstruction.

For the fiscal year ending June 30, 1897. a deficiency appropriation of \$200,000 was made, and a similar amount will be needed for the current year. It is therefore asked that a sufficient appropriation be made at the coming session of Congress to avoid the necessity of a deficiency; and the estimates of this bureau for thenext fiscal year are increased by \$275,000 over the appropriations for the current year.

The Judge-Advocate-General makes a number of recommendations, includ-

one over the appropriations for the current year.

The Judge-Advocate-General makes a number of recommendations, including the following: That power be given the Secretary of the Navy to remove the charge of desertion; legislation authorizing naval courts to certify cases of contempt to nearest United States courts; exthorizing the return to the naval pension fund of all pensions deducted because of residence in the naval home at Philadelphia; changes in classification of vessels, and method of payment for trial trips.

MARINES AND MILITIA

MARINES AND MILITIA.

trial trips.

MARINES AND MILITIA.

The report of the colonel commandant of the Marine Corps recommends the authorization of additional enlistments. Five hundred men were added two years ago, but the rapid increase of naval vessels and the addition of two more shore stations which have been established—one at Puget Sound Naval Station. Wash, and one at Pensacola, Fia.—are the reasons for this recommendation. The work of the war college is indorsed, and some attention is paid to the naval militia. The appropriation of \$50.000 the work of the war college is indorsed, and some attention is paid to the naval militia. The appropriation of \$50.000 the work of the war college is indorsed, and some attention is paid to the naval militia. The appropriation of \$50.000 the work of the war college is indorsed, and some attention is paid to the naval militia of the seven and to predocute the special properties of the seven and also to a few torpedo boats and torpedocute to books of instruction and some attention is paid to the naval militia during the books of instruction is paid to the naval and the seven and to predocute the seven and to the seven and to predocute the seven and to the seven and to a few torpedo boats and torpedocute the seven and to a few torpedo boats and torpedocute the seven and the service up to its place in the service up to its pl

servising or for use as barracks.

Secretary Long says: "But a small sum is appropriated for the maintenance and care of the naval militia, and this sum becomes smaller for each division from year to year, inasmuch as the number of organizations continually increases. The department is therefore not able to drill and supervise these organizations as it would like to do, and they must be left largely to Flaume.

NAVAL WAR RECORDS. NAVAL WAR RECORDS.
Since the last annual report the department has published and distributed the fourth and fifth volumes of the official records of the Union and Confederate navies in the war of the rebellion. The sixth volume is now in the hands of the printer. The recommendation for the reorganization of this office, based on the plan pursued in the publication of the records of the war of the rebellion, is renewed.

PERSONNEL AND SHIPS.

The report closes with praise for the

the personnel of the navy and a recon

The report closes with praise for the high character and patriotic spirit of the personnel of the navy and a recommendation that no limit be placed on the number of apprentices admitted to training. Of the increase in the navy which. Secretary Long says, is demanded by the declarations of the people, it is the opinion of the department the time has now come when that increase should be on adjunctory lines in order to bring our naval facilities up to the same line of advance. The principal need today is that of sufficient docks, of which there is a deplorable lack; of adequate supplies of the munitions of war, which should never be at the hand-to-mouth stage; of an equipment of our navy yards equal to the demand upon them of the increased number of our ships; and of an enlarged corps of officers and men to do the work.

"Additions to our fleet may be hereafter necessary," says the Secretary, "to bring it in case of emergency to an extent commensurate with the growing necessities of the country, especially in view of the development of Alaska, which is a continent in itself, and of the possible annexation of islands in the Pactific. On the other hand, it is a mistake not to recognize that our naval power has more than doubled within the last few years; that the case of any emergency beyond our present resources is the very rare case; that until it comes ships will be gradually taken out of commission and put into reserve in order to reduce running expenses; and that a due regard is necessary to the relation of the national expenditures to the national revenues. The department therefore recommends that the authorization of his patriot of which are completed, there will be easy and to the are competed, there will be even; and also to a few torpedo boats and torpedoboat destroyers, both of which are competed, there will be enty two, while on the Atlantic there will be seven; and also to a few torpedo boats and torpedoboat destroyers, both of which are competed, there will be even; and also to a few torpedo boat and

Anstrian Steamer Sunk.

LONDON, Nov. 26.—The British's teamer Baron Ardrossan, from Bombay, October 14, for Antwerp and Havre, collided with the Austrian steamer Jokai last night off Dungeness. The Jokai sank shortly afterward. Four of her crew were drowned, and cighteen others were rescued by a pilot-cutter. The Baron Ardrossan had her bow stove in.

The Jokai is an iron vessel, was built at Barrow in 1882, and registered 1148 tons gross. She halls from Flaume.

Total for the week. 13.7 000
Daily average for the week. 19.584
[Signed] HARRY CHANDLER.
Subscribed and sworn to before me this 20th
day of November, 1887.
[Seal]
Notary Public in and for the County of Los
Angeles, State of California.
NOTE.—THE TIMES is a seven-day paper.
The above average, viz. 137.000 copies, issued by us during the seven days of the past
week, would, if apportioned on the basis of the past week, we wening paper, give a daily average circulation for each week-day of 22,848
copies.

THE TIMES is the only Los Ar geles paper, which has regularly published sworn statements of its etreulation, both gross and net, weekly, monthly and yearly during the past several years. Advertises have the right to know the NET CIRCULATION of the medium which seeks their business, and this THE TIMES gives them correctly, from guarantees that the circulation of THE TIMES regularly exceeds the combined circulation of all other Los Angeles daily newspapers.

DR. WONG HIM, S3! South Hope st.

Loa Angeles, Cal.

Dear Sir:—in justice to you and for the benefit of others, I wish to make a statement of my case. I was afflicted with ulceration of the rectum and hemorrhage of the bowels. I was treated by two good doctors until I lost 32 pounds of feels and became so weak from loss of blood that I was unable to attend to business. I then commenced doctoring with Dr. Wong Him. Bleeding stopped and I commenced to improve with the first dose of medicine, and at the end of four months I had regained my lost flesh and health, and am today well and sound. In Dr. Wong Him's honesty, integrity and ability to cure any disease that he says he can cure I have unbounded confidence and faith, and would recommend him to all needing a doctor. Tours truly large in the leading a doctor. Tours truly TAYLOR.

PACIFIC COAST WON.

FANNING'S SHOOTING CAPTURES THE DIAMOND TROPHY.

Twenty-five Live-bird Shoot Unde the Auspices of the St. Louis Lengue.

THREE MEN TIED FOR FIRST

THE SAN FRANCISCAN WON ON THE

Manchester Meeting-Baltimores Beat All-Americas—The Race Summaries.

[ASSOCIATED PRESS NIGHT REPORT.1 ST. LOUIS, Nov. 26.—The twenty-five-live-bird shoot, under the auspices of the St. Louis Trap-shooters' League, was completed today. Fanning of San Francisco, Charles Budd of Des Moines and W. S. Sergeant of Joplin, Mo., tied for first money, each scoring 25 straight. The big end of the purse was divided among the first three.

In the shoot-off for the diamond trophy, Fanning was scoring 14 out of

trophy, Fanning won, scoring 14 out of 15. Sergeant fell down on his seventh bird, while Budd dropped out on his twelfth. Twenty-three experts shot in

Fred Gilbert and Harvey McMurchie divided second money in the twenty-five-live-bird event, each scoring 24.

SLOAN IN THE SADDLE. Results of the Second Day's Racing

at Manchester.
[ASSOCIATED PRESS NIGHT REPORT.] LONDON, Nov. 26 .- [By Atlantic Cable.] With Tod Sloan in the saddle, D. Seymour's four-year-old bay mare Sapling finished first in the race for the Ellsmere Welter Handicap at the second day's racing of the Manchester November meeting today. This event is of 105 sovereigns, added to a sweepstake of 5 sovereigns each for starters, for three-year-olds and upward. There were twenty starters, including Richard Croker's Georgiana, which was unplaced. The distance was six fur

placed. The distance was six furlongs.

In the race for the Ordsall Nursery Handicap, Sloan rode Poivarde and finished third. Sloan also rode W. T. Lee's four-year-old chestnut colt Royal Flush in the race for the Lancashire Handicap, but was unplaced. This race is of 1000 sovereigns for three-year-olds and upward, distance one mile. The Cravens chestnut colt Walter Heade, ridden by Sloan, and Richard Croker's brown filly Rhode were among the starters in the race for the Eglington Nursery Handicap, but both were unplaced.

Onkland Races.

Oakland Races.

SAN FRANCISCO, Nov. 26.—At Oakland today the weather was fine and track heavy.

Five furlongs, two-year-old maidens:
Toto, 110 (Clawson,) 3 to 2, won; Hertha, 110 (Spencer,) 9 to 1, second; Moringa, 193 (McNichols,) 3 to 1, third; time 1:05. Fallen Princess, Bessie Lee, Thisbe II, Iron Heels, Sunshine, Rosa and Morabella also ran.

Six furlongs: Callente, 112 (Clawson,) 3 to 5, won; R. Q. Ban, 104 (E. Jones,) 7 to 1, second; Silver State, 104 (Morse, 1) 40 to 1, third; time 1:17%. Alvera, Ricardo, Last Chance, Hazel D., Monitor, Elano, Senator Mahoney and Charlle Boots also ran.

Elano, Senator Manoney and Charlie Boots also ran. Six furlongs, two-year-olds: Fonsa-vannah, 113 (Piggott,) 3 to 2, won; Morellito, 110 (Snider,) 4 to 1, second; Soscol, 107 (C. Wilson,) 100 to 1, third; time 1:17. Marplot, Sybaris and Lord

Marmion also ran.

One mile, three-year-olds and upward: Fortunate, 101 (Morse,) 3 to 5, won; Earl Cochran, 105 (Harrington,) 15 to 1, second; Coda, 105 (E. Jones,) third; time 1:47½. Navy Blue, Alvin E., Paul Pry and Marcle A. also ran. Flve furlongs, two-year-olds: Al Koran, 113 (Clawson,) 4 to 1, won; Rebel Jack, 113 (Piggott.) 6 to 1, second; P. A. Flnnegan, 113 (Morse,) 6 to 1, third; time 1:04. Notice Me, Sevoy, Bodacla, Erolca, Novia and Roulette Wheel also ran. Bodacia, Eroica Wheel also ran.

Boots Must Come Off. Boots Must Come Off.

SAN FRANCISCO, Nov. 26.—The
Boots horse will not be allowed to race
at Ingleside, at least not until the
owner in question has settled his differences with the management at
Oakland track. This much was determined at a meeting of the directors of
the Pacific Coast Jockey Club held today. The sccretary of the club was instructed to write to Mr. Boots, warning him to have his horses removed from
Ingleside by noon tomorrew. Boots
will comply.

The Baltimores Won.

SANTA ROSA, Nov. 26.—Two thousand spectators, in sun-warmed seats, witnessed a snappy game this afternoon between the Baltimores and the All-Americas. The Baltimores won by

Kansas City Sensation.

KANSAS CITY, Nov. 26.—Another sensational incident in connection with the trial of Dr. Jefferson S. Goddard, for the murder of Loundryman Fred J. Jackson, is the swearing out of a warrant for the arrest of Ross W. Latshaw, an ex-Justice of the Peace, who is charged with attempting to corrupt a jurer in the second trial of Goddard. George Jackson, brother of the murdered man, alleges that Lotshaw agreed to give one of the venire drawn on the second trial of Goddard 550 to qualify as a juror and hang the jury in the interest of the defendant. Kansas City Sensation.

Wholesale Liquor House Closes. Wholesale Liquer Honse Closes.

KANSAS CITY (Mo.,) Nov. 26.—The wholesale liquor house of the Martin Perrin Mercantile Company was closed today, the company having filed chattel mortgages aggregating \$53,621 in favor of preferred creditors. The Metropolitan National Bank of Kansas City, with a claim of \$39,000, is the principal creditor. The company's assets, it is stated, are about equal to the liabilities.

COAL CITY (Pa.,) Nov. 26.—The strike in Wilmington coal fields is broken. The mines of the Star Coal Company, Big Four Coal Company and Wilmington Coal Mining and Manufacturing Company, resumed work today at the 77½-cent scale. Over three thousand miners are employed in these mines.

THE PRESIDENT.

Receives the Retiring French Am-

bassador and Meets the Cabinet.
[ASSOCIATED PRESS DAY ELPORT]
WASHINGTON, Nov. 26.—It has
come to be understood, apparently,
that the President is too busily engaged with the matters that he must

raxed with the matters that he must bring to the attention of Congress to devote time to the consideration of candidates for public offices, so this morning there was only one Congressional, caller.

Sccretary Sherman came over to the White House from the State Department, accompanied by the French Ambassador, M. Patenotre, with the secretary of embassy, M. Thiebault, The party was shown into the blue parlor, where President McKinley waited by appointment, and the Ambassador presented his letters of recall. He made a speech expressing his regret at the termination of his pleasant official relations with the authorities here, and the President in turn made a few remarks in the same strain. M. Patenotre goes to Madrid to assume the position of Ambassador there, and will be succeeded here in a few weeks by M. Cabon, the former Governor of Algeria.

The Cabinet meeting called together

will be succeeded here in a few weeks by M. Cabon, the former Governor of Algeria.

The Cabinet meeting called together all the members of the Presidential family, and lasted fully half an hour longer than usual. Notwithstanding this, it was said the proceedings were of a routine nature, and that Cuban affairs were not touched upon beyond a congratulatory reference to the fact, reported to the State Department, that the last of the Americans who have been held prisoners in Cuba has been been held prisoners in Cuba has been held prisoners in Cuba has been released, in the person of Luis So

lie.

The President has not finally completed his message to Congress. The matter is, however, in such shape that it can be put in form for the printer at a day's notice but this notice has not a day's notice but this notice has not use heen given, and the Cabinet convertible. yet been given, and the Cabinet con-sumed most of the time of the day's ession going over once more certain ortions of the document. One of thes portions was the very first chapter of the message, treating of the foreign relations of our government. It is the intention of the President

devote much attention in his mesto devote much attention in his measage to the subject of trade relations and reciprocity, so that there was some tolk today respecing the positions assumed by the great European sugar-producing countries, that the laying of a countervailing duty, on sugar to offset the home-paid bounty amounts to unjust discrimination. It is certain that the arrangement of the reciprocal agreements under the tariff law which Congress directed, should be prepared as speedily as may be is retarded by considerations growing out of the bounty questions.

UPROAR, NOT OPERA.

WHAT THE AUDIENCE GOT AT

loston Lyric Stock Company Does not Play the Bohemian Girl, but Striking Singe Hands Go Through a Little Scene.

PASSOCIATED PRESS NIGHT REPORT.1 CHICAGO, Nov. 25 .- The audience at the Great Northern Theater tonight narrowly missed being entertained by a riot of stage hands, actors and actresses, instead of the "Bohemian Girl," which was the opera billed for the performance. The trouble was caused by a strike of stage hands and

electricians. After a delay of half an hour the curtain rose, with all the members of the Boston Lyric Stock Company in opera costume, grouped about the stage sur-

electricians.

In constraint price fixed, Company in operation in the problems of the coverage of the second price fixed company in operation in the problems of the coverage of the problems of the problems of the coverage of the problems of the problems

THE NOVELIST FINDS A NEW HERO FOR HIS PEN.

His Interest Aroused by the Case of dently Sympathizes.

SCHEURER-KESTNER LAUDED.

HE CLUTCHED THE TRUTH AND NOW DEMANDS JUSTICE.

While He Walted for the Government to Act-Nothing Can Now Stop Him.

(ASSOCIATED PRESS DAY REPORT.) NEW YORK, Nov. 26.— A dispatch to the World from Paris gives in detail the letter written by Emile Zola, the French author, in behalf of M. Dreyfus. The World says:

"All the world is ringing with the Dreyfus case. It is the one subject discussed everywhere. It seems certain that the whole subject will soon be reopened, and the case retried. Zola does not champion Dreyfus's cause directly. He culogizes M. Scheurer-Kestner, a Vice-President of the French Senate. who lately had asserted that he is positive that Dreyfus is innocent, and that an awful mistake has been made in bronding him as a traitor and sen-tencing him to prison for life on Dev-il's Island. He writes thus:

il's Island. He writes thus:

"What a thrilling drama! What magnificent characters! in the presence of the beauty of these characters, furnished by real life, my novelist's heart leaped in my bosom with passionate admiration. I know of nothing in the whole range of psychology which is on a higher lever. I have no intention of speaking of the affair itself. If circumstances have allowed me to study it and to come to a formal conclusion, I do not forget that an investigation has been opened; that courts have taken cognizance of the matter, and that the honest thing to do is to wait, without adding to the mass of wretched gossip which has obscured an affair in itself so simple and so clear.

"That from now those nevenesses."

clear.
"But from now these personages

an affair in itself so simple and so clear.

"But from now these personages belong to me—to me, simply a looker-on in life who keeps his eyes open, and if the condemned of years, if the accused of the present time are to me socred until justice has done its work, the third great character in this drama cannot suffer from the effect if one speaks one's mind honestly and bravely concerning him.

"This is what I have seen of Scheurer-Kestner, what I think and what I believe. Some doy, perhaps, circumstances permitting, I may speak of the two others. A life as clear as a crystal, as straightforward, as loyal asten be not a stain, not the slightest moment of weakness. An unchanging opinion faithfully followed. Without restless ambition; with an exalted political positon, due alone to the respectful sympathy of his equals. Withal, not a dreamer or a theorist. A manufacturer who has lived in his laboratory, devoting time to special study without counting the daily cares of a great business house under his core; let me add, large fortune, wealth, honors, happiness, the crowning of a noble life entirely given up to work and faith; nothing to desire except to make a proper ending. So much for the man about to take part in the meest tragic and absorbing of dramas.

"One day a doubt enters his mind, a doubt that was in the air and had already troubled more than one conscience. A court-martial had found guilty of treason a captain who, perhaps, is innocent. The punishment has been terrible—degradation in public confinement in a distant locality, all the execution of a nation wreaking its rage to destroy a wretch at its feet. But if he were innocent—great Col, what a shudder of unbounded pity; what a cold shiver of horror at the thought that there was no reparation possible.

"Doubt arose in the mind of M.

evil, but yet certain newspapers are guilty of maddening some and terrorizing others, living on scandal to triple their sale. Idiotic anti-Semitism fanned the flame of this folly.

"I fancy that in the proud silence of M. Scheurer-Kestner there was also a desire to wait until every one had consulted his conscience before proceeding to act. When he spoke of his duty, which even on the ruins of his high position, fortune and happiness, commanded him to do what was right, as soon as he knew, it, he uttered these admirable words, else he could not have lived well: "That is what all honest men concerned in this affair should say—that they cannot live unless they see justice done. Truth is on the way, and now nothing can stop it."

SPARKS FROM THE WIRES

Day Dispatches Condensed. Edwin W. French, formerly city salesman for the Blanke Tea and Coffee Company of St. Louis, was arrested in Kanasa City, Kan., charged with embezzling 32300 from his firm. French's lawyer asserts the scortage is not over 1400.

French's lawyer asserts the acortage-is not over 1400.

A Cincinnati dispatch says passenger train No. I leaving there at 9 am. on the Baitimore and Ohio Southwestern was derailed at Pierceville, thirty-five miles south, by the breaking of an azie under the postal car. No one was hurt.

A Madison (Wis.) dispatch says the first snowstorm of the season came Thurday night in the form of a blizzard, which lasted eight hours. The wind was blowing a gally yesterday. The atorm knocked out telephone and troiley companies.

A dispatch from Casseopolis, Minn., says at an entertainment in Calvin township Thursday night, Jacob Chavous, colored, was struck with a club on the back of the Beek was broken, and he died instantiy. Mooroe is an ex-convict.

Is an ex-convict.

The majority of the Erazilian Congress, says the New York Herald's correspondent in Rio de Janeiro, will approve the treaty with France, submitting to arbitration the Amaga question. Several new arrests for complicity in the plot against President Moraes have been made in Rio Janeiro.

Moraes have been made in the Jaherro.

Col. George A. Bute, a prominent infining man of Telluride, Colo., as been missing since August 24. His friends fear he has met with foul play, as, he hed a large rum of money when he left Tellu...de. He had announced an intention to go to Excelsior Springs, Mo., or to Arizona, for three weeks' recreation.

Springs, Mo., or to Arizona, for three weeks' recreation.

A dispatch to the New York Herald from Lina, Peru, says it is officially announced that the new Cabinet will be composed as follows: Minister of Home Affairs, Sefor Romano; Justice, José A. Lavoile; War, Senor Pardo; Public Works, David Flores; Finance, José Maria Puenue; Foreign Affairs, Senor Rey.

Advices from the New York Herald's correspondent in Montevideo, Uruguay, states that 'Sefor Julio Herora has requested the police to guard him, fearing that his political enumies are at work to murder him. The rumors that President Cuestas will dissolve the Contress and establish a dictatorship are persistently circulated.

A Kansus City dispatch says two footpads stopped Mrs. Richard A. House, wife of a Chicago and Alton consineer, at on outlying point and robbed her of \$50. Mrs. House resisted and one of the men poured the contrat of a bottle of suphuric acid on her hands. The men escaped unidentified. The woman's hands are not badly burned.

The Chilean press has started another deated discussion as to the ownership of

hands. The men escaped unidentified. The woman's hands are not badly burned. The Chilean press has started another deated discussion as to the ownership of Puna and Aucama. The question is whether Puna and Aucama are caused by Argentins or Chile. The press is split on this question, many newspapers maintaining that they need belonged to this: others claiming that they have since Bolivia ceded them. This may be a subject of thiter discord between Chile and Argentina.

A special to the New York Herald from Naipareiso, Chile, says that despite strong opposition by Senators Carlos Walker and Martinez, the Ultra-Clericals and Conservative leaders, the Baimacedist-Conservative alliance has been effected. This may lead to changes in the Cabinet later. It is stated that Congress will not ratify any of the treaties negotiated in 1895 with Bolivia, but this will not affect the stability of the Cabinet.

old-time enemies.

"BIG MAN LOST."

the erratic and peculiar, but always

noisy and aggressive. Evening Record

of this city yesterday published the

"With the rays of the noonday sun

beating down upon his snow-white head, Lionel A. Sheldon, ex-Repub-lican Member of Congress from Ohio

and ex-Governor of the Territory of New Mexico, the personal friend of Ulysses S. Grant, James G. Blaine, James G. Garfield and William McKin-

ley, today explained to several hundred

persons from the steps of the Silver Republican Club why he had decided to in future cast his political lot with

"Gov. Sheldon's new leanings have

been known for several months. To-day was, however, his first public ap-

pearance as a Silver Republican, and when the fact that he was delegate-at-large to the national convention which nominated McKinley is taken into con-

sideration his defection and political change of heart will create a sensation

houghout the land.
"Gov. Sheldon told his audience to

day that no tariff bill can be passed which will net sufficient revenue to operate the government, the Dingley

aw having so far piled up a deficit of

\$44,000,000. He was in favor of an in-

come and inheritance tax, and he be lieved in bimetallism."

It is evident from the foregoing that

a man is "lost;" but the consensus of

opinion in Republican circles is that

there will be no general or concerted

attempt to find him, and that he never

will be missed. It is recorded of a

certain untutored son of the forest, to

wit, an "Injun," that he loudly de-

clared, once upon a time, "Injun no

lost-wigwam lost!" In the present

case the reverse is true: the Repub-

lican wigwam is not lost, but the Lost

The question as to whether the man

lost is big or little is debatable. It depends altogether upon the point of

view and the capacity of the measure

used. As viewed through the Sheltonian spectacles, the man lost is far

and away "a biger man (with one g)

than old Grant." The Bartholdi statue,

the Colossus of Rhodes and the

Egyptian Sphinx are simply not in it

CASTLE AT THE CITY OF GRIEF. The Populistic statesman who repre

sents the Seventh Congress District of California, and Castle is his name, has een down to the City of Grief-otherwise known on the map as San Diegouttering his alleged thoughts on the subject of harbor and such small matters. He skirmishes around his subject with considerable smoothness, and from appearances was anxious to free his mind to the anxious S. B. citizens without saying anything; but one ponderous thought that he did utter was that "the natural harbors should be improved first, and he considered San Diego a natural harbor, while San Pedro, in his judgment, was artificial." Of course, if Statesman Castle concludes that San Diego has a natural harbor that settles it; it has, for whatever Castle thinks goes—in the City of Grief. It makes no difference to Castle where commerce is or where it is likely to pile up in the future. All he needs to know is that somewhere there is a natural harbor, and all the other places on the water front must stand aside and get off the earth. If commerce is so foolish as to wish to go to some other point than to an obcure place which has a natural harbor. then so much the worse for commerce. Castle cannot be expected to intervene and improve on the work of the Al-

It does not appear to concern this Populistic statesman, who was pried out of obscurity in the last campaign, that at San Pedro is centered the commerce of the metropolis of Southern California, and that already the government of the United States has expended nearly \$1,000,000 in improving the inner harbor at that point; it does not concern him that three severa boards of engineers have said that the construction of a deep-sea harbor at that place is not only desirable as a harbor for commerce but as a harbor of refuge, and that Congress has, after long discussion, appropriated \$2,900,000 for the construction of a breakwater. Castle disagrees with the people of this section, he disagrees with the experts, and he disagrees with Congress. God Almighty has located a harbor 120 miles from Los Angeles, and Castle thinks, seemingly, that had it been the divine will that a breakwater should have been located at San Pedro it would have been planned and carried out at the time of the creation.

Of course Castle will not cut any ore figure at Washington, either in advancing or retarding the harbor cause at San Pedro, than would a mule with a paint-brush tail: but that does not prevent his filling up the credulous people of San Diego with ideas of his mportance and potentiality as a statesman. That community, which has been favored with men of wind, finds Castle just about the caper, and will doubtless plume itself upon his outgivings and keep on nursing the forlorn hope that it will be able to defeat the work planned by Congress and the Walker board of experts for constructing our deep-sea harbor. But It will fail, and the Castle person will fail in "doing up" this great enter-San Diego may rave and roar and send its Mayor to Washington on a backcapping expedition against the best interests of the country in general and this section in particular, but It will have its labor for its pains. The harbor at San Pedro is an assured fact now, and has been for more than forty years, and its improvement is as certain as that the sun shines or water runs down hill. San Diego should tio a rag over its sores, and Castle should cover up his ears if he can find a covering big enough.

The record of the largest number of notes struck by a musician in twelve hours is said to have been made he Paderewski, who struck 1,030,300 notes. This exploit has something else to make it memorable besides Paderewski's facility; just think how trying it must have been on the fellow who kept count?

According to the New York papers E. Barry Wall appeared on the open ing day of the horse show wearing " with flaring skirts and a small Truss Why Barry should eschew 'pants" in that trying climate is not

MOB GOT HIM.

Hicks Price Taken from Jail at

JACKSONVILLE (Fla.,) Nov. 26 Hicks Price, a negro charged with rape, was taken from the jall at Starks tonight by a mob of 100 men. He was hanged to a limb of a tree, and about manged to a limb of a tree, and about fifty shots were fired into his body. The mob gained entrance to the jail by pretending to have another suspect to imprison, and then overpowered the jailer.

GOT COOPER'S MONEY

AXTELL TOLD KEPPEL THAT IT WENT TO ADAMS.

Two More Important Witnesses Tes Investigation.

POOR DEFINES HIS POSITION.

HE EXPLAINS THE PECULIAR AT TITUDE HE HAS TAKEN.

Pucrile Tactics Employed by Ax tell's Attorney-No Further Procedings Until Monday

Two more important witnesses gave their testimony last evening in the in-vestigation of the Board of Education scandal. Their evidence gave con-vincing corroboration to the testimony which has already been made public

T. J. Phillips, principal of the Sentous-street school, related the attempt to hold him up for one month's salary as the price of his reappointment. In the main he gave only the story al-ready told in his affidavit, but many details were brought out lending addi-tional force and significance to his

riginal statement. Mark Keppel, principal of the Union-Mark Keppel, principal of the Unionavenue school, also repeated the facts set forth in his affidavit, relating Axtell's demand upon him for \$120, and the conversations which occurred. In addition he testified that on November 10, after that affidavit had been made, Axtell admitted to him the receipt of the \$60 extorted from Cooper, and Axtell further declared that the money went to Adams, whom Axtell was representing. Keppel's testimony was direct and unhesitating, and was corroborative in many details of that given by previous witnesses.

Poor took occasion to make a statement of his position, declaring emphatically that he had had no vart in the blackmailing conspiracy, and that he desired that it be probed to the bottom.

that he desired that it be probed to the bottom.

The cross-examination of Prof. Phillips by Frank F. Davis, Axtell's attorney, was much more suggestive of the methods of a police court shyster than of a lawyer desirous of eliciting the material facts of the case. For nearly an hour he bullied and browheat the witness, and indulged in gallery plays to the spectators. Prof. Phillips proved apt at retort, however, and his testimony was unshaken. Davis's style of cross-examination finally called out a sharp criticism from Judge Phillips, one of the representatives of the League for Pure City Government.

Government.

The direct examination was conducted as usual by T. E. Gibbon, representing the Better City Government resenting the League.

Hitherto the hour of adjournment has been fixed at 9:30 o'clock. On motion by Webb the limit was changed to 10:30

by Webb the limit was changed to lussy o'clock.

Webb then moved that after the affidavits before the board, and such other evidence as the prosecution may offer, have been disposed of, all the school principles shall be asked to appear and give their testimony. In support of his moilon he said that the charges made threw suspicion on every member of the board, and the integrity of each had been "impusned" by the press. He declared that the majority members did not fear investigation, as had been asserted.

serted.

Some discussion ensued. Webb's generous disposition to share equally with all his colleagues the suspicions that have been directed against himself met with a cold reception. It was pointed out that the only subject of investigation now before the board is the charge against Axtell, as it was agreed that this should first be disposed of before other charges are taken up. It was therefore argued that

posed of before other charges are taken up. It was therefore argued that Webb's motion at the present time, was out of place.

On the roll call the motion was lost by a tie vote, four to four. As usual, Adams, McInerny, Poor and Webb lined up together, shoulder to shoulder. Poor then rose to a question of special privilege, and read the following statement:

POOR DEFINES HIS POSITION. Owing to the continued misrepresentations of my position in this matter in certain quarters, I deem it a duty which I owe to myself, to my friends, to my constituents in the First Ward, and to the public that I make my position clear and in words that cannot and to the public that I make my position clear, and in words that cannot be misunderstood. I do not intend, in making this statement, to in any manner appear as one who "speaks to the gallery;" for if there is any person whom I heartily detest it is a man holding a public position, who, for effect, talks to or poses before "the gallery."

lery."

On Saturday morning after the statement and affidavits which we are now considering were placed in the hands of the secretary of the board, and before any official action by the board had been taken thereon, I went to Mr. Adams and, in the presence of others, told him in unmistakable language that if any one of the statements concerning him contained in those affidavits was proven to be true he need expect no sympathy or consideration from me.

On the evening of the same day, be ing the first time that I saw Mr. Axtell after these affidavits had been filed, I made to him also a similar statement in

after these affidavits had been filed, I made to him also a similar statement in the presence of witnesses.

At the meeting of this board held on last Saturday morning, I presented a resolution for adoption by the board, calling for the appointment of a committee to investigate these charges. As you know, that resolution was adopted, not, however, without opposition; and the president appointed myself as chairman, with Mr. Webb, and Mr. Braly as the other two members. At that time I believed, and still believe, that the proper and most expeditious way in which this whole matter could be investigated was through a committee; but the public seemed to think otherwise, and as Mr. Braly refused to act, Mr. Webb and myself were only too glad to be relieved of the arduous task and great responsibility of taking this testimony and making this investigation; and it was with no regret whatever that at the next meeting of the board we offered the resolution which led to the discharge of the committee and the placing of the investigation in the hands of the whole board. As you well know, the investigation which that committee was authorized to make was immediately proceeded with, and on Saturday evening the most important witness, Mr. Cooper, was examined before two members of this board being also present in the room. You may readily see that I, as chairman of that committee, force of scheming attorneys we are As you well know, the investigation which that committee was authorized to make was immediately proceeded with, and on Saturday evening the most important witness, Mr. Cooper. was examined before two members of that committee, a majority of the members of this board being also present in the room. You may readily see that I, as chairman of that committee, had no time to specially prepare myself for that examination during the few short hours which intervened between the appointment of the committee and the commencement of its work, especially as the affidavits referred to remained in the possession of the clerk of the board. I am not an attorney, learned in the law, nor in the modes of conducting a legal examination. I hever examined a witness be-

fore in my life, and if in the examination of Mr. Cooper any material points were omitted by me it was because of lack of knowledge, and not from any desire to withhold or cover up any of the material points in the affidavit. And I submit to you, gentiemen, that the examination of Mr. Cooper which was had last Wednesday before this board differed in no material degree from that which was held before the committee, except in one instance. And if any person whatever desires to satisfy himself of the truth of this statement he is at liberty to linspect the transcript of that testimony as taken before the committee, which is now on file with the secretary of the Board of Education, and judge for himself whether or not the committee endeavored to conduct a one-sided examination in favor of the accused or not.

In the examination of Mr. Bonebrake before this board on Tuesday evenling, no testified that at the first interview he had with me relative to the retaining of his position as principal of the Hellman-street school, I sent him to Mr. Adams. At the conclusion of that testimony I made a statement to this board showing that I intended to refer Mr. Bonebrake to Dr. Mathis, and not to-Mr. Adams. It, is not, therefore, necessary for me here to repeat that statement in detail. Mr. Bonebrake in the course of his testimoney stated that he had suspicions that there were other members of this board who were, as he said, interested in the scheme to hold him up for a month's salary. The names of those members he refused to divuldge. That testimony and that refusal have cast a suspicion on every member of this board. Mr. Bonebrake has told the name that he refused to tell to this board, and I have it from the person to whom he told it. Gentlemen, Mr. Bonebrake referred to Mr. Axtell, and by Mr. Axtell told that it would take a month's salary in order that he might retain a position under this board, and then had gone back to Mr. Adams, as he testified, and by Mr. Atell told that it would take a month's salary when had the l

have immediately brought it to our attention.

At or near the conclusion of Mr. Bonebrake's examination, Mr. Conrey asked me a question which was, in effect, whether or not I had presented to the Teachers' Committee and discussed with them the changes which I desired made in the schools of the First Ward. My answer to this question was "that I thought I had." I am now able to answer that question in a positive manner. The Teachers' in a positive manner. The Teachers' Committee, in preparing its report, held several executive sessions, as I understand it. At one of these sessions, all the members being present, Mr. Conrey, as chairman, Mr. Bartlett and Mr. Webb being the other two members, I was asked to appear and make my report. I did so, and discussed not only the change which I desired made in the principalship of the Hellman-street scnoor, but several other matters connected with the appointment of teachers which are not now pertinent. So the Teachers' Committee had full knowledge of the changes which I desired made in the principalship of the Hellman-street school.

principalship of the Heliman-street school.

In conclusion, I wish to state that I have no desire to shield any guilty man, be he employe or member of this board, and I contend that my actions from first to last in this whole matter have been open and above board on the side of right and justice. While I am not willing to shield the guilty man, I am not willing to punish the innocent, nor to condemn a man unheard and undefended. I have nothing to fear and nothing to hide of my official acts since I have been a member of this board, and stand here as one who is anxious that a full and complete investigation of these matters be had by this board at this time, and that who is although the actions the second to the second at this time, and that nothing be hid from the public which they are entitled and desire to know. I shall stay with this investigation as long as my health will perinit, and shall not be absent from a single meeting when it is possible for me to attend, and will not be the first one to call a halt. There is no member of this board who is more anxious to punish the guilty or acquit the innocent than I am, and my future actions as a member of this investigating board will show to the public that I stand for the right, no matter who may suffer.

may suffer. TESTIMONY OF PROF. PHILLIPS.

Prof. T. J. Phillips, principal of the Sentous-street school, was the first witness. His testimony was in substance as follows:

One Saturday evening about two weeks before the close of school in June last witness met Axtell at a social function, and having heard that his position as principal was in danger, witness asked Axtell: "How do I cial function, and having heard that his position as principal was in danger, witness asked Axtell: "How do I stand with the members of the school hoard?" Axtell replied that he didn't know, but he had heard some one else was after the place. Witness asked "what he could do to forestall the other fellow." Axtell replied: "I will tell you, but when I do it I put myself in your power. You had better see Adams." Witness asked why he should see Adams, who was not from his ward. "You had better see Adams right away, tomorrow morning; I will see him in the mean time."

On the following Monday Axtell called at the school, and had an interview with Cooper, the janitor, who was mulcted out of \$65. As they finally came out of the office half an hour later, Axtell said to the witness. "I have attended to that case, and I will attend to yours next."

Axtell then asked whether witness

attend to that ease, and I win attend to yours next."

Axtell then asked whether witness had seen Adams. Receiving a negative reply, he said: "It can be fixed; you can have your position."

Witness asked how, and Axtell re-plied: "By payment of one month's sal-ory."

to be vacast, Adams replied: "It will be if Phillips don't dig up, and dig up pretty well."

The cross-examination by Frank Davis which ensued was tedious in the extreme. The attorney devoted much validable time to puerile exorts to entrap the witness into contradictions, and to elicit laughter from the spectators. The laugh was more than once turned against Davis by the sharp retorts of the witness.

Upon the redirect examination witness said that he expected that Superintendent Foshay would bring the matter before the board, but as he did not witness concluded to wait for more evidence of the conspiracy than his own case afforded. He was confident it would be forthcoming, and he thought "a general house-cleaning would be better than a partial one." He knew there were other victims, and got the impression from his talk with Axtell that it was "a case of boodle." PROF. KEPPEL'S STATEMENT.

Mark Keppel, principal of the Union-avenue schol, proved an excellent wit-ness. His testimony was a repetition of the facts related in his affidavit, with the addition of some subsequent

of the facts related in his affidavit, with the addition of some subsequent developments.

Prof. Keppel was approached by Axtell about the last of May, and was told that he would lose his position unless he paid for it. Witness refused to submit to the extortion, but finally consented to "see Adams." as Axtell uried upon him. The week before the school election witness called at the board rooms, and asked Adams again how he could retain his position.

Adams seemed uneasy, shifted his position once or twice and finally said: "See Axtell—he has superior sources of information."

Witness went to Axtell, who informed him that he must pay one month's salary, \$120. Witness asked if he was the only one else—there are others."

Prof. Keppel was very indignant, but finally concluded to pay. Axtell replied: "I tell you what I wouldn't tell any one else—there are others."

Prof. Keppel was very indignant, but finally concluded to pay the money, and he borrowed \$100 for the purpose. After further conversation with Axtell and with teachers who had been approached, Prof. Keppel finally determined not to submit to the demand made upon him. He so notified Axtell. ADMISSIONS MADE BY AXTELL.

ADMISSIONS MADE BY AXTELL

The most important part of the witness's testimony, because not covered by his affidavit, related to an interview which he had on November 10 with Axtell. Witness told Axtell that Prof. Phillips, Prof. Bonebrake and himself had been before the grand jury. "Axtell was evidently much worried and seemed to be affected very seriously. He said it would ruin him. I said he was ruined already, and that the only thing for him to do was to go to Mr. Conrey and make a clean breast of the whole truth. I asked him whether he received the money paid by Cooper to Pitman. He said 'Yes.' I said 'To whom did you give it?' He replied: To the party whom I represent.' I asked him whom he represented, and he said 'Adams.'"

Webb asked the witness some questions, but elicited nothing material.

NO SESSION TONIGHT. The most important part of the wit

will be no session this even-r. Gibbon announced that he would not be ready to proceed with the investigation until Monday even-ing, and intimated that some sensational evidence might be expected then.

An adjournment was accordingly taken till Monday evening, despite some objections from Webb, Poor and Adams.

PROMPTNESS.

The Business-bringing Value of "On-time." [CORRESPONDENCE OF THE TIMES.]

"On time" is the cry of progress.
"Too late" is the groan of failure The railroads that run, run on time.
The clerks who succeed, arrive on

The merchant of success is on time.

time.

The merchant of success is on time.

If there is any one thing breeding irritation it is waiting and waiting for the always-behind-hand man.

Promptness is expected.

Promptness is demanded.

Promptness is a business commodity. What you want when you want it, not what you want when you want it, not what you want when the seller wants to send it, is the principle of the business paying the interest of profit.

The artist may be behind-hand. The lawyer may be a little late. The world excuses them.

The world will not do business, if it can help it, with the behind-hand man on one side of the street when there is an on-time man on the other side of the street.

What the people want is what the people will buy, provided they can get it when they want it.

What the people want is not always what they will buy, if it is of uncertain delivery.

The combination of quality and promptness wins because it has a right to win.

Nobody likes to wait.

A women, or a man either, would

Nobody likes to walt.

A woman, or a man either, would ather have goods delivered at 6 o'clock if 6 o'clock was the promised time, than to have them delivered at 5 o'clock when 4 o'clock was the promised hour.

The nearer certainty a business man reaches the greater certainty of his success. Nobody likes to walt.

success.

Promptness costs no more than "be-hind time." when it is once established it is easy to maintain.
"On time" does not require capital, but it does require judgment and man-

agament.

Nobody has a right to fail for being behind-hand, for this condition of things admits of no excuse.

The store which delivers on time, keeps its promises, and never makes a statement it cannot carry out, is the

store which succeeds.
Occasional accident will happen, but promptness can be almost universal subject only to the disaster of the un-expected.

expected.

It is better to promise less than you find that the sure of doing than feel reasonably sure of doing than make promise up to the limit of pos

bility.
There isn't a better advertising point than that of promptness, if it is backe with action. NATHANIEL C. FOWLER, JR.

COOKED HIS WIFE. Antonio Miglaguo Picks the Flesh

from Her Body.
[ASSOCIATED PRESS NIGHT REPORT.] ERIE (Pa.,) Nov. 26.—The wife Antonio Miglagno died today a most horrible death. Thanksgiving day An-

Antonio balasa Thanksgiving day Antonio became drunk and went to the cellar to get more liquor. He fell, and his wife came to his assistance with a lamp, but he threw a hammer at her head and missed the mark. He then came upstairs with a can of oil and tar, which he threw in his wife's face. In an instant the mixture caught fire from the lamp, and she was chyeloped in flames.

Help arrived in time to prevent her from burning up where she stood. The woman was laid on her bed, and when the officers arrived, they found Antonio standing over her, plucking the cooked flesh from her breast and arms in flendish glee, and cursing like a demon. When he was arriseted he raved and had to be subjected to rough treatment before he could be taken to the Police Station.

THE LAGOS HINTERLAND.

Natives Say That a Collision Has Taken Place Between French and British Troops - Trouble Over Disputed Territory.

[ASSOCIATED PRESS DAY REPORT.] BERLIN, Nov. 26.—[By Atlantic Cable.] A dispatch to the Frankfort Zeitung from Rome reports that a sangularly conflict has taken place between the French and British at Nikki, in the Lagos Hinterland.

DISPUTE OVER TERRITORY. [ASSOCIATED PRESS DAY REPORT.] LONDON, Nov. 26.—While the accu-

LONDON, Nov. 26.—While the accuracy of the Rome dispatch announcing that a condict has taken place between French and British troops in the Lagos Hinterland is doubted, the local morning papers today pointed out the imminent danger resulting from the proximity of the two forces in the contected territory.

A conflict between the French and British forces in the Lagos Hinterland has been anticipated for some time past. Both countries have been hurrying troops into the disputed territory. The trouble is of about thirty years standing. In 1870 France and Great Britain opened negotiations for the settlement of their respective frontiers in West Africa, and it was decided in substance that French influence and authority should be confined to the north of a certain line, and that Great Britain should have a free hahd south of this line. The outbreak of the Franco-Prussian war interrupted the negotiations. There was considerable opposition in both countries to the cession of any territory, and during the next five years difficulties frequently occurred. Finally it was resolved to appoint commissioners to reconsider the whole matter, and as a result, in the next five years difficulties frequently occurred. Finally it was resolved to appoint commissioners to reconsider the whole matter, and as a result, in the course of the next ten years, four separate agreements were concluded. Later in the day, a rumor was received at the British Colonial Office to the effect that there had been a collision between the British and French forces at Nikki, which is said to have been captured by the French troops, the officials of the Colonial Office, however, regard this report as highly improbable, as they explain that the British police in the Hinterland, who are in very limited numbers, had strict orders to avoid any collision with the French forces had been instructed not to come into conflict with the British. The British forces in the Hinterland, it is further stated, are being reinforced considerably. The Colonial Office late this evening received a cable from Logos stating that rumor is current among the natives there of a collision between 400 British and French troops. The report, it is believed, will be proved to be founded on a conflict between the French and some natives.

COUNTER MOVEMENTS.

[ASSOCIATED PRESS NIGHT REPORT.]

LONDON, Now, 26.—Since the agree.

[ASSOCIATED PRESS NIGHT REPORT.] LONDON, Nov. 26.—Since the agree-ments with France were arrived at, further difficulties have arisen in the

ments with France were arrived at, further difficulties have arisen in the Hinterland, owing to the faiure of the boundary commissioners of Great Britain and France to agree among themselves as to the frontier lines. Since then both parties have turned their attention to getting treaty concessions from the native chiefs. The French have been aiming at the establishment of a great African empire, and dispatching expeditions to the Hinterland of Lagos and Carnotville to establish headquarters.

The British Niger Company, however, getting wind of the French plans, dispatched Capt. Lugard to Nikki, the capital of Pargua, for the purpose of negctiating a treaty with the native ruler, and the English officer was fortunate enough to reach there before a French officer. Commandant de Couer, who was bound for the same place with the same intention, although the latter had the start, and Lugard secured his treaty and cerried it away three weeks before De Couer arrived at Nikki.

The French, however, seemed to have chosen to disregard this fact, and have dispatched armed expeditions not only

The French, however, seemed to have chosen to disregard this fact, and have dispatched armed expeditions not only to Nikki, but to Broussa, which has along been accredited to be within the sphere of British Influence. To settle these and other questions in dispute, commmissioners representing Great Britain and France are now tardily beginning to deliberate in Paris.

DISCREDITS IT.
[ASSOCIATED PRESS NIGHT REPORT.] PARIS, Nov. 26.—M. Lebon, the Min-ister of the Colonies, has received no information of a collision between the British and French troops at Nikki, the Niger region, and discredits the re-

ASSOCIATED COLLEGES. Meeting of Prominent Educators at

Vartar-Dr. Schurman, PASSOCIATED PRESS NIGHT REPORT. POUGHKEEPSIE (N. Y.,) Nov. 26. POUGHKEEPSIE (N. Y.,) Nov. 26.

—The eleventh annual session of the Association of Colleges and Preparatory Schools of the Middle States and. Maryland opened today at Vassar College. Four hundred delegates are present, among them being many prominent educators from different colleges. Dr. I. G. Schurman of Cornell tonight delivered an address on "The Idea of a University." He deprecated any attempt to sharply separate The idea of a University. He depre-cated any attempt to sharply separate colleges and universities, and held that there was scope and room for both. A reception arranged by President Taylor was held tonight in the mu-seum and art gallery.

A Hig Pay Warrant. WASHINGTON, Nov. 26.—Assistant Secretary Vanderlip today signed what is known as a pay warrant directing the Treasurer of the United States to deposit in the treasury the sum of \$18, 194,618, representing the proceeds of the sale of the Union Pacific sinking-fund honds.

THE WEATHER YESTERDAY.

U. S. WEATHER BUREAU, Los Angeles, Nov. 26.—[Reported by George E. Franklin, Local Forecast Official.] At 5 o'clock am. the barometer registered 30.17; at 5 p.m., 30.12. Thermometer for the corresponding hours showed 50 deg, and 57 deg. Relative humidshowed to deg, and 5 deg. Relative Balling, 45 m., 47 per cent.; 5 p.m., 61 per cent. Wind, 5 a.m., north, velocity 5 miles; 5 p.m., west, velocity 5 miles. Maximum temperature, 70 deg; minimum temperature, 46 deg. Barometer reduced to sea level.

Comparative Temperatures. — Maximum temperature, November 25; minimum temperature, November 26, 1887:

Weather Conditions.— The pressure this morning is high and much above the normal throughout the country west of the Mississippi River, accompanied by cold, fair weather, except in Northern Montana, where snow is falling. Zero temperatures prevail in the Upper Missouri Valley, and freezing weather is reported from the mountains regions to the Missouri River. Cold weather prevails on the Pacific Slope, freezing temperatures being reported from the interior of California and the castern portions of Oregon and Washington. A killing frost occurred this morning at Fresno and a heavy frost at Eureka.

Forecasts.-Local forecast for Los Ange les and vicinity: Fair weather tonight and Saturday; frost in low grounds tonight.

WEATHER FORECAST.

SAN FRANCISCO, Nov. 26.—For Southern California: Fair Saturday, with Irosts in the morning; light northerly winds.

ALL ALONG THE LINE.

Pomona, it seems, produces ward politicians at a tender age. The insur-gents in the High School are credited with having planned a disturbance for the purpose of bringing about the resignation or removal of the School Su-

Efforts of the attorneys for the school-board blackmailers to make it appear that Brother Pitman pocketed all the proceeds of the hold-ups are very amusing to those who know the inside facts. The track of the coon led up that tree, but the coon didn't stay there. Attorney Davis may be pretty good coon dog on a moonlight night, but he is barking up the wrong tree this time, and what he takes for the coon is only a "hurrah's nest."

PRISONERS REVOLT.

They Attack the Sheriff, Whom Hi Deputies Rescue.
[ASSOCIATED PRESS NIGHT REPORT.]

MESERVE'S PARTNERS

A STATEMENT TO SQUARE THEMSELVES WITH HIM.

They Fail to Establish Amicable Relations Between Their State-ment and the Facts-The Result

One of the counsel for R. A. Bird, recently tried for alleged forgery of G. J. Griffith's signature to checks, feels aggrieved because The Times printed a portion of the argument of Dist.-Atty. Williams, in which Williams handled him (E. A. Meserve, Esq..) pretty roughly, and he requests the publication of a statement signed by his associates in the case. Mr. Meservé and his associates were advised that it would be better not to vised that it would be better not to publish the statement, because it con-tained matter that could not stand uncontradicted and because the subject

publish the statement, because it contained matter that could not stand uncontradicted and because the subject was not interesting to the public, but they persisted in their request, and the statement is now published, with necessary comment, as follows:

"LOS ANGELES, Cal., Nov. 26, 1897.
"To the Editor of The Times: In justice to our associate, Edwin A. Meserve, Esq., in the case of the people vs. Bird, we desire to make the following statement:

"In the issue of The Times of November 25, in the report of the trial of that case, there are some statements which do injustice both to Mr. Meserve and his associates.

"First, in the opening of his argument Mr. Meserve, in referring to certain witnesses as perjurers or liars, mentioned the name of no person, and only said that when the record showed that any witness had willfully testified falsely he must by the record be known as a perjurer and a liar. Mr. Meserve spoke four hours and a half, and during the whole course of his argument he spoke of Mr. Griffith neither as a thief nor a scoundrel at any time, although Mr. Williams repeatedly quoted Mr. Meserve as having done so, and during the whole course of his argument Mr. Meserve as having done so, and during the whole course of his argument Mr. Meserve only twice designated Mr. Griffith, as shown by the record; and though Mr. Meserve's magnetic he always spoke within the record.

"Furthermore, during the whole course of Mr. Meserve's argument, he did not use the language printed in The Times to the effect that Williams received money from Griffith, as all of the attorneys in the case well know, and as the record shows.

"The statement as printed in The Times that all of Mr. Meserve's assoult are subjected as the subject of the statement as printed in The Times that all of Mr. Meserve's assoult are subjected as the subjected of his language printed in The Times that all of Mr. Meserve's assoult are subjected as disappropries as soult are subjected as the subjected of his language printed in The Times that all of

"The statement as printed in The Times that all of Mr. Meserve's associates disapproved of his language used in argument condemning Mr. Griffith, is entirely unwarranted and not justiis entirely unwarranted and not justified by any statement made by any of us, as we, and each of us, entirely approved every statement that Mr. Mcserve made in his long and difficult argument, every word of it being justified and borne out by the record in the case. that part of it referring to Mr. Griffith being founded not upon anything produced by Mr. Meserve or us, but by statements and contradictions made by him under oath, and which he was compelled to admit were false

county jail declared themselves in open revoit against Sheriff Murphy today. For several days ugly threats have been made by the prisoners, and the Sheriff has been warned. This morning the men declared they would have more food or kill the Sheriff. A posse of deputile was placed outside the jail while Sheriff Murphy cheered alone.

A promers, headed by John Boger, a notorious criminal, rushed upon him and were about to carry out the threats, when the posse rescued the Sheriff. A face fight then occurred between Boger and a deputy, and Boger was beaten almost into insent. When the prisoners saw their leader worsted, they were suppressed without further trouble. Boger says he will kill Murphy.

TURKEY'S DEFIANCE.

Places an Order With Herr Krapp for Cannon.

(ASSOCIATED PLESS NIGHT REFORT.]

CONSTANTINOPLE, Nov. 26.—(By Atlantic Cable.) In spite of the protest of the Russian government, while recently intimated to the Porte that if any considerable part of the indemity paid by Greece should be devoted to the extension of the Ottoman armment the Russian government would insit upon the payment of the arream gunmaker, an order for 150 large cannon, at a total value of 1,500,000 marks.

CONTRACTS EXPIRED.

THE DEVELOPMENT OF THE COUNTRY.

Tidings from the Fields of Industry and Capital, Enterprise and Production.

Building a Sugar Factory. HE TIMES presents today the first authentic, detailed statement that has been published in regard to the building of the new sugar factory in Ventura county by the Oxnards. It is said that this will be the largest beet-sugar factory in the world now in operation, and it will

the world now in operation, and it win only be exceeded in size by the factory which Claus Spreckels is putting up at Salinas, in Monterey county.

Carl Leonardt of this city, the well-known contractor who during the past nine years has constructed the foundation work on nearly all the important buildings that have gone up in this ant buildings that have gone up in this city, as well as in many other towns in Southern California, and in Arizona and New Mexico, has received the contract for the excavation, foundations and brick work of this big new sugar factory at Huenene. Work on the ex-cavation has already commenced, with small force of men, which will rap-

idly increase.

The Oxnards have recognized the experience and ability of Mr. Leonardt, who did the same work at Chino, by leaving the preliminary operations on the factory site largely to his discretion. Extra care will have to be exercised in preparing the foundation for this factory, as the ground is somewhat moist, and the foundation will have to carry an enormous weight.

Five mammoth brick buildings, on concrete foundations, are to be immediately erected, all to be of the best fire-proof construction, with all floors of concrete and iron; and roof trusses of steel, covered with galvanized iron. The main building is to be 400 by 130 feet, three stories in height. It will contain 182 iron columns inside and beventy-eight Z-bar columns in the ex-terior walls. In addition to this, there will be a warehouse 300 by 100 feet, a powerhouse 250 by 90 feet, a commodious office and laboratory building and a large building devoted to the prepa-ration of lime. For the burning of ration of lime. For the burning of lime there are to be provided two mammoth unright kilns, with a capacity of 360 tons of lime rock at each charge, and four totary kilns for reburning the lime that has been once used, by a special process controlled by the Oxnard Company.

teams and men, which will be immediately reinforced by as many men as can be crowded on.

The works have been designed by William Baur, executive officer of the Oxnard Construction Company of New York, an engineer and architect of recognized ability.

The Southern Pacific Company has begun work on the construction of the four miles of track to connect the factory with the station of Montalvo, and a pile-driver is at work on the bridge crossing the Santa Clara River. The plan of the switches and tracks to provide for the convenient disposition of incoming materials and outgoing products is admirable, and a model of good engineering. The entire works will be the finest of their kind ever erected in America. They will have a capacity of the finest of their kind ever erected in America. They will have a capacity of the company shows it to compared with other factories thus far erected, the capacity of the Chino factory is 800 tons daily; that at Alamitos and at Grand Island, Neb., and Norfolk, Neb., 350 tons each; Lehi, Utah, 300 tons, and Eddy, N. M., 200 tons.

All the machinery of the Hueneme factory is to be of the latest and best American manufacture, and adapted to the most improved processes. The most notable of recent improvements.

f fine beet land are tributary to this

of fine beet land are tributary to this proposed site.

Meantime, negotiations for another beet-sugar enterprise in Orange county continue, and it is said with good prospects of success. Another beet-sugar proposition for the northern part of this county is also likely to be heard from soon. The beet-sugar boom is here at last, and it is here to stay. The Times is pleased to witness this fruition of the expectations that have been so frequently expressed in this journal during the past ten years, as to the great future of the beet-sugar industry in Southern California. As soon as a few more large factories shall have been erected in California, the owners of these factories will be in a position, if they so desire—and it is sincerely hoped that they may so desire—to defy the Sugar Trust, in case that powerful concern should endeavor to confine the production of beet-sugar on the Pacific Coast to such amount as is consumed west of the mountains. As The Times has frequently stated, California could easily produce the entire amount of beet-sugar that is imported from abroad.

Wild Olives,

Wild Olives,

A DISCOVERY has lately been made, showing that Southern California is a habitat of the olive tree. A few months ago some cuttings taken from a large, bushy tree were sent down from Antelope Valley, in Los Andown from Antelope Valley, in Los Angeles Chamber of Commerce, with the request of the sender to know what the tree was. The cuttings had all the appearance of olive wood, and the berries on them, about the size of a small bean, had the taste of an olive. The secretary of the Chamber of Commerce cent a sample of the wood and fruit to the horticultural department of the University of California, and in due course received a Jetter from Prof. A. P. Hayne, stating that the sample was examined and found to be the Neo Mexicana, a species of wild olive. It grows in great profusion wherever found, and to a height of from fifteen to twenty feet. Belief is expressed that this wild olive may prove of value for grafting purposes, and there are olive growers who intend experimenting with it with that object in view. geles county, to the Los Angeles Cham-

Oil and Asphalt,

N O INDUSTRY in this city is more promising than cial process controlled by the Oxnard Company.

The entire weight of these enormous buildings and kilns will be borne by the concrete piers, without granite caps, some of the piers having to sustain a load of 250 to 300 tons each. This is a new departure in heavy construction, for which the only precedents in this country are the bridge piers erected this year on the same plan by the Southern California Railway, which have demonstrated the effectiveness and value of concrete for the distribution of weight directly applied.

The contracts call for the completion of the buildings inside of six months, and Cor tractor Leonardt will have a force of two to three hundred men employed. He has already begun the excavation with a small force of teams and men, which will be immediately reinforced by as many men as can be crowded on.

The works have been designed by

American manufacture, and adapted to the most bino year again, by recurring the matter is water and over again, by reburning. An interesting feature of the plant is an immense fee-making machine of 20 to the most bino years and interesting feature of the plant is an immense fee-making machine of 20 to the side will be built to the ocean. ARL LEONARDT has a contract for a large piece of excavation and cement work in front of the Santa Fé freight depot. Most of the cement used here is imported Portland ce-ment, the home-made article not be-ing sufficiently uniform in quality, although there is no reason to doubt that before long Southern California will be able to produce the cement used here.

Sheep.

has not been profitable for several years. Now, however, with the rise in the value of wool, consequent upon the new tariff, renewed interest is being

new tariff, renewed interest is being devoted to this industry.

It is estimated that there are in Southern California between 500,000 and 600,000 sheep. These are scattered all through the southern counties, among which Orange county takes front rank. It was formerly the custom to drive the sheep up into the mountain pastures during the summer months but the setting aside of government forest reservations has put a stop to this practice, and they are now fed on the lower hills, and on grain stubble after the harvest. During the past few years some Shropshire rams have been imported, and attention has been directed to the raising of mutton sheep. This industry, which is still in its infancy, promises to assume much importance in the near future.

The leading sheep owners of Southern California are E. J. Baldwin, Newmark & Cohn, Marius Meyer, Eyraud Bros., L. F. Molton & Co., J. Bixby & Co., George Carson and J. Salberri.

IN TRIBUTARY TERRITORY.

Fancy Dried Fruit.

A TTENTION has been frequently called by The Times to the necessity, in these days of keen competition and large production in the fruit market, that great care should be paid to the matter of packing the fruit in a tasteful and attractive manner. As an experiment, the Ventura County Fruit Company is making a new de-parture in the line of catering to the eastern consumers of California pro-ducts. On Thursday last week they shipped to New York City a mixed car shipped to New York City a mixed car of dried apricots and peaches, carefully and neatly packed in fifty-pound boxes, the boxes being faced with the most beautiful fruit. The fruit was all handgraded by women. Every box bears a neat lithographed label, with the name of the fruit, and of the firm packing the same. If this consignment proves satisfactory, and allows a reasonable profit, other shipments will follow immediately.

A Pottery

CCORDING to the Santa Barbara A Independent, Goleta, in that county, has a new enterprise, in the shape A has a new enterprise, in the shape of a pottery. Samples of the work are on exhibition in Santa Barbara, and said to compare very favorably

with the imported ware.

The enterprise is backed by Joseph Sexton, and necessity was the mother of it. Mr. Sexton uses many flower pots in his florist business, and he has been Sexton, and necessity was the mother of it. Mr. Sexton uses many flower pots in his florist business, and he has been shipping large numbers from Los Angeles. But they gave indifferent satisfaction. The breakage in transportation was heavy, and the pots were apparently of inferior quality. So he turned his attention to the manufacture of pottery, and has made a very gratifying start on his ronch in Goleta. He employed a practical, experienced potteryman, and the first fruits of their joint labors are exhibited at Mr. Sexton's store in that city.

joint labors are exhibited at Mr. Sexton's store in that city.
They are of all sorts and sizes; and they seem to be of tougher and more firm clay than the Los Angeles pots.
Mr. Sexton says that there is an abundant amount of the clay in sight. The manufacture will be confined at present to the needs of Mr. Sexton's floral business.

Important Irrigation Enterprise,

LOS ANGELES AND VICINITY talists who are ready to erect a beet-sugar factory on a site about seven miles from that chosen by the Oxnards. About fifteen thousand acres last Legislature and a petition signed by numerous Arizonans. While the action would possess the United States of a most wonderful and beautiful park, the most magnificent, beyond all temparison, of any in the world, and that at comparatively small cost to the government to maintain, as the beauty of the scenery depends not upon what man may do to improve it, but upon the awe-inspiring sublimity displayed by nature, such a setting aside would render valueless the great mineral wealth of the Grand Cañon, which will preve, in years to come, of more value to Arizona than national parks."

College of Agriculture.

The sheep industry in Southern California was formerly of great importance, but owing to the great decrease in the price of wool and the rapid increase in the value of land, it has not been weathern to be said to have begun with the erection of the new college building. now nearing completion. For the past seven years, ever since the erection of the main college buildings, the great need of this institution has been more room, and as the attendance of the students has from year to year increased, this need has been felt more and more. The Territorial Legislature of 1892-93, recognizing this need, of 1892-93, recognizing this need, authorized an issue of Territorial authorized an issue of Territorial bonds amounting to \$15,000, and the proceeds from the sale of these bonds, which were later approved by Congress, has made possible the erection of the two new buildings now nearly completed.

The Albuquerque Democrat gives the following description of the new buildings:

ngs:
"The new buildings comprise a sci-

ence hall, located near to and north of the main college building, and a girls' dormitory, which is situated on the col-

the main college building, and a girls' dormitory, which is situated on the college farm. The centract for both buildings was let to the Morrison Contracting and Manufacturing Company of Las Vegas, N. M., and the plans for both were drawn by I. H. and W. H. Rapp, also of Las Vegas.

"The science hall is an imposing building of pleasing design, built of brick on a substantial stone foundation, and trimmed with red sandstone from Pecos, Tex. The dimensions of the main part of the building, which is two stories high, are about 75x50 feet, with a wing of about 40x40 feet. The design of the building is such as to permit of additions and another wing at some later time. The lower story, containing eleven good-sized rooms, will be occupied entirely by the chemical department, and the upper story of six rooms by the department of biology and entomology. The roof of this building is now being put on, and the departments named will be moved from the main college building as soon as the necessary new fixtures and apparatus have been purchased, which will probably be early in the new year.

"The girls' dormitory will be the

and apparatus have been purchased, which will probably be early in the new year.

"The girls' dormitory will be the first of the new buildings to be ready for occupancy, being now nearly completed. It is a handsome two-story brick building of about 70x50 feet. The upper floor is divided into ten good-sized dormitories, as well as a bath room, while on the lower floor are a large dining hall, reception room, kitchen and one or two more bedrooms. All the rooms are well ventilated and well lighted. A spacious veranda runs around two sides of the building. A matron for the dormitory has recently been oppointed, and the furnishing of the building is now being taken in hand, and it is probable that the building will be occupied within the next six weeks. The charge for board and room will probably not exceed \$12 a month, an exceedingly low figure for good board and such a comfortable home. "The dormitory will supply a long-felt want, and will remove the chief objection that has hitherto prevented a great number of young ladies from attending the college. A comfortable home will thus be provided, at a very moderate cost, and a capable matron will see to it that the young ladies are surrounded by good influences, and home-like comforts, so that parents may feel fully justified in sending their

are surrounded by good influences, and home-like comforts, so that parents may feel fully justified in sending their daughters to the college. It is probable that these unusual advantages will result in a largely-increased attendance of young ladies from distant points.

"The college is having a most successful year. The enrollment is considerably greater than ever before, and now stands at 190, with new students still entering. All departments are full and excellent work is being done. The football team, too, is hard at work in training, and all in all the college at Mesilla Park is as hard-working, earnest and thriving a community as can be seen anywhere in the Southwest."

Chino Creamery.

THE creamery business in Southern California continues to grow in importance. The Chino Valley Champion gives the following description of the work of the new buttermaking plant of the Chino Valley Creamery Association:

"An elevator takes the milk from the farmers, wagons as it is brought in

one thousand pounds of milk being defivered every day. This, of course, is only a starter, and the management says that they hope to increase the receipts to 2500 pounds per day within the next ninety days. A large body of land south of Chino Creek will be sown to alfalfa this winter, and the foundation is being laid well for a dairying industry here of large proportions.

who will be seen that as soon as enough milk is secured from this side to justify it, a receiving station will be started in town, the milk to be received and paid for here the same as at the creamery. There will undoubtedly be a large number of cows put in by the farmers generally this winter."

Riverside Lemons.

THE Riverside Fruit Company, which has a large acreage of lemon groves, is shipping a carload of lemons almost every day. The fruit is pleked while yet quite green in appearance, and at once packed and shipped without being put through any curing process which many lemon groves he process which many lemon growers he lieve to be necessary for the perfection of the fruit. The company believes that the fruit will cure sufficiently while in transit east.

Native Copper.

N ATIVE copper is found in the Buster mine, in the Bradshaw Mountains of Northern Arizona. The Arizona Gazette gives the following particulars in regard to this mineral: "The native copper is taken from the ground in solid nuggets and leaf-like sheets, the latter from four to six inches wide, from six to fourteen inches in length, and from the thickinches in length, and from the thickness of a knife blade to one-quarter of an inch. These leaf-like layers run in veins through seams in the ore, which is more in the nature of a deposit than a vein, and crops out on top of the mountain. A tunnel driven in the side of the mountain 350 feet below the apex struck the ledge, and it is from this tunnel that the richest specimens come. Another tunnel will be run in 700 feet lower down, and if the deposit is struck at that point a smelter will be erected. The ore runs from 50 to 80 per cent. copper."

Whales,

R EFERENCE was made in The Times recently to a whaling enterprise that is about to be established at San Diego by certain Los Angeles parties, whose names are not given. The San Diego Sun states that the schooner Lou has been chartered

the schooner Lou has been chartered for a whaling cruise. She will be commanded by Capt. George Johnson, who is one of the best-known whalers on the Coast. Five of the best whalers on the water front will form the crew. The Sun says:

"There are plenty of whales now along the fishing banks off from Point Loma. If the party secures one of them it will be towed into the bay and put on exhibition. But this is not the principal object of the promoters. You see, whale oil has advanced in price, and if enough whales can be secured in these waters a whaling station will be established here. Early in the seventles a whaling station was located on Ballast Point, but it was abandoned because the price of oil had greatly decreased and it did not justify the whalers to continue the work. If the cruise of the Lou is successful a whaling station will at once be reëstablished."

ONLY PASTE.

Ex-Whittier Boy Arrested for Grabbing a Diamond.

A grand-larceny complaint was filed against Henry Stephens yesterday by Detective Goodman. Stephens was but recently discharged from the Whittler State School. His training there evi-State School. His training there evidently did not reform him, for he could not resist the temptation to steal Charles Nicholson's paste diamond scarfpin, which illuminated the space in front of the United States Hotel, where Nicholson stood Thursday night. Attracted by the dazzling brilliancy of the gem, Stephens snatched the pin from Nicholsons's tie and tried to make his escape. Nicholson set up the 'cry of "Stop, thef!" and gave chase. Stephens's flight was interrupted by Officer Richardson, who folded him in his arms and handed him over to Detective Goodman. The stolen pin is worth only about 25 cents, but Stephens probably thought it was a genuine diamond.

Sleep

cotic compounds is bad, decidedly bad. They undermine health and shatter the constitution and the patient is steadily growing into a worse condition -often resulting in the terrible slavery and misery of the cocalno and opium habit. Sleep induced by the use of Hood's Sarsaparilla does not perhaps come as quickly, but it comes more surely and more per manently through nature's great restor ing and rejuvenating channel—purified vitalized and enriched blood. FRIDAY MORNING CLUR.

PAPER ON THE AMERICAN MAN IN

Interesting Analysis of Differen Types—True Examples of the Gentleman—The Hope of the Re-public—Book Reviews.

The Book Committee was in charge of the meeting of the Friday Morning Club yesterday, and a large gathering of women enjoyed the interesting programme. Mrs. Norris Cohn read a delightful paper on "The American Man in Fiction," which she prefaced with the explanation that it was not intereded to refer to the American writertended to refer to the American writers of fletion, but to the American man as he has formed part of the dramatis personae in various novels. She said in part; "The American man has hardly received his due in all the whirl of admiration bestowed upon the American girl, who has perhaps been given more than her fair share of atgiven more that her lair share of at-tention." In searching for novels by foreign writers, wherein Americans have figured, the speaker found that they had been most peculiarly and se-verely left alone, and that she was unable in spite of much inquiry to find an English novel containing the character-ization of an American man. "The French themselves acknowledge

"The French themselves acknowledge that the American man has not been honestly dealt with in the few novels wherein he has figured, and that they have turned with more willingness, though with no more fidelity, to the American woman. It is, then, from the writings of our own countrymen that we must learn fiction's estimate of the American man. The novelist's problem has been a complex one. We are a young nation and we are passing through only an early stage of our development, so that our American life is not much more than a series of experiments which have not yet given society a settled form. There seem to be as many types as there are States in the Union, but whether the author has shown us a Bromfield Corey or a Nicholas Tarvin, a Silas Lapham or a Col. Carter, the position, it seems, will still be found tenable that these people are all essentially and pecullarly Americans; that if they seem a trifle exaggerated to bring forth more clearly the fact of their Americanism, they nevertheless represent the tendency to the formation of a national type. As a rule our novelists have laid their scene in America, itself, but whether they have remained at home in their stories, as Howells has done, or have gone abroad for a setting, as Hawthorne occasionally did and as Henry James narrow and a services as the services as Americans from an American standpoint."

The character of Christopher Newmen in The character of Christopher Newmen in The Americans of the services and the second of the services of the second of the sec that the American man has not beer

abroad for a setting, as Hawthorne ocasionally did and as Henry James nearly always does, they have written as Americans from an American standpoint."

The character of Christopher Newman in "The Americans" was cited as "a very just and agreeable picture of one of a large-and typical class of Americans." His "supreme assurance, self-possession, self-esteem, based upon the knowledge that he has himself thoroughly in hand, that he has become what he is by working for it, by looking upon labor as something to be honored and not despised, as he would say, by having an unconquerable desire to see the thing through,' were pointed out as the American man's distinguishing characteristics.

"This self-reliance is the keynote of the American character. It is the natural outcome of the spirit which the republic fosters. His independence recognizes no class above him. No matter what his birth may have been, he is what he has made himself. His self-esteem is entirely removed from self-concelt, and this, with his inborn consideration for the rights and feelings of others, serves him instead of an infinite amount of training in the civilities of social life, and makes, it possible for him to be a gentleman, though humbly born."

An interesting analysis followed of different types of American men, including W. D. Howells's, Brander Matthews's and Prof. Boyesen's, after which the speaker turned her attention to the western man as found in fiction, and said: "As far west as we are, life is too cosmopolitan to furnish special types. Eastern people still cont here and expect to find Bret Harte's people, but his characters died with the conditions which developed them. Tarvin in the Naulahka' is distinctly a westerner. His home is in Colorado, and his wonderful business instinct and the feeling that no project is too great to be carried through are typical of the kind of men who make towns spring up over night in the West, and then make it possible for them to continue to grow successfully. The newspaper reporter in our country see

by such unscrupulous fellows as Pinney and Hubbard, to whom there was absolutely nothing sacred."

Mr. Howells's picture of an American gentleman as represented by Bromfield Corey was dwelt upon at some length, and characterized as one of the most Corey was dwelt upon at some length, and characterized as one of the most delightful in modern fiction. Staniford and Dunham. in the "Lady of the Aroostook," were cited as true examples of the American gentleman, especially as distinguished from the men considered as gentlemen in other countries. "I mention them particularly," said the speaker. "because they went tries. "I mention them particularly, said the speaker, "because they represent than any other sent more perfectly than any other characters I know of the chivalry dis played toward women by American men. It is chivalry that extends to all men. It is chivalry that extends to all women, no matter to what 'set' they may belong, and it is comething very different from the sham affair which often disgusts us among other nations, and which consists of an excess of deference and much bowing and scraping to acquaintances and an utter lack of politeness to women who are strangers—much form and ceremony, and little sincerity and innate chivalrous consideration.

ittle sincerity and innate chivalrous consideration.

"But as a genti man is a gentieman the world over, the only difference can be in outward manifestations. In my list of gentiemen I have purposely omitted Richard Harding Davis's 'Van Bibber' as being unworthy serious consideration, and have left him and the gigantic and aitogether marvelous Clay, the hero of 'Soldiers of Fortune,' to the tender mercies of his ardent admirers, who have not yet passed 'sweet sixteen.'"

The American politician as found in "The Hon. Peter Stirling" and "Horace Larkin," and the laborer as pictured by Hamlin Garland's "Jason Edwards" and Samuel Baker in the "Minister's Charge," received some attention.

Zadoo Pine in Mr. Munner's story.

Minister's Charge, received some attention.

Zadoo Pine in Mr. Munner's story was cited as fortunately a common type fostered by the spirit of American institutions, and "such men," the speaker said, "are the hope of the republic. It is our most sacred duty to see that such traits as he represents are fostered, and that we do what we can to avert the calemity of capital and labor being so placed that we can no longer give to our countrymen their divine right to labor when they are willing and able.

"Here, then, is our chief danger—

and able.

"Here, then, is our chief danger—certainly too much worship of mommon. It does not satisfy a man in this country to make a living. His ambition is to mass a fortune. He cares too much for the gaining. He makes it an end, and too often loses sight of the proper enjoyment of his money. Fortunately, however, there is a strong surrent of feeling in another direction.

THE PUBLIC SERVICE.

DLIVERA-STREET TRACK WILL PROBABLY BE COMPLETED.

Favorable Report by the Board o orks-Meeting of the Park Board.

A JURY'S SINGULAR VERDICT

PRONOUNCED A CHINESE PUZZLE AND HAS NOT BEEN RECORDED.

Compton Forgery Case Opens Up in Department One-L. H. Green on the Stand-Badly Mixed

The Board of Public Works has adopted a recommendation that pernission be granted to complete the irack on Olivera street commenced ander cover of darkness by the Pasa-iena electric road two weeks ago.

The Park Commissioners met yesterlay in regular session. They have re-quested that the chain gang be put to work to protect a wall at Hollenbeck Park, but Councilman Nickell insists that the Downey-avenue work upon which the chain gang is now employed thall first be completed.

The jury in the damage suit brought igainst the South Side Irrigation Company by Mrs. Emma G. Lattin reurned a verdict which is somewhat in he nature of a Chinese nuzzle, as far is the settlement of the dispute is con-terned. Judge Allen has as yet re-'used to record the verdict.

The trial of Charles Compton for orgery was begun in Department One resterday afternoon. L. H. Green. whose property was deeded away and nortgaged at the Columbia Savings Bank, was the first witness. He testiled that he was in Cincinnati at the time of the transaction and knew not be the state of the transaction and knew not be the state of the transaction and knew not be the state of the transaction and knew not be the state of the transaction and knew not be the state of the stat ime of the transaction and knew noth

IAT THE CITY HALLA

CHAIN GANG WANTED.

LEQUEST THAT IT BE EMPLOYED

That E. C. Webster Be Allowed to Complete His Electric Line on Olivera Street.

The chain gang is in demand at present. For some time past it has been imployed on Downey avenue in the First Ward. Yesterday the Park Comhissioners concluded to ask that the hain gang be set to work to fill up a arge hole west of Hollenbeck Park, which threatens the adjoining park vall. The commissioners went before he Board of Public Works to prefer heir request, but they met with vigorius opposition from Councilman Nickell, who insisted that the chain rang should complete the work on Downey avenue before being transerred to the park. His objection pre-vailed and the Board of Public Works dopted a recommendation in accord-ince with Nickell's views. He stated hat it would probably take a month o complete the Downey-avenue work. The regular meeting of the Park ommissioners was brief. Superinendent Garey reported that better po lce protection was needed in the parks, and recommended that the Podee Commission be requested to ap-point two of the park employés, James Carrison and Frank Abbot, special poleemen. The recommendation was ipproved and the police board will be equested to make the appointments. Superintendent Garey also suggested that it would be well to label the trees and plants in the botanical department. it was further suggested that J. C. Harvey, who has donated the park nany valuable orchids and other rare plants, be invited to assist the superntendent in the work. This suggestion was approved by the commission-

The superintendent was instructed to purchase 200 feet of pipe for use n East Los Angeles Park.

BOARD OF PUBLIC WORKS. llivera Street Franchise - Sixth-

street Protests Denied. The Board of Public Works adopted recommendation yesterday that the rotests against opening Sixth street etween Fremont and Bixel streets be enied. The board also recommended hat E. C. Webster be granted the rivilege of building and operating an street railway line, ick, over Olivera street from Macy Marchessault street, for the purpose

d handling mail and express matter, a conjunction with the Pasadena elec-The following recommendations were

a conjunction with the Pasadena electic road.
The following recommendations were also adopted:
"Your Board of Public Works begs save to report as follows:
"In the matter of the petition from A. Stanton, asking that Sixteenth treet from Central avenue to Alameda treet be graded, graveled, curbed with ement and sidwalked with cement bur feet wide, under the Vrooman Act, re recommend the same be referred to he City Engineer for estimate of cost and if same exceeds amount required law, then to present the necessary redinance of intention.

"In the matter of the petition from iobert Knight and others, asking that flenry street between Eastlake avenue and St. Paul street be graded, raveled, curbed with cement, under the iond provisions of the Vrooman Act, we recommend that the same be referred to the City Engineer for estimate of cost, and if the same exceeds he amount required by law, then to resent ordinance of intention therefor. "In the matter of the protest from I. H. Graves and others against the roposed improvement of Cortez street rom Lake Shore to Belmont avenue, we recommend that the same be referred to the City Engineer for estimate f frontage.

"We recommend that the protest from Mrs. C. Dubrodieu and others gainst the widening of Bellevue avenue be referred to the City Engineer restimate of frontage."
"In the matter of the petition from I. M. Queirolo, agent, and others, asking that Queirolo street be opened from haves street to Main street, we recommend that the same be referred to the City Engineer with instructions to irroish the City Attorney with the cessary description of the property to taken, and the City Attorney be inructed to present ordinance of intending street.

We recommend that the protest of sessment to be on line of the impovement between Date street and lin street.

nue and Hope street, be granted, and the City Engineer be instructed to fur-nish the City Attorney with descrip-tion of property necessary to be taken for opening said alley, and that the City Attorney be instructed to present the necessary ordinance of intention

"In the matter of the map prepared by the City Engineer for the straightening of Central avenue at Eighth street, we recommend that the City Engineer prepare map and description of property to be taken, making a straight line from the southeast corner of Thalia street to the southeast corner of Eighth street, the district of assessment to be between Seventh street and Twelfth street on the line of said improvement, and that the City Engineer prepare ordinance therefor."

Sewer Committee's Report.

The Sewer Committee has filed a re-port recommending that the bid of C. Powell to sewer Twenty-eighth street from the sewer manhole con-structed in the intersection of Figderoa street with that portion of Twenty-eighth street lying easterly of Figueron street to a point 165 feet westerly of the westerly line of Grand avenue, at 46.9 cents per lineal foot for the sewer complete be accepted, and the necessary resolution of award adealed.

[AT THE COURT HOUSE.]

A BAD MUDDLE.

JURY VERDICT WHICH MAY MEAN ANY OLD THING.

n Hard Nut to Crack-Mrs. Lat-tin's "Wherentness" in Doubt. Receives Nominal Damages.

A verdict has been rendered by jury in Judge Allen's court which is extraordinary in many respects, and a dozen or more complications may arise from what was intended to settle the damage suit brought against the South Side Irrigation Company by Mrs. Emma, G. Lattin.

Mrs. Lattin owns a small tract of land near the southern limits of the city upon which she has been raising garden truck. For irrigation of her lands Mrs. Lattin depended upon sew-age water, which was furnished by the South Side Irrigation Company, under contract. Two years ago the company shut off the supply, explaining that the sewage had been used in such a manner as to become a public nuisance and dangerous to the health of the com-munity. Mrs. Lattin protested, but to no avail, and finally brought suit

munity. Mrs. Lattin protested, but to no avail, and finally brought suit against the company for \$7056 damages, and an order directing that her gardens be again supplied.

At the trial of the case, which continued for several days, the company represented that it had entered into a contract with the city of Los Angeles to dispose of the city sewage in such a manner as not to endanger public health at the point of outflow. The company arronged to supply neighboring pany arranged to supply neighboring gardens with the sewage for irrigation purposes, reserving the right, in the contracts, to discontinue such supply whenever there was any danger of complaint from the health authori-ties or the use of the sewage upon any lands should become offensive to ad-

ties or the use of the sewage upon any lands should become offensive to adjoining property-owners.

In the immediate vicinity of Mrs. Lattin's property there are a church, a schoolhouse and several residences. The company states that from numerous sources complaints had come, objecting to the use of sewage upon the Lattin place, as the health of the children at the school, as well as that of the community, was endangered, and that the stench arising from the land was almost unendurably offensive.

The jury, which had been out nearly twenty-one hours, returned a verdict for \$1 damages for Mrs. Lattin, seven of the jurors standing out for damages as prayed for on'the first ballot. This is as far as the verdict went. Mrs. Lattin osked, in addition to damages, that the company be ordered to again supply her with water. From the verdict it would be implied that Mrs. Lattin, having been awarded damages, had won her case on every point except that the amount of domages prayed for was reduced, and therefore the service of sewage should again be made by the company. But should this be done, the company be would again be immediately enjoined by the health officers, and the matter, as between Mrs. Lattin and the company, would be practically the same as at the beginning of the action just brought to a close.

Although the jury has been discharged, Judge Allen has ordered that the verdict be not yet recorded on the minutes.

In a financial sense, Mrs. Latting comes out beer, as she will be required.

In a financial sense, Mrs. Lattin comes out loser, as she will be required to pay the jury fees, which amount to \$216.

THE DEFENSE SURPRISED.

Prosecution in the Compton Case Springs an Unexpected Witness. The attorneys in the Compton forgery case, now on trial in Department One.

from F. M. Dimmick against the improvement of Thirty-second street from Main street to Maple avenue be denied. "In the matter of the petition from A. Kinney and others, asking that an alley be opened, twenty feet in width, between Beighth and Ninth Streets from Broadway to Spring street, we recommend that the same be referred to the City Engineer with instructions to furnish the City Attorney with the necessary description of paperty to be taken, and the City Attorney will the necessary description of paperty to be taken, and the City Attorney be directed to present the necessary ordinance of intention therefor.

"We recommend that the protest from W. W. Cockins and others against reducing the width of the sidewalks on Jefferson street be filed.

"We recommend that the protest from Mrs. M. Kinder, asking that the sidewalks on Jefferson street be filed.

"We recommend that the protest tablished at eight feet in width, be granted, provided that those property-owners who signed said petition reimburse the property-owners who signed said petition reimburse the property-owners who have already made their improvements on sidewalks of ten feet in width."

"We recommend that the report of the Health Officer, advising, that Sixth street from Hill sireet to Fremont avenue be no longer swept, be adopted.

"We recommend that the report of the Health Officer, advising, that Sixth street from Hill sireet to Fremont avenue be no longer swept, be adopted.

"We recommend that the report of the Health Officer, advising, that Sixth street from Hill sireet to Fremont avenue be opened from Tenth street to Eleventh street, between Grand avenue and Hope street, be granted, and the City Engineer be instructed to furnish the City Attorney with description of property necessary to be taken. had listed for sale. Howard said that at that time he was dabbling in real estate in connection with his law practice. Green's property was mentioned in the list furnished Compton, "but," said Howard yesterday, "I told him that Green was back in Cincinnati." Compton went away and returned a day or two later to make further inquiries about the property, stating that he believed he had a purchaser for it. During the conversation Howard remarked that he was in need of money and that he had a \$300 note which he wanted to have cashed. ""You can't get that cashed, said Compton," the witness continued. "You wait a bit. I expect to turn a trick in a day or so, out of which I expect to get \$1000. If things turn out all right, I'll give you \$100 on the note.' Compton said it was a mortgage deal he had in view, and when he told me about the property being Green's I said: "That won't do; it would be a fraudulent transaction, pure and simple.'"

The defendant's attorney stated that he had been taken by surprise in the introduction of Howard as a witness for the prosecution, and was not prepared for a proper cross-examination. The court consented that the witness might be temporarily excused to allow counsel time in which to prepare

The court consented that the witness might be temporarily excused to allow counsel time in which to prepare himself.

himself.

The balance of the afternoon was taken up by the introduction of documentary evidence.

It is expected that at least four or five days will be consumed in the trial of the case.

SLIGHTLY MIXED.

Patrick Connelly's Widow Kept the Accounts of the Estate Badly. Yesterday was the date for the an nual accounting by the administratrix of the estate of Patrick Connelly, who is the widow of the deceased. The matter came up before Judge Clark in Department two. Mrs. Connelly was placed on the stand and closely questioned concerning the receipts and disbursements connected with the business affairs of the estate. A considerable shortage appears to exist, but Mrs. Connelly stated that she had been ill for a long time during the past year, and that errors in the accounts, were they found to exist, would not be a surprise to her. She was ordered to produce the books in court.

Mrs. Connelly stated that she had Department two. Mrs. Connelly was

produce the books in court.

Mrs. Connelly stated that she had property in her own name from which she was drawing revenue, and that she frequently found it necessary to draw upon her private funds to meet claims against the estate.

A BATCH OF DIVORCES. Unhappy Wives Have an Inning in

Court. The divorce mill was kept grinding yesterday at an unusual rate. Several stories of disappointment and sorrow were poured into the ears of the judges. The first was that of Florence Semmelmeyer, who was granted a divorce from Charles A. Semmelmeyer by Judge Torrence on the grounds of cruelty. The couple had been married but two years. The plaintiff testified that her husband was an habitual drunkard and that for days at a time he was unable to attend to his business

drunkard and that for days at a time he was unable to attend to his business because of intoxication. During these periods he was very abusive, at one time driving his wife from the house barefooted at 2 o'clock in the morning. The plaintiff was allowed to resume her maiden name, Florence Watson.

Mary M. Talbott and witnesses in her behalf told in Judge York's court a pitiful story concerning the treatment she had been forced to endure at the hands of her husband, John H. Talbott. According to the testimony brought out Talbott is an inclent, worthless fellow, who has compelled his wife, a frail little woman, to support him for the past four years. Mrs. Talbott testified that during all that time he had given her but \$20 with which to support the family, which consisted of themselves and three children. Aside from this he had treated her cruelly, grossly abusing her at times when she was very ill. her cruelly, grossly abusing her at times when she was very ill. Judge York did not wait to hear all

the evidence before issuing a decree of

the evidence before issuing a decree of divorce, and ordered that, in addition, the custody of the children be awarded to the mother.

Judge Torrence granted a divorce to Annie E. Cornell from Tim Cornell for non-support and desertion.

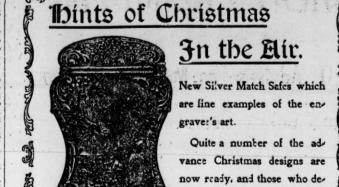

Carrie Dresser was successful in her suit for divorce from Byron D. Dresser on the ground of desertion, Judge Allen granting the decree.

TO RECOVER INSURANCE. Suit Brought Against an Enstern Company.

The Fidelity Mutual Life Insurance Company has refused to pay the policy taken out by Theodore Robert, died in November, 1895, and suit has been brought to recover the amount, \$3000, by J. M. Methwin, to whom the \$3000, by J. M. Methwin, to whom the policy was assigned by the widow. In the complaint filed yesterday it is alleged that after Robert's death the widow made repeated requests upon the company to be furnished with regular blanks upon which to enter proof of death, but without success. After waiting for nearly two years, she assigned the policy to Methwin.

THREE YEARS EACH.

Judge Smith. Santiago Acosta pleaded guilty to grand larceny in Department One yesterday and was sentenced to Folsom for three years by Judge Smith. Acosta was charged with having robbed another Mexican, Jesus Gozales, of \$40 while the two were out on a quiet spree on the night of the 14th inst. While on his way to the courtroom in charge of Deputy Sheriff Marsh. Acosta started in to discuss his case with the

the Folsom rock pile for three years.

Eugene B. Johnson was next commanded to stand up and give his reason, if any, why judgment should not be passed upon him having previously pleaded guilty to burglary in the first degree. He also was seritened to Folsom for three years. Johnson knew that he was to be brought up for arraignment yesterday morning, and a short time prior to the hour for his appearance in court he sent to Judge Smith the following epistie: "Your Honor, I wish to say a few words about myself. I am charged with breaking a window and taking some guns. I can't stand it to do any time in prison and if you will reduce my charge to petty lareeny I will plead guilty please think over this and help me." the Folsom rock pile for three years

me "I am "EUGENE B. JOHNSON." Johnson recently made the same request of Dist.-Atiy. Donnell, without

MUST PAY THE WARRANTS. Supreme Court Decides Against an Irrigation District.

The judgment of the lower court is affirmed in the case of J. H. Carter vs. L. R. Tilghman, treasurer of the Big Rock Creek Irrigation District, appellant. The action was brought to enforce the payment of certain warrants held against the district for labor performed. The treasurer declined to honor the warrants, upon the ground that there was no money in the "expense fund," upon which they had been drawn. The Supreme Court holds that drawn. The Supreme Court holds that there was no agreement upon Carter's part that he would look to this particular fund for the payment of his warrant; such action would be a more matter of book-keeping. The money found entered under any fund should be available. "As against the holders of warrants." the opinion runs, "the board of directions have no over the content of the court of the cour board of directors has no power dulge in a game of hide-and-seek with the funds of the district. The entire amount raised by the tax levied is a common fund to meet all indebted-ness."

MRS, REINOLD IN COURT.

Sues a Former Partner to Recover

Minnie L. Reinold and B. Northrop were in Justice Young's court yester-day as plaintiff and defendant respectively, in a suit by which Mrs. Reinold hopes to regain possession of certain office furniture which she had temporarily transferred to Northrop to

place it beyond the reach of creditors.

The two, it appears, had been partners in the real estate and insurance business, and shortly after the transfer dissolved partnership. Subsequently Mrs. Reinold demanded a return of the furniture, but Northrop refused to com ply. This is Mrs. Reinold's side of it. Northrop says the property was trans-ferred to him for a good and sufficient consideration, and that he is, therefore

consideration, and such contilled to possession.
Justice Young took the matter under advisement.
Mrs. Reineld's office was made a condexyous by Compton and Ware, it is rendezvous by Compton and Ware, it is said, while the bogus mortgage scheme was being perfected.

FLOTSAM AND JETSAM.

Miscellaneous Driftwood Thrown into the Courts. DON'T WANT LIGHT. The Los Angeles Electric Company has brought a suit against Bumiller & Marsh for \$50 damages. The company alleged that a contract had been entered into with the firm to furnish a certain number of incandescent lights for a stated period, but that the defendants, with-out just cause, declined to use or pay for the same.

TRADING-STAMP SCHEME.

ood thing for the schemer who sells stamps.

Opinions of Merchants Who Have Tried it That it is a Humbug and a Delusion—Profitable Guly

The Merchants' and Manufacturers disapproving the "trading-stamp" scheme which an agent is trying to induce Los Angeles merchants to adopt. This scheme has been in operation for some time in eastern cities, but is new here. In effect, it is merely a "gift" enterprise. The plan is for the retail storekeeper to buy the stamps from the trading-stamp concern and give them to his customers, who, when a certain number of stamps have been acquired, can exchange them for prea certain number of stamps have been acquired, can exchange them for premiums at the store of the trading-stamp company. The storekeeper pays for the stamps at the rate of \$4.95 for 990 stamps, or \$\frac{1}{2}\$ cent per estamp. He is supposed to give a trading stamp for every 10 cents worth he sells, so that he gives for each \$99 worth of goods sold stamps which cost him \$4.95. The trading-stamp concerns maintain one or more branch stores in each city in which they operate. In these stores no goods are sold, and the articles shown, instead of being marked with a price, bear a card usually reading. "one book." This means that the article will be exchanged for one book of trading stamps.

The books are circulated by the

article will be exchanged for one book of trading stamps.

The books are circulated by the trading-stamp company, whose interest is to have them in as many hands as possible. They contain an explanation of the system, a directory of the concerns in the city or district giving trading stamps, and a number of pages divided into squares into which the number of stamps are to be pasted. Each book contains 990 squares, and when completed represents an expenditure of \$99. The holder of the filled book can exchange it at the trading-stamp store for a number of articles, such as tables, rocking chairs, deeks, pictures, musical instruments, lamps, etc.

The Dry Good Economist, discussing

The Dry Good Economist, discussing the scheme, says:

"It is doubtless a good thing for the trading-stamp companies, which utilize the services and machinery of the retail store in pushing what is indirectly the sale of their goods through the trading stamps, while needing only a very limited number of employes to run, the stores at which the stamps are redeemed. Then, too, buying in large quantities for a number of their stores, the trading-stamp people get the very deemed. Then, too, buying in large quantities for a number of their stores, the trading-stamp people get the very rock-bottom prices, while the holder of the stamp book is not likely to be very critical as to values, or, in the words of the old saying, "look a gift horse in the mouth." As a matter of fact, the trading-stamp people can sometimes get a lower price than the biggest department store, because, buying for a number of stores, and for easily-satisfied customers, they can purchase large lots of goods irrespective of assortments and thus give the manufacturer special inducements. "Granted that the trading-stamp scheme is remunerative to the consumer, and to its promoters, the question arises, where does the merchant or storekeeper come in? "Boes he get enough out of it for his outlay of 5 per cent. or nearly that figure, on all his sales, for virtually taking the trading-stamp concern into his business as a partner, and assisting that partner to sell goods in competition with himself, for be it noted that all the goods given away' in return for stamps are such as are handled by most dry goods houses?"

The same paper secured the opinions

INDUSTRIAL PARADE.

Will Open the Permanent Exhibit of Home Products.

of Home Products.

At a meeting of the Exhibition Committee of the Merchants' and Manufacturers' Association, held yesterday afternoon, Secretary Zeehandelaar reported that the prospects for an imposing industrial parade in the afternoon of Saturday, January 22, 1898, are very encouraging, and that most of the prominent manufacturers, jobbers and merchants have signified their intention of participating in the parade. The number of decorated trucks, floats and tally-hos, together with the men employed by each firm, will show not only the residents of this city, but visitors, that the commercial and industrial development of this city has kept pace with other improvements.

ts,

ue

mercial and industrial development of this citv has kept pace with other improvements.

Some of the firms have decided to make an elaborate display by putling in some artistic floats. It is expected that a large number of people from Southern California will be here on that day, as excursion rates have been granted by both railroad companies, good for two days. A grand marshal will be elected at an early date, and care will be taken that no interruption in the parade will occur. The street railroads will be requested to abandon the running of cars on the principal streets during the parade.

A number of other details in connection with the opening of the evening of January 15 were discussed. Several prominent citizens will be requested to make short addresses on that occasion.

R. W. Schmidt, who sent a long letter from Juneau to The Times, appears to have evolved a new Klondike syndicate school. J. S. Serra of Los Angeles, having read his letter, wrote to Schmidt for further information, and received a postal-card reply, in which Schmidt said: "If we locate you on our creek, you must give us a percentage of what you take out. As it will take me half a day to write full particulars about outfits, send me \$2 for my time and trouble." In a letter from San Francisco, dated November 21, Schmidt fixed his rake-off at 10 per cent. on all over \$5000, and repeated his request for \$3, adding that he could not write to ever Tom, Dick and Harry for nothing. Schmidt seems to be a Klondike Information Company, limited.

BUSINESS.

FINANCIAL AND COMMERCIAL.

OFFICE OF THE TIMES, Los Angeles, Nov. 26, 1897.

SAN FRANCISCO STOCK MAR
The stock and bond market a large business being done from day to day in all the principal bonds and shares. According to the Financial Letter, the influences that recently affected values in New York were not floating in San Francisco at all.

COMMERCIAL. PROFIT IN BEET SUGAR. Evidences that the manufacture of beet sugar is a profitable pusiness continue to multiply. It is stated that the Lehi. Utah, beet-sugar factory cost \$60,000. Last year, during three months' operations, it made 11,000,000 pounds of sugar from 45,000 tons of beets, realizing \$500,000 from its sale. It paid \$190,000 for beets, \$35,000 for labor, \$30,000 for coal, and \$25,000 for supplies.

THE PETROLEUM MARKET. The

supplies.

THE PETROLEUM MARKET. The Times recently published an article showing how the consumption of petroleum has been increased all over the world during the past few years. The Pittsburgh Times gives an interesting review of the condition of the oil market in the East.

It appears that there has recently been a decline of 7 per cent. in the brive of crude oil, and the prospects of maintaining present prices are said to be by no means favorable to the producer. While development operations have not been pushed very actively of late, the production during september exceeded that of any of the summer months. The production of the Pennsylvania grade exceeded the monthly average during 1895 by over 450,000 barrels. Some of the newer producing sections are becoming important as adding to the total production; but these have been ignored, and estimates are based entirely on the condition prevailing in the older fields, and deductions made are consequently based on insufficient data. The Pittsburgh Times says:

"The petroleum industry has passed through several periods during which the demand exceeded the production, and in each of these we have been warned of a probable early shortage and possible oil famine, but with an advance in the price of crude, the producer has been stimulated to an active search, which each time has been rewarded by the discovery of hew pools and increased production. The demand for exports has been iarger during the past nine months, but a steady increase cannot be counted on. An advance in price of crude, the producer has been stimulated to an active search, which each time has been rewarded by the discovery of hew pools and increased production. The demand conditions as govern other industries. High prices stimulate production and cause curtailment of consumption, followed by accumulation of stocks. Then comes depression in values, stimulating the demand, and later again decrease in production. Thus cause and effect follow each other, and will in the future as surely as they have in t

GENERAL BUSINESS TOPICS.

decated in Minnesota.

ELECTRIC RAILWAY DEVELOPMENT. The development of electric railroads during the past ten years has been wonderful. The Western Electrician, in a recent article on this subject, shows that ten years ago there were only eighty-six miles of electric railway track in the United States. Now there are over fourteen thousand miles. In these ten years street-railway propulsion has been revolutionized. Horse cars have disappeared entirely from most of the lines, and will soon be curiosities; cable lines have probably reached their maximum mileage, while the number of electrically-operated cars has grown from 12 to over 37,000.

In 1888 the horse-car tracks represented over 91 per cent. of the total, and the electric-railway tracks a little over 1 per cent. At the commencement of this year the horse-car tracks were a little more than 6½ per cent. of the total, while electric-railway tracks represented more than 89 per cent., and were still growing. It is important to note, however, that in these ten years of electrical development yery little progress has been made in the direction of substituting electric motors for steam locomotives, excepting upon elevated roads.

It is interesting to note that, on yanuary 1, 1888, there were only eighty-six miles of electric arilway in operation in the whole United States. Los Angeles was one of the first cities in the country to adopt the electric lighting. The first electric railway in Los Angeles, that on Pico street, was opened for traffic in 1887.

Los Angeles, that on Pico street, was opened for traffic in 1887.

STATE OF TRADE.

STATE OF TRADE.

Dun's Weekly Review.

[ASSOCIATED PRESS MGHT REPORT.]

NEW YORK, Nov. 28.—R. G. Dun & Co.'s weekly review of trade will say in its issue tomorrow that the heavy exports of wheat, with the renewed advance in price, is the most interesting and important feature of the week's events. Since August, when the extent of the foreign deficiency became realized, exports have been larger than in corresponding weeks of any previous years. The cotton export sales also have become very heavy, and the outgo of corn falls but little below last year's unprecedented record, while in exports of manufacturing products, especially machinery, all records for the season have been surpassed. While the aggregate for November last year was over \$1(9,000,000, shipments from New York for three weeks have been but slightly smaller, with a fair prospect that the known increase in cotton and other products from other ports may make up the deficiency. Meanwhile imports are running behind last year's at New York noarly \$2,000,000 list month, so that another excess of exports over imports, amounting to about \$80,000,000 for the month, is probable. But this would make an excess of about \$225,000,000 list month, so that another excess of exports over imports, amounting to about \$80,000,000 for the month, is probable. But this would make an excess of about \$225,000,000 list month, so that another excess of exports over imports, amounting to november, with No. 2 red and other grades selling many cents higher. Yet western recepts are of enormous magnitude, in four weeks \$2,072,264 bushels, and for four weeks \$2,072,264 bushels, and for four weeks \$1,469,859, against 7,73,858 last year. The slipments from other ports have also been heavy, and nothing appears to change former estimates for four or estimates for burders, with work to deliver in though Chicago, iron is proferred to sizel, and thin sheets are also in better demand, but bus are a shade lower are littsburgh, and also wire and cut nails. Some large orders for rails by easte

Shares and Money.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Nov. 26.—The latter part of the day showed an improvement in business on the Stock Exchange on the volume of transaction and the increase of values ever those recently prevailing. The standard rail-road stocks, however, continued to be a good deal neglected, and the movement of prices in them was very narrow. The whole list was depressed during the carly part of the day under the influence of lower prices to Americans in Loridon and quite active selling here for London account. This was specially marked in St. Paul, and this ttock failed to recover at any time to Wednesday's close. Its weakness was due to the October statement of earnings, which showed nin crease of less than \$3000. So far rathing statement of earnings, which showed nin crease of less than \$3000. So far rathing statement bears on the general situation it is to be taken into consideration that fit. Paul's carmings last month were the largest for the year. The later improvement in the market left the railroad list with not rains, but they were of the narrowest in many cases. The chief interest in the market centered in the specialities, and these all excepted atrensth before trading had been long in progress. Hanhattan was most conspicuous in the dealings and advanced quite steadily and strongly throughout the day, togetheous in the dealings and advanced quite steadily and strongly throughout the day, togetheous in the dealings and advanced quite steadily and strongly throughout the day is rading reflected nothing in the general rituating from the operation which involves the lending to tunds abroad. There was also said to be some buying of long sterling for speculation, in the belief that rates of exchange wind to wance by the time it matures, as the balance of trade may have shifted by that time. The bound market was fairly active and prices were firm. Tot

London Financial Market.

NEW YORK, Nov. 26.—The Evening Post's London financial cablegram says: "The stock markets were idle and '!regular today, but most of them were unsteady until the close, which was flat on various vague rumors. Kaffirs slumped on renewed, but unconfirmed, reports of Cecil Rhodes's death. Other markets saged on the reported collision of French and English troops on the Niger. There was Jobling really authentic in this story, but the markets lack energy and are easily frightened. Americans were dull, Glasgow and the Continentals were relling moderately. Brazilis were better on the placing by the Rothschilds of \$2,000,000 of famila hyper-cent treasury bills at \$55.000,000 of famila hyper-cent treasury bills at \$55.000,000 of famila hyper-cent.

quoted here today at 30.26, but I have reason to believe that the quotation is nominal. The real rate is nearer 20.27, and gold taken here for Germany goes out at a loss. Vienna exchange is also advancing. The Paris bourse was steady, and the Berlin market dull."

prices; good to extra steers, 4.70@5.50; commonest grades, 2.80@4.55; tookers and feeders were in fair demand at 3.00@3.50 for stockers to 3.80@4.50 for feeders at 3.00@4.50 for stockers to 3.80@4.50 for feeders; calves were steady at 5.70@6.50 for the better grades; western rangers sold at 2.50@4.40. Hogs—Sales were at an extreme range of 2.20@5.25½; the bulk of the hogs seiling at 3.20@5.45; while pigs went largaly at 3.10@3.40. Sheep sold at 2.50 @3.50 for the poorest up to 4.50@4.55 for the bett flocks; fed westerns selling at 3.60@4.60; rearlings sold up to 5.00, and prime wethers brought 4.75; lanhs sold at 4.00%5.85. Receipts—Cattle, 5500; hogs, 31,000; sheep, 5.00. New York "Dollar Wheat."

NEW YORK, Nov. 26.—After several weeks of unsatisfactory markets, "dollar wheat," in the speculative acceptance of the term, was realized on 'change today. The December option early attained that and soon passed it, reaching 100%, in the afternoon, which was also the final price. A bad "squeeze" of the shorts was certainly responsible for local strength, although higher cables had mech to do with the early advancing tendency of the local markets. Exporters bought only moderately of wheat, but took about seven hundred thousand bushels of corn today. December wheat ranged from \$8% to 100%, and May from \$M\$ to 86%, closing at 85.

HOTEL SWINDLER'S CAREER.

The Klondike Restaurant At-tsched-Bartender Radney Takes

PARADENA. Nov. 26.— [Regular Correspondence.] The hotel beat and general all-around swindler who was arrested by Constable Slater in Santa Barbara last evening, and who was locked up in Pasadena on three counts, was brought before Recorder Ressiter this forenoon and gave his right name as Jerome J. Williams and his residence as Pittsburgh, Pa. He pleaded guilty to two charges of obtaining money under false pretenses and one charge of defrauding a hotel-keeper. The two charges of obtaining meney under false pretenses were for getting \$20 from Hiram W. Staats on the assertion that his mother and sister would arrive on the "limited," and would then not only give him some money, but would pay for the \$15,000 lot he had contracted for in their names—or rather in the name of Arbuckle, one of his aliases. The other count was for obtaining horses and carriages from Morgan, a livery-stable keeper, on the same plea that he had spent all his money, as he knew his folks would give him plenty mere when they arrived. Morgan's manager asked him why his folks did not arrive on the limited, and he showed what purported to be a dispatch from his sister, saying she and her mother had stopped off at Salt Lake City, and would continue their journey in a day or two.

Judge Rossiter informed the man of many aliases that he could be sentenced at once if he wished, or he would defer the sentence until he could communicate with his friesda if he so desired. Arbuckle, or Wilson, Roberts or Williams, each of which hames he answers to, asked to have sentence deferred, and in consequence he is in the County Jail. This morning, while he was in the Recorder's office listening to the reading of the complaints against him, a bundle arrived at Hother Green addressed to George W. Arbuckle, accompanied by a bill from a local clothing house for a dozen pair by telegraph, if necessary, so that he could have them in a few days, but they came just a day late.

This morning, when Mr. Staats expressed sorrow for the fellow, he replied: "Don't sympathise

SANTA BARBARA COUNTY.

An Attempted Robbery by Hobon Thanksgiving Sports.

SANTA BARBARA, Nov. 26.—[Regular Correspondence.] Two men by the name of Slater and Garcia were attacked her night on State street by five tramps who wanted money and couldn't get it. The row brought the entire-police force upon the scene, and two of the would-be robbers were captured. They resisted to such an extent that they were tied down in the 'bus that transported them to the jail. The others escaped in the darkness.

SAN BERNARDINO COUNTY

A MINING CLAIM BLOCKS THE RIGHT-OF-WAY.

Have to Pay Two Thousand Dol-Inrs to Keep Peace - Athletic Club Smoker-High Jinks Pre-vails-Notes.

SAN BERNARDINO, Nov. 26.—[Regular-Correspondence.] The Randsburg Railway Company, the corporation that is building a road from Kramer to Randsburg, got clear today of one snag that threatened to interrupt the progress of construction, but the snag may yet cost the company \$2000, or upward.

It seems that on the line mapped out for the road, somewhere in the vicinity of Randsburg, B. O. [Webb., William Gaines, Philip Wren' et al. have sunk a mining shaft to a depth of seven feet, which represents an expenditure of \$50, or more. The shaft-sinkers promised to prove troublesome and to force the issue the railroad company fled a complaint against the parties named, asking that it (the railroad company she charde entitled to a right-of-way over the mining claim held by the defendants, and that an injunction be issued against the defendants restraining them from retarding the progress of the road. Judge Campbell on Friday issued the injunction prayed for, but required the railroad company to give a bond for the bayment of damages in the sum of \$2000 in case a decision is ultimately rendered in the Superior Court against the plaintiff. The amount named about represents what it would cost the company to go around the mining claims that has caused the trouble.

Thanksgiving Day Sports-Henvy Shipments of Oranges.

AZUSA, Nov. 26.—[Regular Correspondence.]
The sports on Thanksgiving day were a complete success, there seling on of the large complete success, there seling on our hands of the come in from neighboring towns, and the races were watched with great interest. The leading bleyde content was a ten-mile race, which was won by Ray Vincent of Covina, ad boy but fourteen years of age, who showed phenomenal ability in racing against a number of riders of areater age and experience. All the races were vigorously contested. It is estimated that the shipment of oranges from Asusa, Covina and Glendora will amount to a hundred earloads before the holidays. Shipments are now heavy, and will continue so for a couple of weeks, when it is supected that the shipments will cease until after the holidays, as there will undoubtedly be the customary lull in business while merchants are adjusting their affairs for the new year.

CHRISTIAN YOUNG MEN WIN THE FOOTBALL GAME.

The Championship Contest Made a Battle Royal—Thanksgiving Fes-tivities—San Miguel Summit Good Pince for an Observatory Coronado Items.

SAN DIEGO, Nov. 76.—[Regular Correspondence.] The football game at Buy View Park yesterday between the Y.M.C.A. and High School was the hardest fought, and consequently the most enthusiatic of ray game ever decided on the local gridiron. The result of the game was 13 to 4, in "avor of the Y.M.C.A."a, and this marked the first defeat of the High School team this reason. Heretofore, they had vanquished every '98, but in yesterday's contest they met their Waterloo and their colors were dragged in the dust. The Y.M.C.A." gave out the information before the game was called that they would win this contest or die in the effort, and they made their word good, although at one stage of the game it looked as if they would have to die, in order to fulfill their promise.

The contest was the final game of the ser-

tion the hotel orchestra rendered a specially-prepared musical programme.

THE PLACE FOR AN OBSERVATORY.

A party, consisting of George E. Abbott, Miss Abbott, Chaplain and Mrs. John D. Parker and Prof. Henry G. Crocker, has recently made a trip to the summit of San Miguel, principally for the purpose of recently made a trip to the summit of San Miguel, principally for the purpose of recently made a trip to the summit of San Miguel, principally for the purpose of recently made a trip to the summit of San Miguel, principally for the purpose of recently made a trip to the summit of San Miguel, principally for the purpose of recently made a trip to the summit of San Miguel, principally for the principal trip to the summit of the party are now enthusastic over the establishment of an observatory at this place. It is claimed that from the peak the view is perfect, and that about two thousand more stars are visible to the nade oye than are seen at the Yerkes Observatory, recently dedicated on Williams Bay, and it is 'urther claimed that there are infilions of telescopic stars visible here that cannot be seen at the Yerkes Observatory.

The crown of the mountain embraces more than an acre, and is a mass of porphyry, of the variety called phonolite.

THANKSGIVINO FESTIVITIES.

Thursday was an ideal Thanksgiving day in San Diego. The threatened inclemency of the weather the previous day vanished with the rising of the morning sun, and the day was just cool enough to make every one feel like moving about to work up an appetite for the good dinner that was coming later on in the day.

Union Thanksgiving services were held in the new Congregational Church at Sixth and A streets at II o'clock, and the congregation was the largest that ever assembled at this church edifice. Rev. P. E. Kipp of the First Presbyterian Church delivered the sermon, but the pastors of the various churches were present and participated in the services. Entertainments of various kinds were namerous throughout the city, and in the afternoon sports reigned at Bay View Park.

The day was a quiet but delightful one at Hotel del Coronado. The tide was unusually low, thus affording a splendid opportunity for a promenade on the beach. The grounds were well patronised during the day by visitors from San Diego and vicinity, and in the evening the day was celebrated at the hotel with fitting rites, the chef acting a masster of ceremonies. A tpecial bill-of-fare had been prepared, and during its consideration the help of the strendered a spe-

day.

Mark Healy of Chicago and A. G. Clenn of San Francisco are registered at the notel.

Mr. and Mrs. E. B. Oson of Sacramento were guests at Coronado Thursday.

The latest arrival from New Orleans at the hotel is Mrs. Josie E. Harvey.

FIBROID TUMOR

Expelled by Lydia E. Pinkham's Vegetable Compound.

Interview With Mrs. B. A. Lom

I have reason to think that I would not be here now if it had not been for Lydia E. Pinkham's Vegetable Com und. It cured me of a fibroid tumor in my womb.

Doctors could do nothing for me, and they could not cure me at the hospital.

I will tell you about it:

I had been in my usual health, but had worked quite hard. When my monthly period came on, I flowed very badly. The doctor gave me medicine, but it did me no good. He said the flow must be stopped if possible, and he must find the cause of my trouble Upon examination, he found there was a Fibroid Tumor in my womb, and

gave me treatment without any benefit whatever. About that time a lady called on me, and recommended Lydin E. Pinkham's Vegetable Compound said she owed her life to it.
said I would try it, and did. Soor
after the flow became more natural an
regular. I still continued taking the Compound for some time. Then the doctor made an examination again and found everything all right. tumor had passed away and that dul ache was gone.—Mrs. B. A. LOMBARI Box 71. Westdale, Mass.

MEDIUM HELD UP.

A Debate Over the Cost of a Buggyspoke in Which He is Robbed.

spoke in Which He is Robbed.

"Prof." G. Joyce, a spiritualistic medium at No. 462 East Third street, appeared at the Police Station last evenin. He wanted a warrant for the arrest of the proprietor of the Niagara stables at No. 305 East Third street. The "professor" was advised to wait until this morning and bring the matter before the District Attorney.

The "professor" was advised to wait until this morning and bring the matter before the District Attorney.

The "professor"s" grievance was apparently a just one. Yesterday afternoon he hired a horse and buggy from the proprietor of the Niagara stables, paying \$1.50 in advance for the use of the rig. When he returned last night one of the spokes was missing from a hind wheel. Joyce explained to the liveryman that the spoke had been lost in a collision, and asked how much would be required to replace it. The price demanded did not seem to Joyce to be just and he started to debate the matter with the liveryman. But that person wouldn't debate. He simply grabbed Joyce by the throat with one hand, while with the other he snatched Joyce's watch from his pocket, break-ing the watchedain in so doing. The Joyce's watch from his pocket, break-ing the watchchain in so doing. The liveryman then pocketed the timeplece and walked away. He refused to give and walked away. He required to some back the watch and several witnesses sugested to Joyce the advisability of having the liveryman arrested, and having the "professor" having the liveryman arrested, and offered to accompany the "professor" to the station and swear to a compleint. Joyce had been drinking, but the witnesses wer unanimous in their condemnation of the liveryman's conduct, and a warrant will probably be

ABBOTT ONCE MORE.

The Insuppressible George Again Before the Public.

Before the Public.
George Abbott, who gained additional notoriety in the past two weeks by being the target of three bullets fired at different times by his younger brother and Fred Sullivan, was arrested yesterday afternoon by Officer George on a battery warrant. Abbott will answer today before Justice Owens. He is accused of battering Lillie Duragio in a restaurant near the Plaza.

Sunset Club.

Sunset Club.

The regular monthly meeting of the Sunset Club was held last evening at the Maison Dorée, where an exceptionally fine dinner was enjoyed by the members present.

Before the dinner was over, School Director Davis had to leave to attend the investigation of school affairs in progress, whereupon he was given an ovation by the club.

There were added to the Committee on Christmas. Entertainment Messrs Mosher, Gibson and Francis.

The paper of the evening was then head by George S. Patton, Esq. It was entitled: "The Passing of the Theory of Unrestrained Competitors," and was followed by a discussion, after which many members of the club attended the meeting of the school board at the City Hall. the meeting of the school board at the City Hall.

**esident Willard being absent this meeting of the club was presided over by J. S. Slauson.

MURDEROUS ROBBER.

Kills a Bank Cashler, Wounds the Manager and Shoots Himself. [ASSOCIATED PRESS NIGHT REPORT.] LONDON, Nov. 26.-[By Atlantic

Cable.] A dispatch to the Times from Cape Town describes a bold attempt to rob the Standard Bank at Claremont, a suburb of Cape Town. A masked man entered the counting-room of the bank, locked the door, and by some unknown means broke the neck of the cashier, though no marks of violence could be found on the body.

When the manager of the bank appeared, the robber shot and wounded him slightly. The police then rushed in, and the robber, seeing that all chance of escape was gone, shot himself dead. ob the Standard Bank at Claremont,

IRRIGATION CONGRESS.

Evidence That It Will Be Large and Important.

[ASSOCIATED PRESS NIGHT REPORT.]

[ASSOCIATED PRESS NIGHT REPORT.]

I.INCOLN (Neb.,) Sept. 26.—Letters and telegrams received today from ex-pectant attendants at the National Irgation Congress, which begins Tues-ty, indicates the largest attendance n the history of the congress. The in-erest shown in this gathering by American States makes it evident that American States makes it evident that action will be taken by the convention lookins. to a radical departure from present methods of agriculture in the semi-arid regions of the West. While irrigation and its benefits will be the main subjects of discussion, it is possible that the congress will go further and enter into consideration of financial and economic subjects.

Tomorrow will be an exceedingly busy day for the local Executive Committee. Delegates will begin arriving early and continue throughout the day. Judge Emery Best, Assistant Land Commissioner, will represent the Federal government.

BELLEFOURCHE ROBBERS.

HELENA (Mont..) Sept. 26.—The three men in jail at Billings have been three men in jail at Billings have been positively identified by the cashier of the Butte County Bank at Bellefourche, S. D., as members of the gang that robbed the bank June 28, getting several thousand dollars and wounding some of the bank people. They came into Montana from Wyoming soon after the crime was committed, and were finally run to cover by Montana officers.

Two of the men identified as the Bellefourche robbers call themselves Frank and Thomas Jones, and claim to be brothers. They answer descriptions of Roberts brothers, supposed to have been implicated in the robbery. The third man is a half-breed, giving the name of J. L. Smith.

Hydrophobia From His Son A. Judge Emery Best, Assault and Commissioner, will represent the deferal government.

Not Posted on Geography.

LONDON, Sept. 27.—The Daily Mail aghs at the report of the Canadian spedition in Hudson Bay hoisting the irritish flag over Baffin's Land to get head of the Americans, and declares where to New York for the Pasteur treatment.

Spain Onto Uncle Sam's Programme.

Her Information is That It Doesn't Mean War.

Diplomatic Relations Only Will Be Knocked Out.

Sen. Woodford Says His Interview With Tetuan Was Satisfying. The Minister Protected in His ourneying.

[ASSOCIATED PRESS NIGHT REPORT.] MADRID, Sept. 26.-[By Atlantic Cable.] The arrival of United States Minister Woodford from San Sebastian of the United States has been ascer tained. This does not contemplate a declaration of war if Spain rejects me diation, but, according to the report an "ostentatious proclamation to the world of disapproval of the Cuban regimé by suspending diplomatic relations with Spain and withdrawing the United States Minister."

Gen. Woodford has declined to be interviewed on the subject, further than to say his conference with the Duke of Tetuan, the Foreign Minister, was of the most satisfactory character. The unexpected bitterness of the press and of public opinion has been painfully impressed upon him, but he hopes this will soon be allayed, as he believes his mission favorable to Spanish interests and cannot comprehend that Spain would reject mediation designed to end an impoverishing war. He has not named a time at which the war must be terminated, but hopes, as the result of his tenders, that it will be ended quickly. He believes the war is doing incalculable harm to the United States and that it is impossible to prevent the organization of fillbustering expedi-

Unuspal measures were taken to pr tect Minister Woodford on his journey from San Sebastian to this city, but the trip was quite uneventful. A party of gendarmes, commanded by a sub-lieutenant, guarded the Southern express, on which he was a passenger Secret police were posted at the station, and the prefect of police was in waiting to escort him to his hotel. The drive through the streets was marked by no special incident, though several people saluted him, receiving a bow in return.

the fact that Minister Woodford's family has not accompanied him, but remains behind the French frontier Minister Woodford explains that his party is a large one, requiring a commodious home, and prefers spending a pleasant October at Biarritz until a suitable residence can be secured here. The legation cannot be used as a resi-

WEYLER WANTS HELP. MADRID, Sept. 26.—Capt.-Gen. Weyer has cabled the government a re-quest to send 113 additional adminis-trative officials to Cuba. WHAT COULD SHE DO?

[ASSOCIATED PRESS NIGHT REPORT.1 LONDON, Sept. 26.—A dispatch to the Standard from Madrid says: "The the Standard from Madrid says: "The rumor of Austrian mediation between Spain and the United States in the event of hostilities, has created surprise, mingled with much incredulity. The Spaniards fail, to see what Austria could do, unless seconded by naval powers, or at least by the combined pacific action of several governments."

BREWERY WORKERS

Their Convention at Boston Adtourns-Yesterday's Transactions [ASSOCIATED PRESS NIGHT REPORT.] BOSTON, Sept. 26.—The interna

which has been in session here for a week, finished its business today and adjourned to meet in Detroit in Sep-tember, 1899. The convention elected Daniel D. Mahoney of Holyoke, Mass.

Daniel D. Mahoney of Holyoke, Mass., and August Priesterbach of St. Louis delegates to the American Federation of Labor.

A uniform financial system was adopted, and it was voted to levy a fine of not less than \$25 on all organizations affiliated not adopting the new system within a reasonable time.

Is It Pearl Bryan's Skull? Is It Pearl Bryan's Skull?

CINCINNATI (O.,) Sept. 26.—William Parson, a boatman, while digging for coal in Medoc sand bar, on the Kentucky side of the Ohio River, found a skull, the lower jaw of which was gone. In the upper jaw were nine teeth. Two front teeth were gold-filled. An expert dentist says it is the skull of a woman between 18 and 23 years of age. It is supposed to be that of Pearl Bryan, for whose murder Jackson and Walling were hanged. Should that prove true, it has been buried over nineteen months.

HOW THE COMING GENERATION WILL APPEAR

If the bicycle craze keeps up.

HER BLOOD IS UP.

VANDERBILT'S GRAND-DAUGHTER WANTS A DIVORCE.

k Wilmerding and Wife Not Living Happily Together—Mrs. Wil-merding's Friends Accuse Him of Cruelty and Wanton Waste of Ice Cream-Family Skeletons.

BY THE TIMES' SPECIAL WIRE. NEW YORK, Sept. 26.—[Special Dispatch.] The World says gossip in the boudoirs are whispering behind their fans, that Mrs. John C. Wilmerding, Jr., great granddaughter of old Commodore Vanderbilt, has separated from her husband. These gossips even declare the young woman will bring suit for a divorce against Jack Wilmerding, a Knickerbooker of Knickernerding, a Knickerbooker of Knicker bockers, whose mother was the beau-tiful Miss Hecksher. Mrs. Marie Fatimeh Allen Wilmer-

ding is the daughter of Vanderbilt Allen. For her father the divorce court has no terrors. She is a very pretty woman, piquant, clever, always well dressed. She was married to Jack Wilmerding in the spring of 1892. Now Mrs. Wilmerding is at the Gerlach, where she has taken rooms for the where she has taken rooms for the winter. Her husband lives on Staten Island, when he is at home. Gossips say he is now in Nova Scotia on a hunting and fishing trip. They say, too, that the young Wilmerdings have not lived happily together for some months; that they separated for a time, but their friends effected what seemed o be a reconciliation,

Stories of further infelicities were current all summer, and Mrs. Wilmerding's friends have not stopped to accuse her young husband of extreme cruelty. They declare he has lost command of his temper, and one one memorable occasion at Delmonico's he tomorrow.

memoratic occasion at Deliminato's in so far fergot himself as to throw a saucer of ice cream at his wife. Mrs. Wilmerding's father, Vander bilt Allen, has not lead an entirely happy existence. He was graduated West Point and served with dis inction in the Turkish army. He was married to Miss Edith de Silver of Philadelphia, who, ten years ago, got a divorce from him, naming Edith de Beelwith, an actress, as co-responden Beelwith, an actress, as co-respondent. Vanderbilt Allen's first wife got judgment against him in New York courts for an arrears of alimony. He has married again, and is living alroad. Just after he went to Europe, Mrs. Jack Wilmerding got judgment against her papa for \$20,750, declaring she had vainly tried to get her father to turn over the estate he held in trust for her, or to account for his trust.

THEIR LAST RESORT

Chicago Street-railway Employee in No Haste to Strike. [ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Sept. 26.—Employes of the Chicago City Railway Company operating the South Side lines decided

operating the South Side lines decided today to extend their association to the West and North Side lines. A series of meetings will be held at once to secure united action.

The committee appointed at these meetings to confer with the directors of the South Side road looking to the reinstatement of discharged employes, will request them through the press to seek a settlement with the employes. A strike is not in prospect inside perintendent Bowen discharges some of the leading spirits at this morn-

ng's mass meeting.
President Mahon of the Street Railway Men's Organization, says they will endeavor to avoid a strike, resort ing to it only as a last resort.

BURNED OR DROWNED.

MANY RUSSIANS PERISH STEAMER BURNING.

The Vessel is Moved Out Into the Stream at Ufa and Panic-stricken Passengers Jump Overboard-Number of Victims Un-

[ASSOCIATED PRESS NIGHT REPORT.] ST. PETERSBURG, Sept. 26.—[By Atlantic Cable.] A dispatch from Ufa, in southern Russia, says that the steamer Admiral Gervais, with 200 pas sengers, lying off the town, took fire while all were asleep. A terrible panic ensued, owing to the fact that before the passengers could disembark the steamer moved into mid-stream in order not to endanger neighboring ves

Many passengers jumped overboard and were drowned. Two were burned to a crisp, and several others were seriously burned. The total number of victims has not yet been ascertained.

RYE DISAPPOINTING.

Three Million Bushels Less Than

Had Been Expected.

[ASSOCIATED PRESS NIGHT REPORT.] NEW YORK, Sept. 26.—A disappointing rye crop is indicated by final returns to the American Agriculturist. Instead of some 28,000.000 bushels, expected from earlier indications, the crop of the United States now figures out about 25,000 bushels 1,000.000 out about 25,000,000 bushels, 1,000,000 more than last year, and 2,000,000 bushels less than in 1895 and 1894. The increase is mainly in Pennsylvania. The latest European crop advices in-dicate a serious shortage in rye, es-pecially in Russia. Germany's rye crop seems to be somewhat larger than the earlier reports indicated, but reduced estimates for France and other coun-tries offset the stocks of rye at home and abroad. Except during the fall of 1895 and 1896, rye has not been so slow as at present since before 1890.

MOB GOT HIM.

Hawesville, Ky., Negro Strung Up.

Confessed to Having Outraged Three Females.

His Sixty-year-old Aunt One of the Victims.

Murdered a Fourteen-year-old Girl After Assaulting Her-Officials Try to Save Him in Vain - The Crowd Cheers.

[ASSOCIATED PRESS NIGHT REPORT.]

[ASSOCIATED PRESS NIGHT REPORT.]

HAWESVILLE (Ky.,) Sept. 26.—In the midst of a revival, not a mask to be seen, and in the presence of 800 infuriated people. Raymond Bushrod, a negro, at 5 o'clock this evening was made to pay the penalty of his assault on fourteen-year-old Maggie Roberts. He was swung from a limb in the Courthouse vard.

Courthouse yard. Bushrod yesterday afternoon, three miles below town, encountered Mag-gle Roberts, daughter of Ben Roberts, a prominent farmer. He not only bru-tally arsaulted the girl, but beat her with an iron coupling-pin and left her on the railroad grade to die. The news of the outrage spread, and searching parties were sent in every direction. He was captured in hiding at Falcon, four miles below the scene of the orime, by four of the posse. He was a prominent farmer. He not only brubrought quietly to Hawesville and sur-rendered to the jailor, while the town was deserted searching for him. Meantime the officers got wind of a mob and he was secretly guarded in the grave-yard on the hill until morning, when he was again locked up. But the people were determined. Early they came afoot, on horseback, in wagons and in the trains. They were impatient for darkness to cover the land. It was rumored that militia would arrive at 4:30 o'clock from Owensboro for his protection. The angry crowd would not stand this, and they placed trusty sentinels on the hill overlooking town to give a signal if the train bore such protection.

sentinels on the hill overlooking town to give a signal if the train bore such protection.

The militia failed to come, but at this time the officers thought it opportune to play a ruse, and the mob, now furious, were led to believe that the prisoner had escaped. A hot pursuit followed. The trail was followed only a square, when the broad open attempt to spirit Bushrod over the hills and out of town was discovered. A few well-chosen guards staid at the jail, and as he was brought out, the mob formed in front of the officers and they were forced to yield. The excitement at this time was intense. At 5 o'clock promptly the march, to the Coruthouse square was begun. Halting in front of a great poplar with limbs and twigs overhanging the most public street in town, a selection was made. Some delay was caused for want of a rope, but directly a new half-inch plow-line was furnished and everything was in readiness for the first lynching in Hancock county.

In the meantime Bushrod was given an opportunity for confession and prayer. His confession was complete. He said he was guilty, and that this was his third offense, one successful effort having ben made upon his sixty-year-old aunt. After offering up his last supplication, a long and fervent prayer, the signal to haul away was given, and with pinioned arms and legs he was dangled between brick and tree. The applause as he went up was dealening.

In about four minutes he was pronounced dead, and Coroner Mitchell, claiming the body, cut it down and summend a jurn whose verdict was

nounced dead, and Coroner Street, and claiming the body, cut it down and summoned a jury, whose verdict was that Bushrod came to his death at the hands of unknown parties.

After the lynching, the mob's leader made a little talk. He pointed to the corpse and said: "Here is the protec-

tion we offer our wives and daugh-ters." When he committed the assault

CAUGHT BY A WOMAN

FATE OF TWO ROBBERS WHO HAD A LANDLADY.

Charles Jackson and George Williams Held Up the O. R. and N. Co.'s Train Near Clarnic.

ARE ARRESTED AT PORTLAND.

SHOTGUNS AND A SUSPICIOUS BOX QUEERED THEM.

Frank Casegus Tries to Kill Two Shooting Affray Near the McLeod Mine.

[ASSOCIATED PRESS NIGHT REPORT.1 PORTLAND (Or.,) Sept. 26. men giving the names of Charles Jack-son and George Williams were ar-rested in this city, this afternoon, charged with holding up the Oregon Railway and Navigation Company's train near Clarnie, seven miles from this city, last night. Engineer Evans and Fireman Wilkes, who were on the engine, positively identified the two men as the parties who led them down the track after the hold-up. While the men arrested appear to be

veterans in the business, their plans last night were carried out in a most bungling manner. The sum total of their haul was \$16 in cash and a watch which they took from the engineer and fireman. The clew which led to the arrest of the highwaymen was furnished by a woman, Mrs. Hamilton, who keeps a lodging-house at No. 83 Seventh street, this city. On Wednesday two strangers came to her house and engaged lodgings. While arrang-ing the room after the men had gone out. Mrs. Hamilton noticed two shot-

out, Mrs. Hamilton noticed two shotguns, two revolvers and a square box
marked "Beware, handle with care."
She thought nothing of the matter
until last evening, about 5 oclock,
when the two men drove up to the
house in a buggy. Williams, the
younger of the two, got out and went
into the house and came back with
the guns. Another trip was made,
and this time he carried out the
square box on which the warning was
written, and carefully arranged it in
the buggy.

the guns. Another trip was made, and this time he carried out the square box on which the warning was written, and carefully arranged it in the buggy.

When Mrs. Hamilton read in this morning's paper that a train had been held up just outside the city limits last night, she associated the movements of her two lodgers with the affair, and notified the Chief of Police of the action of her two roomers and said they were in their rooms.

Chief Barry, with four men, went to the house about 2 o'clock this afternoon. Detective Joseph Rellly was sent into the house, while the remainder of the force stood guard on the sidewalk. As soon as the robbers observed Rellly, Williams jumped for his revolver, but the detective was too quick for him and covered each man with a revolver. Chief Barry and his force then rushed in and handcuffed the men and hurried them away to the City Jail.

In searching for evidence near the steen of the hold up the revolve found.

in carreling for evidence near the scene of the hold-up, the police found fifteen sticks of dynamite, which they evidently intended to use in blowing widen stokes of dynamic, with they evidently intended to use in blowing open the safe of the express-car. The police are of the opinion that there were others of the gang, but that some of them failed to reach the appointed place in time, which caused their plans to miscarry. The highwaymen hired the buggy at a livery stable late in the afternoon, and returned it about 10:30 o'clock last night, about an hour after the hold-up. This morning, Engineer Evans's pocketbook, which the robbers took from him, was found in the buggy.

The men are charged with train-robbery, but it is probable that an additional charge of stopping the United States mails will be entered against them.

A PARALYTIC SUFFOCATED.

Benjamin Cole Upsets a Lamp Upon His Lonely Bed. [ASSOCIATED PRESS NIGHT REPORT.]

OAKLAND, Sept. 26.—Benjamin Cole, an aged colored paralytic, was suffocated by a fire that partially consumed the bed which he was powerless to was conscious of the danger that slowly brought death, and made a desperate struggle to save himself.

He was alone in a little hovel or

lower Third street, and the help that lower Third street, and street his finally arrived, attracted by his screams, came too late. He upset a lamp and fired the bed himself, but the humand around him did dames which burned around him did not reach his body, and he died from the fumes he inhaled.

MRS. CARR EXPLAINS.

Her Letter on San Jonquin's Immorality a Church Matter.
[ASSOCIATED PRESS NIGHT REPORT.]

HANFORD, Sept. 26.—Mrs. Sarah Pratt Carr, pastor of the Unitarian Church here in her sermon today pre-faced her discourse with a reference to the letter she wrote to the Christian Register of Boston, which has been the

subject of much adverse criticism.
She said her letter was a church
matter, addressed to the Unitarian
National Conference for the purpose of National Conference for the purpose of arousing interest among the Unitarians of the East, that they might exert themselves in sending missionaries to this, at present, unoccupied field of Unitarian possibilities.

COL. GRIFFIN SHOOTS.

Wounds a Man Named McElwee Over

a Mining Claim. [ASSOCIATED PRESS NIGHT REPORT.] DELTA, Sept. 26.-News just arrived here of a shooting affray near the Mc-Leod mine, situated between here and Trinity Center, in which Col. Griffin shot a man named McElwee in a dispute over rights to a mining claim.
Griffith claimed the mine, which it is alleged McElwee tried to "jump" in the interest of others. A quarrelensued, during which it is said McElwee struck at Grifflin with a club, receiving a sho in return. He was taken to Trinity Center for medical aid. It is not known ious the wound is

CAZESUS'S THREE SHOTS.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Sept. 26.—Frank assezus fired three shots at Lucy ineda a young married woman, and er mother, Mrs. Trinidad Pineda, at er mother, Mrs. Trinical Pineda, at beir residence, No. 877 Jackson street, his afternoon. He falled to hit either coman, but one of the shots penemed the clothing of the younger one, life whom it is said, he is infatuated. He left the pisted on the table and d, but was arrested on Powell street.

with an open knife in his hand. While showing how the shooting was done, the pistol was accidentally discharged by the elder Mrs. Pineda, the bullet just missing Officer Gallagher's head.

FEAST AND ORDINATION.

Yesterday's Services at the M. E. Church South Conference. [ASSOCIATED PRESS NIGHT REPORT.]

OAKLAND, Sept. 26.—The ministers of the Methodist Church, South, who are in conference here, held a love feast this morning at Asbury. Rev. Pendergast led, and the sermon was delivered by Bishop Hargrove. The ser-mon was followed by the ordination of number of elders

a number of elders.

At 3 o'clock in the afternoon, at the same church, the Sunday-school anniversary services were held. Rev. A. P. Few, State president, presided, and there were addresses by Rev. T. T. Ramsey, Rev. H. W. Currin and Rev. J. Esquires.

There was a large meeting of the Epworth League at the same church at 6:30 o'clock, presided over by L. J. Shuman. The regular evening services in the church were led by Rev. W. E. Vaughan.

The Supervisor Muddle.

The Supervisor Muddle.

SAN FRANCISCO, Sept. 26.—Auditor Broderick, City and County Attorney Creswell and Attorneys Baggett and Schell were in consultation today upon the answer to the petition made by Supervisor Morton for a writ of mandate which will be filed tomorrow morning in the Suprem court. When the case is called, Mr. Baggett will move for a dismissal of the writ on the matters presented in the answer, replying mainly on the existence of the new board as a de facto body. If this motion be denied, then all the points involved will be argued and submitted to the court.

Peddler Choken by Highwaymen. Peddler Chokeu by Highwaymen.
OAKLAND, Sept. 26.—At a lonely
spot in Castro Valley, before dawn of
yesterday morning. Sam Davis, an
Oakland peddler, was seized by two
highwaymen and robbed of \$65. The
robbers choked him until he was almost
unconscious, and fled as soon as they
secured his wallet. Davis was tardy
about reporting the robbery, and the
highwaymen had ample time to make
their escape.

Shot in the Shoulder.

A TEN-MAN CONVENTION.

DEBS'S GREAT LABOR CONFERENCE A MAMMOTH FIZZLE.

obody Would Attend Until the Single-Tax Element Struck Chicago. The Federation of Labor Refuses to Countenance the Meeting.

(ASSOCIATED PRESS NIGHT REPORT.)

CHICAGO, Sept. 26 .- Notwithstand ing the announcement by Eugene V. Debs that the convention of labor or ganizations called for this city to-morrow is "off," the Social Democracy eader said tonight that the confer nce would be held, and that he, him-self, would call the gathering to order. The call of the present convention was issued September 3, and signed

T. J. Donnelly, J. R. Sovereign, D. Mahon, James O'Connell and

E. V. Debs.

A meeting of that committee was to have been held in Chicago Saturday, but Debs was the only member present. He accordingly announced that there would be no convention. Since

work. I can be present only a portion of the day, however, as I must leave for an eastern trip in the interest of the Social Democracy.

"I regret exceedingly that the Federation of Labor has not given the conference its countenance, as it would have added greatly to the success of the session. Unfortunately, the idea is prevalent that the object of the conference, as criginally designed, is solely in the interest of the mine-workers. That would have been practically a side issue. There are matters of weightier and far-reaching moment to come before the body. In my opinion, it is as important as was the St. Louis convention."

OFFERS OF SUBMISSION.

TRIBESMEN READY TO TREAT WITH THE BRITISH.

tice of Two Days to Let Them Come in-The Alkihels and Orak

[ASSOCIATED PRESS NIGHT REPORT.] SIMLA, Sept. 26.-[By Indian Ca-ble.] The operations against the Mahmands are proceeding satisfactorily. Gen. Westmacott has completely demolished the headquarters of the Mullah in the village of Jarobi, blowing up all the fortifications.

up all the fortifications.

Gen. Jeffreys reports that he has arranged an armistice of two days to enable the tribesmen to submit, which they appear anxious to do, after the repeated beatings they have received. Spies report that the Afridis and Orakzais of the Tirah country have decided to resist the British advance, and have sent a message to Gholam Hyder Khan, the Ameer's frontier gen-

Hyder Khan, the Ameer's frontier general, asking him to help them.
Advices from the Samana district are favorable. The severe defeats suffered in the attacks upon Forts Gulistan and Lockhardt have disheartened the Alkihels and Orakzais in the Khan-Ki Valley. They have sent a message to the commander at Fort Gulistan offering to make terms of submission and

ing to make terms of submission, and promising to surrender all the booty and the government rifles. It is believed they will surrender on any terms. According to a telegram from Pesha-wur, a small body of Afridis were seen Friday night near the mouth of Khy-ber Pass. Three hussar officers, driv-ing from Peshawur to Jamrud, were fired on by men hiding in the rocks, less than a mile from camp and their cond-pan was killed.

MRS. NOBLIM DIES OF FEVER AT EDWARDS.

Lee Martin, Esther Harris, Eva Harris, Mrs. Ethel Crister, Dr. William Champion, Mrs. S. A. Harris, Mrs. W. H. Harris, Waverly Birdson, Mrs. J. B. Graves, Mrs. Pavenkott, J. W. Berber, little daughter of J. L. Boxtel. Colored—Alf Beard, Willie Brown, Annie Maxie, Rosa Sweeger, Sammie Thomas. Sammle Thomas

New cases today, 23; total to date, 76; deaths for the day, 1; total deaths to date, 7.

A new case developed at Champion Hill, that of Dr. Champion, and the case is a serious one. Another case is reported at Queen's Hill. A few more strides, and the fever will have stricker Mrs. Ethel Crister, the only drug-gist, was taken ill this morning, and

gist, was taken ill this morning, and Dr. Hunter of the State board has been wired for, and a drugglist immune from the disease. Only three or four cases are considered serious, and these are receiving the best of attention from physicians and expert nurses.

Among those taken with the disease today was C. R. Darber, representative of the Associated Press, and one of the wealthiest men in Edwards. Some days ago Mr. Barber advised the Jackson office of the Associated Press that he feared he was taking the disease, but that it was his intention to send the news as long as possible.

Fred Johnson, an immune operator from Tallulah, Ala. has been sent to take the place of Mr. Barber, and he went on duty today. NEW ORLEANS REPORT.

[ASSOCIATED PRESS NIGHT REPORT.] NEW ORLEANS (La.,) Sept. 26.-The Board of Health of the State offi-Board of Health of the State offi-cially announces the status of affairs in New Orleans as regards yellow fever to be as follows: "During the twenty-four hours end-ing Sunday, September 26, at 9 p.m., there were: Cases of yellow fever, 17; deaths, none; total cases to date, 138; total deaths from yellow fever to date, 17.

total deaths from yellow fever to date 17.

"Hereafter it is proposed to announce the number of premises released from quarantine, also the number of patients dscharged.

[Signed] "S. R. OLIPHANT. M.D., "Louisiana State Board of Health."

The Board of Health has received advices of a case of yellow fever at Tallulah, La. The board will hold a meeting tomorrow to consider the questions.

of quarantining Galveston.

have been held in Chicago Saturday, but Debs was the only member present. He accordingly announced that there would be no convention. Since that time the single-tax delegates have come on, and it has been ordered that proceedings go ahead. A committee waited on Debs this evening, and invited him to call the convention to order tomorrow. About ten delegates only have arrived to attend the meeting. Debs accepted, and will deliver the opening address.

It is probable the coal strike and other trades-union matters will be left alone during the convention. The question will be on the best means of securing what Debs denominates "the inalienable rights of every citizen under the Constitution."

Mr. Debs puts it this way tonight: "I am exceedingly pleased at what this Single Tax League has taken the conference in hand to accomplish, and I will do sill I can to aid in the work. I can be present only a portion of the day, however, as I must leave for an eastern trip in the interest of the Week on for duarnatining address. They were all to have shown much improvent the work is probable the contention of the state of the week in New Orleans, and the fever situation, in spile of the appearance of rather a large number of new cases, may be said to have shown much improvent the week of the week and to have shown much improvent the week of the week and to have shown much improvent the week of the week and to have shown much improvent the week of the week and to have shown much improvent the week of the week and to have shown much improvent the week of the week and to have shown much improvent the week of the week and the fever situation, in spile of the appearance of rather a large number of the week and the fever situation, in spile of the appearance of rather a large number of the week and the fever situation, in spile of the appearance of rather a large number of the week and the fever shown much improvent the week. Seed the week of the week on the week shown much limprovent the week of the week shown much limprovent the t

tions were considered to be such as to warrant the fear that the disease would spread.

Unusual precautions, however, were taken and the authorities quarantined the case and improved the sanitary conditions of the neighborhood, so that the fever in that vicinity seems to have been stamped out completely.

At Oakland Park detention camp all the refugees who have been given

the refugees who have been given quarters were declared to be swell, no sickness having yet appeared in the

sickness having yet appeared in the camp.

Today's record contains the following names: E. Toma, G. G. McHardy, A. Goldman, Lou Lawler, Michael Dwyer, James Gray, Percy and Susie Matson, —. Bronson, Andrew and Miss Plzzo and a servant, Arthur Blake, Emma Schlosscher, Mrs. W. H. Williams, The new cases are, as usual, scattered. The most important are Mr. McHardy, a wealthy insurance man, and Mrs. Williams, wife of Gen. W. H. Williams, a well-known newspaper man. There are now four cases in the Williams residence, but they are all reported to be doing well. E. Toma is the brother of the man who died of yellow fever last week, and lives in the

Williams residence, but they are all reported to be doing well. E. Toma is the brother of the man who died of yellow fever last week, and lives in the same premises. A number of children are among the new cases. Prof. Metz has a large number of Formaldehyde generators now at work.

Today he burned in the street the bedclothing and other articles in the house in which the man Serres died on Constance street, the clothing first having been subjected to Formaldehyde disinfection. Some loss is being suffered by the poorer classes whose effects have been burned.

Prof. Metz said tonight that he was hopeful of getting the city to make an appropriation to cover such cases of distress. Prof. Metz has placed generators at the railroad depots and baggage is being promptly and thoroughly disinfected before it is put on trains. The local charity organizations are taking steps to relieve all case of destitution that are presented. The Board of Health supplies medicines, and the charity organizations will try to provide food for the poorer classes.

Mrs. A. McCubbage died this morning in Ocean Springs of yellow fever. She had been sick several days, and her case has already been reported.

There have been no new cases at Ocean Springs. Reports from the detention camp say that about ten refugees from New Orleans have arrived there, and eighteen from Biloxi. There is no sickness in the camp save one case of sciatic rheumatism. The patients in the hospital a mile away from the camp are recovering.

REV. FATHER VAW DEAD.

SURGEON-GENERAL'S ADVICE.
[ASSOCIATED PRESS NIGHT REPORT.]
WASHINGTON (D. C.,) Sept. 26.-

WASHINGTON (D. C.) Sept. 26.—
The Surgeon-General of the Marine
Hospital tonight received the following
advices from the yellow-fever district:
From Atlanta, Ga., Dr. Sawtelle reports there were no yellow fever suspects en the trains or in the city.
Dr. Glennan, at Mobile, reports that
there were five new cases today, but
no deaths.
Surgeon Kalloc at Cairo, Ill. reports
the temperature of all cases on the
government dredge-boat Alpha were
normal this morning. Those cases in
the Marine Hospital will be discharged
tomorrow and that in St. Mary's Hospital has already been discharged.
Dr. Guiteras reports there is no yellow fever at Tallulah and Dehh, La.;
there is a case at California, the wife
of a physician, and the infection is
traced to Edwards, Miss. The settlement is small, and there probably will
be no serious trouble.

BILOXI CONDITIONS.

BILOXI CONDITIONS.
[ASSOCIATED PRESS NIGHT REPORT.] BILOXI (Miss.,) Sept. 26.-The con BILOXI (Miss.,) Sept. 26.—The condition of affairs here today is very little changed from what it has been for the past several days. There are a very few cases reported up to this time, and the sick, with few exceptions, are doing well. Edward Benedict of the Review is reported as being critically ill with the fever.

The Board of Health report: Total cases of yellow fever to date, 97; new cases, 10; now under treatment, 56; total yellow-fever deaths to date. 4.

ONE DEATH AT MOBILE. [ASSOCIATED PRESS NIGHT REPORT.] MOBILE (Ala.,) Sept. 26.—The returns at the Board of Health office today for the twenty-four hours ending at noon showed five new cases and no deaths, with two patients discharged. This leaves twenty-one under treatment.

This leaves twenty-one under treatment.

So favorable a report was not looked for by many, for the weather has turned warm again and the increase in the number of cases the last two days seemed a prelude to a serious turn of the outbreak. There is, however, no actual change for the worse, the case on La Fayette street being but a reappearance of the disease in one of the foci where it seemed to be stamped out. This case is that of Brother Simproinan of the Catholic School and Orphan Asylum. The isolation of the sick man is complete, the seminary being detached from the school proper. The deaths show a ratio of 14 per cent.

LATER:—Another death was reported tonight. Miss Florence Barley, aged 24, residing at Elmira. She was sick a very short time.

MASSING ITS EVIDENCE.

THE LUETGERT PROSECUTION HAS

Testimony in Rebuttal Will Attack the Reputation of the Sausage-man's Servant-girl and Bar-keeper Schooley's Veracity.

(ANNOCIATED PRESS NIGHT REPORT.) CHICAGO, Sept. 26 .- One hundred

CHICAGO, Sept. 26.—One hundred witnesses will be called by the State in the Luetgert case when the prosecution begins its rebuttal. These witnesses, men, women and children, are expected to give testimony contradictory to that presented by the defense—to impeach the evidence, and by a preponderance of numbers to sustain the contentions of the lawyers who are advocating the conviction of Luetgert.

Miss Simmering's reputation will be attacked when the rebuttal witnesses are called. Her appearance on the stand Saturday has given the State the opportunity it wished, and a great mass of testimony is to be offered for the purpose of showing that her relations with Luetgert were more than is ordinarily expected from a domestic. The testimony of Matthew J. Schooley, the barkeeper from Kenosha, is to be refused. It is asserted that the State will be able to show that he was out of the city on the day he swore was the one on which Mrs. Luetgert called at his hotel and asked for lodgings.

MISSED THE MONEY.

COOL, BUT ILL-CALCULATED, HOLD-UP ON THE NORTHERN PACIFIC.

Number of Cars to Catch the Express Safes-Took the Train-

(ASSOCIATED PRESS NIGHT REPORT.) MOORHEAD (Minn..) Sept. 26. The west-bound passener train on the Northern Pacific was held up three miles north of here at an early hour this morning. The express car carried a large sum of money which the rob-bers faßed to secure, owing to a blun-der in cutting off the cars.

der in cutting off the cars.

The robbery was the coolest piece of work imaginable. Engineer Hoover, just after pulling out of Glyndon, noticed a man on the front of the mail car. A few minutes later the robber climbed over the tank, and at the point of a pistol, told the engineer to apply the brakes. The other robbers came forward, bringing the conductor and brakeman. The robber on the tank sat there and ordered the engineer to keep moving. Not until the train reached Moorhead was it known that the engine and mail car had been cut off from the balance of the train.

The other robbers discovered that they had not cut deep enough into the train to secure the express safes, and train to secure the express safes, and they despoiled the crew of their watches and money, and escaped.

REBELS IN CHAINS.

President Zelnya and Troops Returning to Managua in Safety. (ASSOCIATED PRESS NIGHT REPORT.)

MANAGUA (Nicaragua,) Sept. 28.—
(Via Galveston.) President Zelaya and the government troops are returning to Managua, where the latter will be paid off and disbanded. The President's prompt and aggressive efforts have brought the revolution to an unexpected termination. Many captured rebels are arriving in chains and will be imprisoned. Detachments of soldiers remained at the various towns in the districts affected by the revolution to enforce the penalties against the rebels.

Congress will adjourn on the 29th inst and reassemble in January next. MANAGUA (Nicaragua,) Sept. 26.

Fatal Runaway Accident. Fatal Runaway Accident.
HARTFORD (Ct.) Sept. 26.—F. W. Valentine, a well-to-do lawyer of Brooklyn, was instantly killed in a runaway accident in the town of Pomfret this afternoon, Henry L. Burt, a prominent druggist of Putnam, who was with him, was probably fatally hurt, and the wives of both men were severely bruised.

SAN FRANCISCO, Sept. 26.—Matthew Healey of Susanville died here tonight He was over '0 years of age and is not known to have left any relatives except a nephew. He was extensively interested in the cattle business in Susanville and Nevada, and was reputed to the worth \$200,000.

and New Coast Marks by Vaughn

TWO FALLS DURING THE DAY.

GEOGRAPHICAL EXTREMES MEET IN ONE OF THE EVENTS.

National Circuit Race Meets - Firs Game of the California Ball League—Eastern Summaries. Cycling Notes.

[ASSOCIATED PRESS NIGHT REPORT.] SACRAMENTO, Sept. 26.—The Capital City Wheelmen added another plume to the clulb's headgear today The race meet held on the Oak Park track was a splendid success. The at-tendance was not as great as at the last races, owing chiefly to the preval-ence of a brisk breeze, which, it was known, would render record-breaking almost impossible, and people want to see record-riding. As it was, there were upward of a thousand people, and they witnessed some of the best racing

they had ever seen. Despite the strong wind there was some swift riding done, and, above all, there was exciting finishes in nearly every heat. In the one-third of a mile, professional (scratch) race, Vaughn of San Diego made a new Coast record in the first heat, 0:423-5, but this was lowered by Downing of San José in the next heat, who made it in 0:42 flat. In the California Associated Cycling Club's professional handicap race, George Sharick of Tacoma, Wash., one of the scratch men, made it in 2:07 3-5

George Sharick of Tacoma, Wash., one of the scratch men, made it in 2:07 3-5 in the face of a breeze that raised a cloud of dust, which at times almost obscured the riders.

It is worthy of note that in the final heat of the one-third-of-a-mile professional race those qualified to start represented Tacoma. San José, San Francisco and San Diego, showing from what geographical extremes riders had been attracted to the meet.

The pacemaking in the various heats (where pacing was required) was by Mott, Wing, Russ, Sharick, Jones, Elford and Deacon. For this work the pacemakers were allowed to qualify for the finals in various events, regardless of their positions at the finish.

There were but two falls during the afternoon. In the final of the half-mile amateur scratch event Russ and Leitch coilided on the back stretch and the former fell. He received some bruises, and the front wheel of his machine was badly broken. In the final of the two-mile amateur handlcap, Birdsall's handle bars turned within thirty yards of the finish, and he received a hard fall. but was not injured.

Robert M. Welch of San Francisco was referee. The judges were A. P. Swain, Charles Albert Adams and Scott Ennis; the timers, Hadenfeld, Stratton and Christ; starter, Robert C. Lennie; scorers, George H. Lavenson, Otto Salback and H. A. Crocker; clerk, L. S. Upson; assistant, C. D. Shearer; announcer, J. E. Little; umpires, W. A. Hubert. A. D. Patterson, O. Morris and E. A. Canfield. The committee in charge of the affair was composed of M. S. Lavenson, C. E. Wright, L. S. Upson, S. F. Ennis, J. E. Little, J. F. McDonald and J. A. Woodson.

There were a large number of San Francisco wheelmen present, and several rode over from Stockton, returning after the races. Everything passed of without the slightest friction, and except for the two "spills" mentioned

after the races. Everything passed off without the slightest friction, and ex-cept for the two "spills" mentioned, not an unpleasant incident occurred.

without the slightest friction, and except for the two "spills" mentioned, not an unpleasant incident occurred. The audience was composed of some of the best people of the city, a large proportion being ladies. Following is a summary of the various events and the order in which they occurred:

Half a mile, amateur, scratch: First heat won by George P. Fuller, Olympic; Walter Leitch, Capital City, second; time 1:04. Second heat won by H. W. Sculires, Acme; P. H. Rosenhelm, Rellance, second; time 1:05. Third heat won by J. Hirsch, Capital City, C. J. Birsdall, Olympic, second; time 1:06. Third heat won by J. Hirsch, Capital City, C. J. Birsdall, Olympic, second; time 1:08. 3-5. Final won by Wing, Fuller second; time 1:03 4-5.

One-third of a mile, professional: First heat won by Vaughn, San Diego; Whitman, Los Angeles, second; time 0:42. Final heat, won by Downing, San José; Palmer, San Diego, second; time 0:45 3-5.

Two miles, amateur, handicap: First heat, won by Theisen (170 yards;) Wing (scratch,) second; Wyann (50 yards,) third; time 5:25 4-5. Second heat, won by Birdsall (75 yards;) Wallace (150 yards,) second; Hallauer (150 yards,) third; time 4:56 3-5.

One-mile, professional, handicap—Won by Sharick, (scratch,) Jones (scratch,) second; Palmer (100 yards,) third; time 2:07 3-5.

One-mile, championship, amateur and professional: First heat won by Mott, Rosenhelm second; time 2:20. Second heat won by D. E. Whitman, Jones second; time 2:19 4-5. Third heat won by Downing, Wyman second, time 2:21. Final heat won by Sharick, Downing second, Deacon third; time 2:28.

BARE-KNUCKLE FIGHT. A Plumber and Longshoreman Maul

Each Other Fruitlessly.
[ASSOCIATED PRESS NIGHT REPORT.] SAN FRANCISCO, Sept. 26.—About sixty sports went across the line into San Mateo county today and witnessed a brutal bare-knuckle fight between a brutal bare-knuckle fight between Dick Tiernan, a plumber, and Bill Toy, a longshoreman. The fight lasted twenty-three rounds, and was declared a draw by Tom Barry, the referee.

Ex-State Senator W. J. Dunn was the timekeeper. The seconds for Tiernan were Edward McCormick, Joseph Murphy and Jack McAuley. Toy's seconds were Ben Heavey, Charles Flanagan and William Stockwits. Both the principals were badly punished. No arrests were made.

About four weeks ago Tiernan and Toy fought an 18-round draw with four-ounce gloves.

Baltimore Athrill with Anticipation of Today's Sport. BALTIMORE, Sept. 26.—After two days of almost breathless excitement and suspense have been passed safely, the third and most momentous day of the baseball year is awaited by thousands of local "fans," with prayers for favorable weather first, and success for the home team next, in tomorrow" game between Baltimore and Bostomthe final one of the last series between these two leading clubs. As for the weather, every indication points to a realization of their fondest hopes, and it is probable that with good con-

ditions Saturday's large attendance will be equalled, possibly exceeded, by those who will journey to Union Park to witness tomorrow's battle royal.

The unchecked and unquenchable enthusiasm of the 150 Boston "rooters" is making the Butaw House the scene of continuous activity and excitement. They are a confident lot of "rooters," and are already preparing for a great demonstration over their prospective victory.

demonstration over their prospective victory.

The Boston team themselves, if as confident as their supporters, about winning, do not display it so conspicuously. They say they will make the fight of their lives. The team is in fine form. Nichols is sure to pitch for Boston. Whom Manager Hanlon will put in is not quite clear. Corbett is anxious to have another chance to win, but it is not probable that he will pitch. Nops or Hoffer are the probabilities. Manager Selee has practically signed Mills, the new pitcher who is traveling with the team.

EASTERN BASEBALL.

Reds Win Two Games from Browns Indians and Colonels. [ASSOCIATED PRESS NIGHT REPORT.]

ST. LOUIS, Sept. 28.—The Reds won two well-played games from the Browns today. Both games were re-plete with brilliant fielding. Breck-Browns today. Both games were released with brilliant fieldings. Breckley got three home runs in the first game. Beecher, the Brown's new fielder, made a good impression. The attendance was 5000. Score:

First game: Cincinnatt, 10; base hits, 14; errors, 4.

St. Louis, 4; base hits, 8; errors, 3.

Batteries—Dwyer and Schriever; Sudnoff and Douglass.

Umpire—Pears.

Second game: Cincinnati 8; base hits, 13; errors, 1.

St. Louis, 6; base hits, 14; errors, 2.

Batteries—Rhines and Peitz; Coleman and Douglass.

Umpire—Pears.

CLEVELAND-LOUISVILLE.

CLEVELAND-LOUISVILLE. CLEVELAND-LOUISVILLE.
[ASSOCIATED PRESS NIGHT REFORT.]
CLEVELAND, Sept. 26.—The Indians
won the last game of the season from
the Colonels by fine fielding, and McAllister's good work in the box. Wallace and Childs did good work, and
McKean's stick work was excellent.
The attendance was 2000. Score:
Clevelend, 3; base hits 12; errors, 0.
Louisville, 4; base hits, 8; errors, 4.
Batteries—McAllister and Zimmer;
Magee and Wilson.
Umpire—O'Day.

CALIFORNIA BASEBALL.

The First Game of the Recently

organised League.
[ASSOCIATED PRESS NIGHT REPORT.] [ASSUCIATED PRESS NIGHT REPORT.]
STOCKTON, Sept. 26.—The first game of the recently-organized Callfornia Baseball League was played here today between the Reliance Club of Oakland and the Stockton team, resulting in a sweeping victory for the home players. Drews, the Reliance catcher, had his hand broken in the first inning, necessitating a change of field positions.

Dean came in from left to third, while Lange played out the game behind the bat, leaving the outfield weak. Perrine pitched for the Reliance, sending seven to first on balls. Decosta, the Stockton pitcher, on the contrary, struck out thirteen of the Reliance men, allowing only four hits, one being a scratch.

MONARCHS ON TOP.

MONARCHS ON TOP. [ASSOCIATED PRESS NIGHT REPORT.]
GRASS VALLEY, Sept. 26.—
Monarchs defeated the Intrepids
Marysville today, score 18 to 2. HOME TEAM WON.
[ASSOCIATED PRESS NIGHT RE-

SANTA ROSA, Sept. 26.— here was a large attendance of significant tors at the baseball game in Cycling Park this afternoon between the San Rafael team and the Keegan Bros.' team of this city. An exciting game ended in a victory for Santa Rosa. Score: Keegan Bros., 9; San Rafael, 6. SANTA CRUZ DEFEATED.

SAN FRANCISCO, Sept. 26.—The Santa Cruz baseball team was defeated again today by the Will & Fincks of this city. Sharp fielding on both sides kept the score down. Score: Will & Finks, 2; Santa Cruz, 1. Will & Finks, 2; Sante Cruz, 1.

GILT EDGE BALL.

[ASSOCIATED PRESS NIGHT REPORT.]

SACRAMENTO, Sept. 26.—The Glit

Edges defeated the Olympics of San

Francisco here today, by a score of

11 to 3. The game was at times ex
citing, but the home players were in

better form than their opponents.

Goslinsky and Russell did the ball-tose

ing for the visitors, and Harvey

twirled for the home club.

SANTA CLARA'S ADVANTAGE.

SANTA CLARA'S ADVANTAGE.
[ASSOCIATED PRESS NIGHT REPORT.] SAN JOSE, Sept. 26.—Santa Clara defeated the Chessmans of Oakland at Cyclers' Park this afternoon by a score of 13 to 7. The Chessmans outbatted their opponents, Borland making a home run, Waltrous two triples and Shea one, but the wildness of Pitcher Shea and several costly errors by the visiting infielders gave the Santa Claras an advantage that good stick-

Race Meets. TASSOCIATED PRESS NIGHT REPORT.1 BALTIMORE, Sept. 26.-Albert Mott, chairman of the racing board of the LAW, announces the national circuit race meets sanctioned today to be as follows: Trenton, N. J. Sept. 27; Buffoliows: Trenton, N. J., Sept. 27; Buffalo, Sept. 28; Detroit, Oct. 1 and 2; Peoria, Ill., Oct. 6 and 7; Racine, Wis., Oct. 8 and 9; Louisville, Oct. 12 and 13; Paducah, Ky., Oct. 15; St. Louis, Oct. 16; Memphis, Oct. 26; Atlanta, Oct. 29 and 30; Jacksonville, Nov. 10; Bellaire, (Tampa) Fla., Nov. 12 and 13.

Coast Steamship Record.

SAN FRANCISCO. Sept. 26.—The record for fast return passages between this port and Tacoma was to-day broken by the steamer Washtenaw, Capt. Groscup. She came down the coast in 76 hours, making the round trip in 7 days, 4½ hours, including the time consumed in loading and unloading. The best previous record, 7 days 8 hours, was held by the steamship Mackinaw, a sister vessel.

An Artist's Perilius Swim.

SAN FRANCISCO, Sept. 28.—E. S. Glover, an artist, swam from the beach south of the Cliff. House to Baker's Beach this morning. He passed near the Seal Rocks and followed a course over five miles in length. Glover is 52 years old. He remained in the water for three hours without sustaining any apparent injury. He was unaccompanied by a boat.

Fastest Transatlantic Voyage

NEW YORK, Sept. 26.—The steamer Kaiser Wilhelm der Grosse, the latest acquisition to the large fleet of the North German Lloyd Steamship Company, arrived tonight at quarantine on her maiden voyage, miking the passage from Southampton to New York in 5 days, 22 hrs. 45 min., the fastest voyage on record. Sloan Going Abroad.

NEW YORK, Sept. 26.—Tod Sloan, the cleverest lightweight jockey in the country, will ride his last race in America at the Gravesend track tomorrow. He will be a passenger on the steamer Paris, which will sail from New York for Southampton on Wednesday. He goes to England to

ride James R. Keene's colt Voter in the Cambridgeshire, and will probably have several other mounts before re-turning home.

Juvenile Purps at Ingleside SAN FRANCISCO, Sept. 26.—A puppy stake made things lively at the Ingleside Coursing Park today. Nineteen dogs were entered, and they gave the talent all kinds of an exciting run for their money. Maud S. won. May Mc-Kinley took the Sapling stakes, in which there were fourteen entries.

Kaiser Wilhelm's Record. NEW YORK. Sept. 28.—The steamer Kaiser Wilhelm der Grosse, from Bre-men and Southampton, passed in Sandy Hook at 9:06 p.m. She has broken the westward record from Southampton, made by the St. Paul, by 24 min.

Chase Beat Bonjurs. PARIS, Sept. 26.—In the 80 kilometres cycling race today, Chase, the Englishman, beat Bonjurs, the Frenchman. Chase broke the record for 50 kilometers, covering the distance in 73 min. 2 sec.

TROOPS TO GO HOME.

FOURTH REGIMENT TO BETIRE FROM DRIFTON, PA.

Conference Will Be Had Today on the Matter of Withdrawing Other Forces-Coroner's Jury to Meet-Gang of Roughs.

[ASSOCIATED PRESS NIGHT REPORT.] HAZLETON (Pa.,) Sept. 26.-Nothing new developed today in the strike region, and the day passed quietly. All the collieries will resume tomorrow, some for the full week, others for part

of the week.

Gen. Gobin and his staff rode to Audenreid this afternoon, and this evening the Ninth Regiment gave a dress parade. It is announced at head-quarters that the Fourth Regiment, stationed at Drifton, is to be with head the stationed at Drifton, is to be with head the stationed at Drifton, is to be with head the stationed at Drifton, is to be with head the stationed at Drifton and the stationed at Drifton and the stationed at Drifton is to be with head the stationed at Drifton and the stationed at Drifton and the stationed at Drifton is to be with head the stationed at Drifton is to be with head the stationed at Drifton is to be with head the stationed at Drifton is to be with the stationed at Drifton

drawn Tuesday. A conference will be held tomorrow to decide on the with-drawal of other troops. The failure of the Coroner's jury to arrive at a verdict is variously com-mented upon. Another meeting of the jury is to be held tomorrow evening. when it is expected that a verdict will

Freeland today, at which several prom-inent labor leaders were present. The meeting was held behind closed doors. It is known, however, that the miners are being more thoroughly organized, so that in case of another strike they will have a leader and organization. A gang of roughs broke into Squire

Robinson's office at Audenreid and de-molished considerable furniture. Later the residence of Mine Superintendent Jones was stoned. Robinson refused to issue a warrant for Foreman Jones's arrest several weeks ago, and this is supposed to be the cause of the raid made on his office.

PEARY'S EXPEDITION.

THE LIEUTENANT CONSIDERS IT

esides the Meteorite, He Brings Back Six Esquimaux-Has Made Arrangements for Pushing On-ward to the Pole-Greely Relies

[ABSOCIATED PRESS NIGHT REPORT.] BOSTON, Sept. 26.—The steam whaling bark Hope, Capt. John Bartlett, which has just returned from the Arcetic, arrived here this morning from Sydney, C. B. In conversation with a representative of the Associated Press today, Lieut. Peary said:

"The Hope left Sydney at 11 o'clock Wednesday morning, and fortunately

Wednesday morning, and fortunately missed the hurricane which has been raging the past week. The 100-ton meteorite in the hold of the Hope fell from the skies hundreds of years ago, and has been the source of iron supply for the Esquimaux. I cascovered it in May, 1894, and since that time have been trying to secure it to bring to America. We have on board six Es-

America. We have on board six Esquimaux—three men, one woman, a boy and a girl. They will remain with me here this winter to arrange the ethnological specimens, and will go to the north next summer with me. These people belong to the tribe from which I shall select my colony next year." In speaking of the last expedition, Lieut. Peary said:

"I consider several things accomplished, the arrangements with the Esquimaux for my next year's voyage being the most important. From now on they will be collecting furs for ciothing and getting everything in readiness, so that within twenty-four hours after my arrival I shall be ready to embrace the first opportunity to push on toward the point I wish to reach.

"Then the second event is the bring-

to embrace the first opportunity to push on toward the point I wish to reach.

"Then the second event is the bringing of meteorite to this country. The statements appearing in the papers that we had discovered some grewsome things about the hut of the Greely expedition is all nonsense. We found no 'graveyard' belongings. We found conditions such that we could reach the place where the Greely expedition made their camp, and although it was August 23, we found things inside the hut several feet deep with snow. Our party began to dig around and picked up several buttons and a piece of wood marked 'Norman,' the name of one of the Greely party, and several other things. Those are all the grewsome finds we made.

"The Hope will remain in Boston until Tuesday, when we will make for the Brooklyn navy yard, where I have permission from the authorities to use the 100-ton crane to holst the meteorite from the hold of the Hope."

WORKING ON BISMARCK.

WORKING ON BISMARCK.

High Germans Trying to Interest
Him in the Navy.

[ASSOCIATED PRESS NIGHT REPORT.]
LONDON, Sept. 26.—[By Atlantic
Cable.] The Berlin correspondent of
the Times says:

"Prince Henry of Prussia, Dr. Miquel,
vice-president of the Council of Ministers; Baron von Thielmann, secretary
of the Imperial Treasury, and Baron
von Koeller, Governor of SchleswigHolstein, were present at the launching of the new cruiser Fuers: Bismarck
at Kiel Saturday, and in the evening
Admiral von Tirpitz accompanied the
Bismarckians to Friedricharhue, where
they were the guests of Prince Bismarck at dinner. The Prince was in
excellent health and spirits, and conversed with great animation with Adital von Tirpitz, who sat convenie

ORPHEUM-Vaudeville. BURBANK-"Young Mrs. Winthrop.

THE LAW'S DELAYS. The delays of the law have been the subject of comment, criticism and satire for many hundreds of years. but in all that period the mills of the legal gods never ground so slowly as they do today, in this enlightened and progressive country. Nor is this habit of prograstination by any means

confined to the trial of criminals, concerning which we have heard so much during the past few years. There is another phase of this subject, to which a correspondent of THE TIMES calls attention, in a pertinent and logical letter, which is published in another column. This feature, to which the correspondent justly takes exception, is the unreasonable slowness with which the Supreme Court of the State renders decisions in cases that have been submitted to it. Important questions, after having been exhaustively argued, are some times left for years undecided, so that when a decision is finally arrived at the parties interested are sometimes dead, or departed. As our correspondent says: "Judgment is the one thing needful for which courts exist, and time is of the essence of its value." Meantime. the judges go on hearing new suits, which in turn will have to wait a long

Our correspondent quotes a section of the Constitution of California which provides that no judge shall draw a salary until he certifies that no case in his court remains undecided for the period of ninety days. If this section has not been amended, it should be enforced, and, if it has been amended, some other similar law should be enacted to replace it. If the judges are disinclined to devote the necessary time required to handle the cases which come before them, they should make room for others who are willing to do this, and if it is impossible for them to keep up with the business before them, after devoting business due diligence, then it is high time for the State to provide for more judges.

time for decision.

"The Associated Charities is entirely dependent upon private contributions for funds to carry on its work. Will you not personally assist to the best of your ability? Kindly reply by means of the attached card, stating the amount which you will give and whether you prefer to remit by check or to have our representative call upon you for the purpose of collection. The minimum annual membership fee is \$1." In any case, reform in this direction is urgently needed.

DUST.

"Dust thou art, and unto dust thou shalt return." This quotation from the burial service has few terrors for the average Californian, who, during a large portion of the year, when- to a degree. As is well known, there ever he strays away from the asphalt pavements, lives, moves, breathes and whom a proffer of employment means has his being in an atmosphere of nothing, because they are unable to dust, that is often sufficiently thick work, and if every able-bodied man or to cut with a knife, Should a new woman in Los Angeles were employed coat-of-arms be adopted by California, at good wages, there would still be left we would suggest, as a suitable em- a class of the poor crying out for suc blem, a duster flamboyant, surmounted cor. It is these that the Associated darky rampant wielding a Charities must aid, and it is in the whisk-broom volant. MINING NUMBER

"Fair and Impartial." [Perris New Era:] The Los Angeles Times issued a splendid Mining Num-ber last week. Every mining district in this State has received a fair and im-partial write-up. The number is highly llustrated and shows various modes

of mining and working ore.

Well Hlustrated and Interesting. [Fresno Expositor:] The Los Angeles Times has issued a splendid Mining Number, devoted to the mines and ore of Southern California especially, but giving considerable space to other parts of California and adjacent territory. It is well illustrated, and is interesting from title page to the end. All the ads were from mining men.

SAVED A WOMAN.

W. R. Worth Puts a Bullet Into A tion is issuing a card to the public, in C. Hopkins at Bertig, Ark.
[ASSOCIATED PRESS NIGHT REPORT.]

PARAGOULD (Ark.,) Sept. 26 .- A PARAGOULD (Ark.,) Sept. 28.—At Bertig, a station nine miles east of this place, W. R. North shot and instantly killed A. C. Hopkins, a prominent citizen of that place at 3 o'clock this afternoon.

Hopkins and his wife recently separated. Hopkins returned this afternoon and assaulted his wife with a knife. Worth interfered to save the recomment. woman's life, and, drawing a pistol, shot Hopkins as he was about to plunge the knife into his wife's body. Worth surrendered, and is in jail at

Sugar as a Muscle Regenerator. The German War Office has been making investigations into the ques tion whether the consumption of small quantities of sugar render the tired muscles capable of renewed exertion. On sugar estates, when the crop is in full swing, and both laborers and animals live largely on sugar in some form, the horses and cattle, which eat the "chopped tops" of the cane smeared with molasses, are round fat, and the skin of the colored estate hands is sleek and shining. One of the most distinct sensations experienced by Alpine tourists while on difficult olimbing excursions, is a strong desire for the consumption of sweets and sweetened foods, and many who never touch such things at home devour large quantities of them on such expeditions. It has also been noticed how eagerly the guides appropriate any sugar that may be left over. In the German experiments, on one day a sweet liquid was administered containing thirty ion whether the consumption of smal was administered containing thirty grammes of sugar; on the next day a similar liquid containing a sufficient amount of saccharin to render it in-distinguishable from the other as reamount of saccharin to render it indistinguishable from the other as regarded taste. After a very large
amount of muscular work had been
performed, it was found that better results could be obtained on the days
when the sugar was given than on the
days when saccharine was given. The
blood had become very poor in sugar
in consequence of the severe muscular
effort, and the administration of a
comparatively small quantity of sugar
had a markedly invigorating effect. A
well-known engineer, whose duties
often lead him into districts where the
food supply is uncertain, never travels
without one or two small packages of
chocolate tablets in his grip. He says
that the combination of the sugar and
the fatty matter they contain afford a
sustenance most grateful to a starving
stomach, and many a night when supplies had not materialized, he would
have gone to bed hungry if it had not
been for his little chocolate magazine.

Utilizing Railway Vibrations.

Utilising Railway Vibrations.

A unique utilization of railway-car vibrations is reported from a packinghouse center in Kansas. The roadbed of the local trolley line is not of the best, and it occurred to a milkman who had been pretty well banged about by the lively oscillation of the car on which he was riding, that there was enough power going to waste to work a set of capacious churns. He tried the experiment, and found it worked to a charm. Now, the owners of cows in the vicinity of the packing-houses in the city set their churns on the front end of a car. One round trip is almost more than enough to do the work, and the motorman takes buttermilk in payment for the mechanical agitation imparted to the cream. This is probably the first time that the motions of railway cars have been turned to any useful purpose. Their ill-effects are well known to physicians. A serious case of paralysis of the lower limbs was recently developed in a brakeman, as the result of the constant jolting, and the incessant swaying and jarring motion of the cars on which his duties lay. He had to go to a hospital, where he remained for some months. Finally his physician resorted to electricity in sundry forms, from a battery, an induction coil, and an electrostatic machine. The electrical massage toned up the limbs, and proved an actual specific for the allment produced by the mechanical vibrations on the train, and the man has gone back to work. Utilizing Railway Vibrations.

A Paris cablegram says the Journal des Debats contains an article from the pen of M. Pierre Paul Leroy-Beaulieu, protesting arainst the proposal of the free coinage of silver in the French mints, which, he de-clares, would compromise the commerce,

At the Churches Yesterday.

Little Foxes.

R EV. EDWARD F. GOFF preached at the First Congregational Church last evening on the following text: "Take us the foxes, the little foxes that "Take us the foxes, the little loxes that spoil the vines, for our vines have tender grapes." Song of Solomon, ii-15. He said: "The lesson taught is to be on our guard against little evils—things that appear to be so insignificant as to be harmless, but left alone cause disastrous results." In the course of the sermon he gave utterance to the following sentiments:

ance to the following sentiments:
"I am amazed when I read of respectable men failing to return and riding a second time upon a railroad ticket; trying to outwit a conductor, and steal a ride upon a street car or train, and afterward boasting of their meanness; keeping the dime or the dollar in excess of change, and their meanness; keeping the dime or the dollar in excess of change, and leaving the unfortunate clerk to make it up. These are illustrations of the little foxes that spoil the vines and undermine the character. They are the A. B. C's in the school where men are trained to become accomplished sooundrels. From these things men go on to plan how legally to evade the payment of just debts, and then to contract debts they never intend to pay, and, when hard times come, grocer, butcher, merchant are crushed because they have no way of obtaining from the men they trusted their legitimate dues. We learned when children the little poem beginning, 'It is a sin to steal a pin, much more to steal a greater thing.' It is often as great a sin, and sometimes a good deal meaner, to steal the pin than a greater thing. Sin, and virtue also, is to be judged not so much by the act as by the principle involved. The tax that the Engilsh ship-owner, Hampden refused to pay was only 29 shillings, but there was a great principle at stake, and for it the patriot brayed the wrath of the tyrant. The tax levied on tea was but a trifle, yet our fathers felt it was the first strand in the rope that would strangle their liberties, and they flung the tea into Boston Harbor. So it is with evil; men become committed to it by silken threads that are so delicate as to be scarcely perceptible, but multiplied form cords that enslave the mightlest. Said the noble Lawrence to a young collegian, 'Take this for your motto at the commencement of your journey, that the difference of going just right or a little wrong will be the difference of finding yourself in good character or in a miserable bog or slough at the end of it."

"If a man leaves the highway of right and trespasses on forbidden ground, when he is tried will it make any difference whether he was caught a yard or a rod from the fence? A lie is the same whether it is about a horse or a house; it is the same sin to cheat for a dime as for a diamond; to sell your vote for a mite as for a million. eaving the unfortunate clerk to make

your vote for a mite as for a million. The guilt is in the principle, not in the price.

"Not only do little sins lead a man to the brink of the precipice and push him over, they injure society as well. A little rust on the tiniest wheel of the watch, the bending of a cog, will affect not that wheel alone, but the whole movement, and will spoil the watch as a time-keeper. So these little sins lower the moral tone of the whole community and work disaster. In these days when railroad and other stocks are watered, when bank funds are misappropriated and trusted men default; when ships are wrecked and trusted men default; when ships are wrecked and trusted men default; when the toller sees himself defrauded of the legitimate rewards of his industry, and the consumer is not benefited; when great corporations cruelly and criminally crush their competitors; when gigantic gambling is called legitimate trade; when ships are wrecked and lives are taken for the insurance; when men ride in carriages and steal from the government, who in some pentitentiary ought to be wearing the stripes and tolling for the government, it is time for us to tone up about the little sins. They are like the water oosing through the dykes of Holland, innocent enough in appearance, but perilous to a whole country. If private integrity ceases, then public credit ends, then national dishonor and disaster will result. Rome was overthrown by the luxury and vice of her citizens before the Goths and Vandals trampled her in the dust. On the other hand, private virtue means upright and patriotic legislators, sound currency, just laws, public credit and an era of national righetounsess, prosperity and universal respect.

Spiritual Resuscitation.

A. C. SMITHER preached R to a large congregation yesterday mornig at the First Congregational Church upon "The Resurrection of Lazarus as an Illustration of Spiriof Lazarus as an Illustration of Spiritual Resuscitation." This event, said the speaker, serves as a beautiful illustration of the means and methods by which the race is brought into spiritual life and activity. Like Lazarus the race is asleep under the intoxicating hand of sin. Untouched by the Divine Christ its noblest faculties are dormant and all unconsolous of spiritual duty or environment it slumbers dormant and all unconscious of spiritual duty or environment it slumbers on. Jesus came to Lazarus' tomb to call him back from the mystic portals of death, into the highway of life and activity. So to a slumbering world, all unconscious of the demands of God upon it, the Christ comes to give its spirit resuscitation, and as the south winds breathe upon the ice-fettered earth and bring it back to activity to breathe of his spirit upon man and bring him to life. What wonderful finess had the Master for so noble a work. He was human in His sufferings and sympathies, and entered into all the sorrows of this sinful world. He was divine in His nature and capable of routing the forces of sin and death. Into the soul of the spiritual sleeper the Divine Christ introduced spiritual life and energies. But calls upon His attendants, upon Christians to aid in the work of freeing them from the grave clothes of error and sin. This work of loosing men from this bondage and alding them to this freedom is the work to which the Son of God calls His followers. Here are the young all bound up with the grave clothes of ignorance. There are here the weak, the erring, who have some of the divine life pulsing within them, but they are all fettered and hindered by the grave clothes of error and weakness, from which they have never been freed fully. Also have those whose homes are the abodes of affliction and suffering. To such the Savior sends His followers with the balm of Gilead, with the voice of comfort, and would lead them above the clouds of sorrow into the sunlight of joy and gladness. tual duty or environment it slum on. Jesus came to Lazarus' tom

A Theological Retrospect

REV. A. A. RICE, pastor of the Universalist Church, spoke on "John Murray; a Theological Retrospect." He said in part: Theological progress consists in cleaving to the truth which our intelligence winnows from error. Rev. John Murray, whose work was done in America over one hundred years ago, is the world's unfrom error. Rev. John Murray, whose work was done in America over one hundred years ago, is the world's unsual creditor, because he passed from the errors of his time to the more perfect religious ideas of today. Born into Calvinism, that coldly intellectual and ever unpractical theological system, which, while it makes man the sole ob-

ject of action, denies him the privilege of an actor in life's great drama and holds to view a defeated God. he passed at one stride to the conception of a victorious Father and a redeemed humanity. The Calvinistic theology originated in the idea of the absolute independence of God and the dependence of God and the dependence of man. God, who for some insignificant reason was divided into Father, Son and Holy Ghost, wholly for His own good pleasure (?) elected or predestined men who were fallen through "Original sin" to "Total depravity," some to eternal life and some to everiasting damnation. This great, unaccountable, unmoral and heartless end was brought about by the introduction of a "Vicarious atonement" executed by one part of the godhead. That this scheme is one of the most inhuman the world has ever konwn is shown by its effect on the originator, John Calvin, who hunted down with bloodhound perseverence an opponent in religious controversy whom he could silence in no other way, one Servetus, and caused him to be bound at the stake.

Into this condition of theology John Murray was born, and while it may be said that in some measure he held all the doctrines of his birth, yet he arose in the sublimity of his manhood and shook himself free from the shackles that bound the world in his day. He believed that something besides God's mere good pleasure was the motive that brought man into existence. Though failen into sin and depraved in more or less degree, all men are God's children. The atonement is for all and all are elected to eternal life. It is creditable that in Christ's perfection he saw something bordering on an equality with God.

In the minds of men Murray redeemed God's character and emancipated man from an unwarranted, unreasonable and undeserved end.

Farewell Service.

AT THE Central Presbyterian the morning hour was devoted to Sunday-school rally exercises. In the evening nine brother ministers joined with Dr. Fowler in an interestthe evening nine brother ministers joined with Dr. Fowler in an interesting farewell service. The venerable Rev. Dr. Marks preached a short gospel sermon and paid a warm tribute to the character and labors of Dr. Fowler. Many testimonials of the dootor's idelity, energy and ability were added by the other ministers, who also expressed the highest respect and appreciation for the helpful presence of Mrs. Fowler. Dr. Fowler has identified himself with all lines of Presbyterian effort in Southern California, both in church work and in the Occidental College, and while his friends regret to lose his helpful presence, they wish im Godgsped and success in his new and promising field in Clinton, Iowa.

Theosophy and Christianity.

A T Blavatsky Hall last evening Dr. G. F. Mohn lectured on Theosophy and Christianity. He said in part: At the time of the beginning of the Christian religion nations were decay-Christian religion nations were decaying and spirituality was being lost sight of. At that time Alexandria was the seat of learning. All systems of philosophy and the mysteries were fused together; for truth in its purity must, and did, harmonize in all climes and ages. But, owing to the confusion in the world existing at the time of Christ, the mysteries were withdrawn from general view. only a few teachers remaining with their disciples, all pledged to secreey. The disciples of Ammonius, Saccus, Origin, Plotinus and Longinus have all left voluminous records of the Philalethian system—a religion of pure brotherhood, which was divided into exoteric and esoteric teachings.

The wisdom religion was ever one.

divided into exoteric and esoteric teachings.

The wisdom religion was ever one, and the methods of giving it out were ever the same, and being the highest form of possible human knowledge, it was always carefully guarded and preserved from the profane. It preceded by long ages the Alexandrian Theosophists of the third century, and has reached the modern Theosophist through the masters of wisdom, and, as in early centuries, is being once again given out, exoterically and esoterically. But, unlike its earlier experience, it has not come to be engulfed in bigotry and superstition, for the mental and spiritual condition of man is ready to receive the truth stripped of priest-made creeds and subterfuges, and will bear fruit throughout the coming ages.

Pulpit Editorials.

vered by Dr. Frank Crane, preceding usual Sunday morning sermon at Trin-Church, Chicago, Sunday, Septem-26.]

THE SESAMOID BONE. In the celebrated case of Adolph Luetgert, accused of murdering his of the body, the sesamoid bone, which it was claimed had not been destroyed by the corroding fluid, and which was made use of as an important link in the chain of circumstantial proof. As every other sort of man has made his point in this strange case, the lawyers, doctors, experts and newspaper men, perhaps the preacher may be pardoned for doing a little sermonizing thereon; and to me the most significant thing of it all is the great part played by this little bone, and its vivid illustration of the vast importance of small

Is there anything really insignificant? Is there anything really insignificant? We are told that the omission of a hyphen in the recent tariff bill would have meant the loss of a million dollars to the revenues of the United States, had not the expert readers discovered the error in time. There was a clause putting on the free list "fruit plants, tropical and semi-tropical, etc." where the lack of a hyphen between fruit and plants would have admitted all fruit instead of fruit-plants free, whereas all fruits are dutiable.

whereas all fruits are dutiable.

The surprising and tremendous effects of some trifling thing, as indicated above, throws a peculiar light upon the statement of scripture that "all things work together for good to them that love God." The point is that the universe is an exceedingly complex machine, so constructed by its Maker that the man who obeys Him shall be helped and the man who disobeys shall be crushed. There are some very clever persons, but none is clever enough to know all the consequences of his actions. He can no more tell the results than he can probe the mystery and constitution of the stars. Only one can know what the effects will be, and that one is God. Whether an act will produce good or evil eventually the wisest man cannot tell. But while this is true, while the most far-seeing policy is still blind, yet the Maker of this universal frame has so designed it that after all the veriest fool can tell whether his deed will help or hinder his fellows. For even a fool knows enough to do right, and having done right, he may know, if he will, that the Omnipotent Himself proposes to be responsible for the results. Even

It is said that if you gave Cuvier a bone he could tell you just what the animal must have been from which it was taken. By the various bumps and grooves he could discover how the muscles must have been attached and what kind of muscles they were; by its shape and sise he could accurately determine the other facts in regard to its original possesor. In other words, every part of the beast's body had a relation to that bone; even its hair and eyes must have had their bearings upon it, and even also, the environment of the creature, the grain or fruit or prey it fed upon, the climate in which it lived, the streams it waded and from whose waters it drank, and so on. So that, if Cuvier had been but wise enough (and doubtless, by this time, having pursued his studies for some sixty-five years in heavenly schools, he is now wise enough,) he could not only reconstruct the animal itself, but the whole planet as well, which it inhabited, and the universe wherein that planet swings.

universe wherein that planet swings.

Thus it is that every particle of matter has cords of relation running from it to every other particle of matter. Take a grain of sand from the beach. That little speck is tied to the sun and to the most distant stars by the strings called gravitation; it exercises an influence, small it may be, yet thinkable, upon the atmosphere, hence upon the health of plants and beasts and men; it bears a part in staying the proud waves of the ocean; it reaches infinite fingers on and up through the material to the spiritual world, and has its touch upon the throne of God. Therefore if Deity did not take care of that little sand particle He could not take care of the universal frame.

It is amazing to me how any one can doubt a special providence. There can be no general providence. There can be no general providence that is not made up of particular providences any more than there could be dollars not composed of cents. The creation of the universe is preceded by the creation of its atoms, and the care of the stars is simply the sum of especial cares for the molecules of substance that compose them, and the control of the destiny of nations is but the direction of the career of each individual human integer. Our disposition to doubt a special providence arises from mere confusion of thought, because our minds are so small, and not at all from the nature of the case nor from any force of reasoning. The term "general providence" is a generalization, and generalizing is simply lumping facts into a class because we become bewildered in trying to keep track of them separately; but God certainly has no such mental inability. He does not need to resort to sums and totals; it is not necessary for Him to be merely a general superintendent because He would be lost in details.

In this idea of universal interdepen-

cable.] The feature of the stock markets is the break in Americans, and this has been ascribed to the Cuban dish has been ascribed to the

This, then, is the sesamoid gospel; that the rebel against the Eternal knows he has defied One whose detectives are microbes, whose hounds are the winds, whose phonograph is every door and wall, whose sentinels are the very blades of grass; and that he who has loved and trusted the Eternal the base of riend in One who per-

NEW YORK LEADERS. Favorable to a Union With

Citizens' Union.
[ASSOCIATED PRESS NIGHT REPORT.] NEW YORK, Sept. 26 .- A conferen of the Republican leaders of Greater New York was held today. The conference discussed the arrangements of details for Tuesday's convention and the availability of candidates for Comp-troller and president of the council. No action of a decisive character was

taken.

A talk with several of the conferees gave the impression that Gen. Tracy's name will not be presented to the convention on Tuesday. In fact, if the very earnest declarations of some well-known and inspired statesmen are worth anything at all, the chances of a compromise with the Clitizens' Union on lines not yet clearly outlined are very good indeed.

The other candidates spoken of are Ashbell P. Fits, to be renominated for Comptroller; R. Ross Appleton of Brooklyn, president of the Council, and probably Thomas L. Hamilton for Sheriff.

STATEMENT FROM LOW.
[ASSOCIATED PRESS NIGHT REPORT.] [ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Segt. 26.—The Brooklyn Eagle today publishes the statement that there was positive authority for saying that Seth Low had declined terms by which he would withdraw in favor of a Republican nominee for Mayor. Tonight Mr. Low, in answer to a direct question, wrote this reply: "The statement in the Eagle was made without authority from me, and represents me in an attitude I have never taken. The reporter unwittingly attributed to me what he could as well have attributed to himself."

The article did not attribute any statement to Mr. Low. It said, however, that Chairman Reynolds of the Citizens' Union had verified the report, and that such terms had been made. He could not be seen tonight.

SPARKS FROM THE WIRES

St. Paul. Milwaukee, Madison, Wis.; Jackson, Mich.; Columbus, O., and St. Joseph, Mo.

A Cleveland O., dispatch says that from talks with iron-ore dealers, it is learned that the movement of iron from the upper lakes this year will beat all records. It is now estimated that at least 13,000,000 tons will be marketed this season, and next spring is likely to find all the docks clear. That would be unprecedented. Last year the stocks in the spring amounted to 3,000,000 tons, with 55 per cent, of the allotment of the ore association now already sold and prices show a buoyancy under the heavy sales. It is believed the ore pool which existed prior to last spring will be reorganized next spring.

BRITISH MARKETS.

Brenk in Americans-Restrictions in

Bank Loans.
[ASSOCIATED PRESS NIGHT REPORT.]

LONDON, Sept. 26.—[By Atlantic Cable.] The feature of the stock markets is the break in Americans, and this has been ascribed to the Cuban difficulty and yellow fever, but the fact that all Americans are alike affected dispressions that theory. The break

[ASSOCIATED PRESS NIGHT REPORT.] MANCHESTER (Eng..) Sept. 26. A rather mixed, but apparently fall business was done last week in expor-of yarns to India, Japan and the Le of yarns to India, Japan and the Levant. Most of the yarn spinners will be engaged to the end of the year. The home demand, however, is small and from hand to mouth. Prices are unchanged, or are 11-16 lower. The cloth market is still loudly complaining, but here also there is considerable Indian business, with large offers at prices not acceptable.

The home trade is slack, though some of the South American markets are rather better than they were a week ago. As yet there is no certainty as to the threatened strike. The best opinion seems to think it improbable, owing to the large divergence of interests. Probably a break in cotton would prove more useful to the trade than a strike or a lockout.

GREEKS DEMAND WAR.

They are Opposed to the Peace Treaty's Terms. (ASSOCIATED PRESS NIGHT REPORT.)

ATHENS, Sept. 26 .- [By Atlantic Cable.] A large meeting was held this afternoon in Concord Square, where a resolution was adopted calling upon King George and the Cabinet to renew the war with Turkey rather than accept the terms of peace of-fered by the peace conference. Most of the addresses were bellicose, one speaker making a violent attack upon the King and Crown Prince Constantine. The police endeavored to arrest him, but he escaped with the assistance of the crowd.

The most influential section of the press continues peaceful in tone.

Secretary Gage's Movements DENVER (Colo.,) Sept. 26.—Secratary of the Treasury Lyman J. Gage left tonight for Chicago. Secretary Gaga, with Mrs. Gage, has been spending the past week or ten days in Bounder, Colo., where Secretary Gage has been examining the mining prophas been examining the mining prophase operated by his brother-in-law, Col. Wesley Atward. While Secretary Gage refused to express himself upon his visit to Boulder, it is stated he is well pleased with the prospect for developing a second sec

The Gimes

ALL ALONG THE LINE.

The Orange-county walnut-growers have not been able to dispel the ig-norance of wholesalers, who demand that nuts shall be ruined with sulphur, but they declare that next year they will refuse to spoil their product at the behest of dealers who care only for ap-pearances and nothing for quality.

The thirty-day suspension of oil pro-duction has proved impracticable, and after ten days of idleness, the pumps must be started to supply the market and fill contracts. What has become of that alleged surplus is something of a mystery. Perhaps it never existed but was a myth invented for the pur-pose of keeping the price of oil below the dollar mark.

The owners of property in the south-western part of the city and the under-writers who insure dwelling houses and their contents complain, and seemingly with reason, that the provisions for fighting fires are inadequate and that the distance from the nearest engine-houses to the residence district is too great. The fact that several recent fires have resulted in total losses of buildings and contents indicates either inadequacy of apparatus or lack of efficiency in handling it; possibly both.

Now that the gambling season is over and the summer run of suckers has ceased, a Santa Monica paper has just discovered that the town is in-fested by gamblers. The Santa Monica paper knew it all summer; the city authorities knew it; the gamblers were there with the connivance and consent of the authorities, and the law was violated with the permission of those who were in duty bound to enforce the law. The sudden spasm of virtue is hypocritical, false and fraudulent. The gamblers are more honest than the city officials of Santa Monica.

TOOK CHILDREN'S HANDS

PRESIDENT M'KINLEY GOES TO CHURCH AT ADAMS.

After the Sunday-school Services the Pupils Have a Little Levee - A Visit to Dr. Carter of Williams College Today.

ASSOCIATED PRESS NIGHT REPORT.]

ADAMS (Mass.,) Sept. 26.—President McKinley passed the day very quietly. In the morning the President and the Misses Mabel and Grace McKinley, accompanied by their host, went to the Congregational Church. The church was crowded, and was decorated with flowers. The usual order of services flowers. The usual order of services was observed. At the close of the church's Sunday-school services, the President shook hands with the 100

The President and Atty.-Gen. Mc-Kenna will visit Williamtown tomorrow if the weather permits, calling on Dr. Franklin Carter, president of Williams College.

It has not been settled when the President will return to Washington, but it is believed that he will leave Berkshire Tuesday evening.

THE EMPEROR APPROVED.

Count Badeni Informed His Majesty of His Challenge. [ASSOCIATED PRESS NIGHT REPORT.]

LONDON, Sept. 26.—(By Atlantic Cable.) The Vienna correspondent of the Daily Mail says this morning:
"The duel between Count Badeni and Dr. Wolff has caused the wildest sensation. It grew out of the opening of the Reichsrath, when Count Badeni. with arms crossed and head on his breast, listened unmoved by the clamor of the German party. His attitude was most irritating. The whole left formed a threatening group around him, conspicuous among them being Wolff, as he pressed forward and thrust his fist into Count Badeni's face, saying: 'If this is your policy it is miserable chicanery.' Some declare that Wolff called Badeni a 'Polish pig.' He was pulled back by his colleagues, but continued uttering menaces. of the German party. His attitude was

back by his colleagues, but continued uttering menaces.
"Early Friday Count Badeni sent his seconds to Dr. Wolff, who accepted the challenge. The Premier sent a telegram to the Emperor, asking permission to fight, at the same time tendering his resignation. In reply he received not only permission to fight, but also the imperial approval. He made his will, after which he spent the evening at the Jockey Club and a pleasure resort. His wife and family knew nothing about the affair until it was over.

over.
"The combatants met at the Military Riding School. The conditions of the

"The combatants met at the Military Riding School. The conditions of the duel was three shots at twenty-five paces. At the first discharge, the Premier's ball struck the ground fifteen paces from his antagonist. The latter's ball struck Count Badeni in the right arm. He staggered back to his chair and was then taken home, where the builet was extracted.

"There are no symptoms of fever, and Count Badeni is conducting affairs as usual. It is thought that, as the Premier has set the example, with the Emperor's approval, there will be a serious epidemic of duels. The Arbeiter Zeitung points out that Count Badeni is liable to imprisonment for from one to five years."

Too Much Laudanum

Mrs. Sidney H. Soull, living at No. 321 Temple street, took an overdose of laudanum yesterday evening. Three physicians were summoned to attend the woman, and after an hour's hard work they pronounced her out of danser.

A rumor that Mrs. Soull had attempted suicide gained circulation, and
was strengthened by the landlady of
the house, who refused to answer g
civil question, and put on an air of
mystery that would have done credit to
the Sphinx. From the statements of
the physicians and others there is no
reason to believe that suicide was attempted, the woman having taken an
overdose of a drug with which she was
not familiar.

KLONDYKE NOT THE ONLY STREAM OF GOLD.

Shores of Berner's Bay in Southeastern Alaska.

T. S. NOWELL TALKS ABOUT IT.

BIGGEST FIND THAT THE WORLD HAS EVER KNOWN.

Spiendor Mny Full on Castle Walls, but Horses Drop on Skaguay's Snowy Summits—More News Due.

SEATTLE (Wash.,) Sept. 26.—[Special Dispatch.] Reports of the discovery of a wonderfully rich gold-bearing quartz vein at Berner's Bay, southeastern Alaska, are confirmed by T. S. Nowell of Boston, president of the Berner's Bay Mining and Milling Company, who reached Seattle tonight on the City of Topeka. Nowell is a conservative business man, but in speaking of the new discovery he allowed himself to become enthusiastic.

"Of course," said Nowell, "this particular discovery is controlled by the IBY THE TIMES SPECIAL WIRE!

ticular discovery is controlled by the milling company located at Berner's Bay, and neither the location nor any of the company's stock is for sale. In my opinion the real mining wealth of Alaska is only beginning to be realized. I predict that within five years Alaska will be turning out \$50,000,000 in gold a year."

will be turning out \$50,000,000 in gold a year."

Speaking of the rich quarts gold-bearing vein at Berner's Bay, Nowell safd: "It is the biggest find the world has ever known. The first location was made last winter, but only recently has important development work been done. The ledge averages thirty-two feet in width and has now been traced 4000 feet. The mill tests of ore taken from the ledge runs \$50 to the ton on the average, and there is an eight-foot vein running through the ledge which will go as high as \$1300 to the ton. It is known as the contact vein, and runs through the mountains. The new discovery will necessitate the enlargement of the stamp mill, as the ore is practically inexhaustible."

HORSES ON THEM.

The Skaguay Trails Declared Never to Have Been Suitable.

[ASSOCIATED PRESS NIGHT REPORT.]

PORT TOWNSEND (Wash.,) Sept

PORT TOWNSEND (Wash.,) Sept. 26.—Now that the pass from Skaguay Landing, which from reliable reports, was never, event at its halcyon days, more than passable, is closed for the one of the one of the one of the other cases and the other cases are considered in passing over the trail within the past eight weeks, that the Skaguay trail has never been suitable for travel.

From passengers who returned this morning on the steamship Topeka from Skaguay, it is learned that the majority of the horses lost on the White Pass were lost through the desire of packers to rush ahead. One man left Skaguay with twenty-two horses. In four days from the date of starting, and at the end of twenty miles, only one horse was left alive.

Another packer, George B. Wood, who carried Banker Andrew Wasson's outfit across, had eleven horses, but took the trip very slowly and carried plenty of feed, and arrived at Lake Bennett with a full outfit and the loss of but one horse. Wood's pack-mule train made an average of three miles a day.

The tug Holyoke, which has been due

a day.
The tug Holyoke, which has been due from St. Michaels since yesterday, is expected to bring late news from the Klondyke gold fields.

ANOTHER STEAMSHIP COMPANY. [ASSOCIATED PRESS NIGHT REPORT.] SEATTLE (Wash.,) Sept. 26.—A rival

SEATTLE (Wash.,) Sept. 26.—A rival to the North American Transportation and Trading Company in Alaskan steamship business has, appeared, It is the Alaska Transportation and Development Company of Chicago, capitalized at \$5,000,000.

Senator Mason of Illinois and Albert Blatz, the Milwaukee brewer, are among the prominent eastern men identified with the company. A fieet of six modern steel steamers will be operated between Seattle and St. Michaels, giving at least a weekly service. Six light-draught steamers will be operated on the Yukon from St. Michaels to Dawson City. Two of the ocean steamers are of 2500 tons register. The steamers have all been purchased, and will be sent round the Horn early in 1898.

New York's German-Americans. New York's German-Americans.

NEW YORK, Sept. 26.—The United German-American societies of Greater New York held a conference today. There were 250 delegates present, representing 120 German organizations, claiming to have a total membership of 175,200 voters. Resolutions were pussed requesting the Democracy to nominate William Sohmer of the consolidated city, and pledging the party 150,000 votes. An effort to indors the Chicago platform at the conference was voted down.

Our New Process

Of Flexible Dental Plates is as yet but little known by the public and less understood by dentists in general. It has many advantages over the ordinary rubber plate, even gold plates—being lighter and thiuner. This plate being flexible, no thicker than heavy writing paper, tits closer to the mouth, will last longer, and is tougher than any other rubber. Once tried no other piates will be desirable. Brought to the notice of the public through Dr. Schiffman only.

your guns ready, load your shells, take the dogs out and work them a bit, for on October 1 the valley quail, Bob White, the partridge, wild duck and rail become law-ful prey for the hunter. And they say the hills and meadows are fairly teem-ing with game as fat as plenty of good grain can make them.

Lovers of the horse are looking forward to the coming fair. Never before in the history of horse racing in South-

ward to the coming fair. Never before in the history of horse racing in Southern California have so many really good horses been entered. A number of eastern cracks will be here on their way to Ingleside and Oakland tracks for the winter season, and from all over the State come entries of the best blood California horsemen own. The meeting will be a great one.

There is to be another attempt to make winter baseball a paying proposition. Only one thing seems to stand in the way of success, and that is a division of the baseball forces. One croyd is going to run baseball at Fiesta Park, and another crowd will have games at Athletic Park. Now, there is no doubt that just enough good baseball can be made to pay, but a whole lot of good, bad and indifferent baseball will surely ruin the sport. It has been tried here before, not once, but many times, and it does seem as if the baseball managers should learn a little something by experience.

Bicycling is at a standstill. Only a few weeks of good weather at best remain for the wheelmen. The Thanks-giving race meeting is still being urged, but there seems to be a lack of enthusiasm. The boys may warm up by and by and help send the meet along. The last meet was a big success financially, and the coming one should be even better from a monetary point of View, if all that is promised is given. One more good road race before the rains set in would liven up the blke boys.

As to boxing, little or nothing need be said. The Athletic Club desn't want to be a lack of the saids and the college of the skate. One of the bicycle skate, when once set free, will spin until further notice. It is not extend to have game as exercise it is very beneficial. Again, it entirely eliminates all the evils which are accredited to bitycle indication to make wheel evils which are accredited to bitycle indication to make the lowest of the skate. One of the little wheels of the skate

boys.

As to boxing, little or nothing need
be said. The Athletic Club desn't want
to handle any set-tos, amateur or professional. and so far as known there be said. The Athletic Club desn't want to handle any set-tos, amateur or professional. and so far as known there fessional. and so far as known there is no one who has any money to throw away on a boxing carnival. The talk about a match between Jeffries and McAuliffe is sheerest nonsense. It would be a soft thing for Jeffies for "me bye Joe" would stand no show on earth with him. Jeffries doesn't want a fight with a back number like McAuliffe anyhow. The Mission Boy has been whipped so often and so easy by all sorts of weights that it would be no credit to Jeffries to knock him out. There is some hope that Jeffries and Choynski may meet. Jeffries is going to San Francisco to see his manager, Delaney, as he understands Delaney has settled all disputed points with Goddard, and as the men have past differences to settle, as well as a fat purse to fight for. it is more than likely Choynski will prefer Goddard to Jeffries.

The Solly Smith-Dixon battle will be watched for by the sports here, but there is no certainty it will ever be fought. The men have quarreled, agreed and disagreed, until there is no way of telling how long an agreement between them will last. Dixon is rich and about ready to quit, and therefore in a position to dictate terms. It isn't like it used to be when Dixon was making a reputation. He remembers Dempsey's fate at the close of the most brilliant career that ever a prize fighter earned by hard, honest, square work, and he has no relish for a defeat to mar his long line of successes. He is not afraid of Solly, by any means, nor is Solly afraid of him, but Smith's gain-should he whip Dixon, would be a hundred to one greater than that of Dixon should he whip Smith.

Is Solly afraid of him, but Smith's gain should he whip Dixon, would be a hundred to one greater than that of Dixon should he whip Smith.

The lifting of the closing-down order upon oil production has caused no but be supprised and it is not improbable that

home manufacturers. John J. Bacigalupi, secretary of the Oil Burning and Supply Company (to be known as the Western Oil and Asphalt Company, after October 1,) says his company is manufacturing seventy-five tons of asphalt per week, most of which is shipped to San Francisco, and points as far east as New York. Of this amount, less than five tons per month are sold in Southern California. This company consumes 7000 barrels of oil per month, but if its product were given a fair show in the city of Los Angeles, Mr. Bacigalupi declares its consumption would be increased to 15,000 barrels for the same period. A denial is made to the claim that the product of Alcatraz and Trinidad is superior to the Los Angeles commodity.

ity.

Oil producers are beginning to make inquiries regarding the materials used for fuel by the foundries and iron works and other institutions that draw heavy revenues from the oil industry of the city.

The Guiteau drilling rig is still in op-

works and other institutions that draw heavy revenues from the oil industry of the city.

DRILLING NOTES.

The Guiteau drilling rig is still in operation at the "wildcat" site north of the Jewish cemetery. The drill is in sandstone at a depth of 700 feet, with little indication of uncovering oil. This site is about eight hundred feet northwest of the established oil strata, and the opinion is freely expressed among oil men that oil sand will not be uncovered in this locality.

Four or five drilling rigs are fishing in the eastern extension. Three wells were finished during the past week, but will not be operated until the expiration of the closing-down period. These wells are owned by the City Water Company, Parker & Thurston and Darcy, Chadwick & Brunton Bros. The Hanily well has not yet been completed.

A Davis & McCray well in the western extension, is being pumped; also one owned by Turner Bros. These are water wells and are being operated with the knowledge and consent of the oil men's committee. One of the North wells on Temple street is also being pumped. These wells are all producing more water than oil, and the pumping is being done more with the object of keeping down the inflow of water than for the purpose of producing operations at their new site on Rasmona avenue, one block north of College street. Judging from the water and night towers in territory out on New Main street. A depth of 500 feet has been reached, and Mr. Wilkinson is sangulne that valuable oil strata will be uncovered. The drill parsed through adobe to a depth of 400 feet, and is now making fair progress in shale. This formation is the same as encountered further south, the outlook is not encouraging for the development of oil in this locality.

The Wilkinson rig is running on day and night towers in territory out on New Main street. A depth of 500 feet has been reached, and Mr. Wilkinson is sangulne that valuable oil strata will be uncovered. The drill parsed through adobe to a depth of 400 feet, and is now making fair progress in

of gratification to the exploiters in the Wilkinson locality.

Progress of work on the City Water Company's 3000-barrel cement reservoir for oil storage, on College street, west of Pearl street, has been impressed upon dwellers of this portion of the city during the past week, by frequent detonations of dynamite.

The property of the Hillside Oil Company, consisting of oil lots and two wells at the north end of Pearl street, has been sold to R. J. Tarbell and Adolph Scharff. It was a cash sale. The Hillside Company was composed of J. F. Blunt and others.

do you propose to dream? You feel your self becoming weaker day by day. Do you propose to do anything about it, or do you propose to lie down and die? You have your own future in your own keeping, and do you really mean to say that it is pleasant say that it is pleasant to know that you are but half a man? If you heard some one say that about you on the sidewalk, you wou a be annoyed—but it is the truth. Why not be a man? Are you ashamed to ask help? A few thousand people felt in just the way you do. But each one of them decided that it was better to seek help, if help could be had. Do you want to know who they were? A 2c stamp will bring you and lestimonial telling you all about "HUDYAN," the great remedio. treatment.

wells will be permitted to pump longer

BICYCLE NOTES.

Officers were elected last Wednesday by the South Side Cycle Club as follows: Charles Sanford, president; R. Campbell, vice-president; W. Brotherton, secretary-treasurer; R. Hamlin, captain; George Stamps. Frank Pearne and Ed Marry, directors.

The East Side open road race over the Glendale course has been abandoned.

Dixon should he whip Smith.

Baseball.

Eugene D. Howard has leased Flesta Park, and will have baseball every Saturday and Sunday from the first of October until April 10. 1898. The work of tearing out the benches and putting the grounds in shape will be commenced today. Howard has contracted with a number of eastern clubs, which are coming West this winter, and will also try to get up a (commercial league in this city, Santa Monica, Pasadena, San Pedro and Pomona.

The Electric Railway Company has leased Athletic Park, and it is understood will also have winter baseball. No programme is announced, but it is understood eastern clubs have enengaged for exhibition games. This split in forces is ominous for the baseball sport.

Charlie Van Horn has signed with the Llewellyns of San Diego, and is with the Los Angeles favorite, has returned from San Diego, and is with the Los Angeles team in Bakersfield.

Joe Shea, now with the Fresno Club, telegraphed Pop Monroe a liberal offer for Pitcher Harvey. Harvey accepted and has gone for the dilt Edge Club of Sacramento.

Ford Barris went with the boys to Bakersfield. He is the regular Bakersfield acther.

Farrow, a Los Angeles boy, is making a great record up north. He is considered one of the best nitchers in an added in contracts, even were the owners willing to surrender it to the committee.

Harmony and commented to pump longer than the one week specified before being again closed down. The committee fround itself unable to tide over until the first of the month, even with the coöperation of the heaviest producers in the field. Dr. Book, of the Rex Company, said he was losing \$50 per day in payment of royalites during the solvery day his wells remained closed down, yet he considered the best intensity of a few days longer, in order that the subjects of a few days longer, in order that the secure of a few days longer, in order that the solvery day his wells remained closed down, yet he considered the best infewer Company, said he was losing \$50 per day his wells rema

For Barris went with the boys to Bakersfield. He is the regular Bakersfield catcher.

Farrow, a Los Angeles boy, is making a great record up north. He is considered one of the best pitchers in San Francisco.

Smith, the Azusa player, who is now playing second for the Heesemans of San Francisco, is considered the best infielder on the Coast.

San Diego has a commercial league, several of the principal business houses have uniformed teams, and have worked up quite a boom.

Ex-Manager Mark Mayony has turned over the Los Angeles uniforms to Jim Wooley, who will now take charge of the club.

Pop Monroe has fitted up a room for the players to hold their meetings in.

The Fresnos have signed Babe Whaling and Buck Frank of this city, and they leave this morning to play with that team the balance of the season.

They will probably play first base and short.

Bicycle Skates.

The bicycle skate is attracting attention in the East and it promises to colipse even the bicycle as a means of speedy scorching. Some remarkable records have been manded in contracts, even were the owners willing to surrender it to the woners willing to surrender it to the woners willing to surrender it to the committee.

POLICE CAPTURE A MAN WHO IS WANTED IN LOS ANGELES.

Rev. Clark Crawford Persuaded Not to Accept a Call From Chicago, Universalist Church Concert, Brief Notes of News.

PASADENA; Sept. 26.—[Regular Correspondence.] In the arrest of James V. Knettles of Los Angeles, on Saturday by the Pasadena police, on the charge of peddling without a license, the police have caught a man whom the Los Angeles police think they want. He was in the Marshal's office and had not been brought before the court when Detective Goodman came into the office. When the Marshal searched Knettles and took from him, among other things, a gold pen with a pearl handle of pecuhar design, Detective Goodman became interested and began to pump Knettles. The detective tried to ascertain the name of Knettles's partner, but Knettles said be did not have one.

Knettles was peddling paper and envelopes from house to house, and when he could get no response to his summons at the front door would gilde around to the rear of the house, and a citizen, after watching his movements at several houses, notified the Marshal, who made the arrest.

When Detectives Goodman and Steele were in the City Marshal's office today, the partner referred to came in and asked to see Knettles, and before he was allowed to do so he was pretty thoroughly examined, and told such conflicting stories that the detectives took him back to Los Angeles. Knettles said he had purchased the gold pen, and told the name of the store and the price he paid far it.

When the officers asked the partner where Knettles got the pen, he stated that he gave it to him. Confronted with the story of his partner, Knettles acknowledged that he had lied about the pen. Saturday night Detective Goodman searched Knettles's room in Los Angeles, and found an unusual number of suits of clothes and several new hats.

His partner at first said he was not with Knettles in Pasadena, and had not seen him for a week, but when one of the officers present told him he saw him on the electric car on Saturday morning, he weakened, and said here they expect to have several other cases to hold him on.

The conference held at the First Metho-

METHODIST CHURCH MATTERS.

The conference held at the First Methodist Church on Saturday evening, and presided over by Bishop Newman of Los Angeles, was a secret session. The principal topic was the proposed acceptance of a call to Chicago by Rev. Clark Crawford, the pastor of the church. It has been learned that the church was unanimous in asking that Dr. Crawford remain in Pasadena, and such appeals were made to him that he virtually agreed not to accept the Chicago call. Bishop Newman preached this morning in the Taberracle 65 a congregation which filled the building, and much satisfaction was exerpressed when he announced that probably Dr. Crawford would round out five years as the pastor of the First Methodist Church of Pasadena.

SAN BERNARDINO COUNTY

GUN-PLAY IN A SALOON, BUT NO DAMAGE DONE.

torms and Washouts on the Desert Delay the Overland Trains of the Santa Fe Route and Do Much

SAN BERNARDINO. Sept. 26.—[Regular Correspondence.] The Johnhub Water Company filed articles of incorporation Saturday. The principal place of business will be Colton. The directors are: D. Johnston and G. M. Hubbard of Colton, M. N. Anery, Walter Bordnell and W. B. Matthews of Los Angeles. The capital stock is \$18,000, of which each director, has subscribed one share, par value \$50.

For a short time things were lively in the Nonparell salcon on D street Saturday night. Ernest Somers, George Brazelton and Frank Starke entered the salcon about 10 o'clock, and the proprietor. Louis Le Fever, and Brazelton got tangled up in a warm donversation and during the heat of the controversy Le Fever pulled his gun from beneath the bar with the evident intention, it is said, of returning to the salcon and Bernall Brazelton, All hands scattered, and George started to get his gun, with the intention, it is said, of returning to the salcon and bringing matters to a finish. He was prevailed upon, however, to look up Justice Soule and swear out a warrant against Le Fever, as a safer and more peaceable method of settling the controversy.

Storms on the deedert have be Atlantic and Paolife. It is foreign the Atlantic and Paolife. It is said, the washed away. The storm west of The Needles on Saturday did considerable damage, but the situation east of the river is much worse. Sunday's overland arrived in San Bernardino nearly half a day late, and the arrival of the next train is problematical. The washouts are the worst that have occurred for years.

santa ana, sept. 25.—[Regular Correspondence.] The Ebell Society held its first meeting for the year Saturday afternoon in the parlors of the Brunswick. About seventy-Rive ladies were present. The president, Mrs. W. S. Bartlett, was unable to attend. The programme for the afternoon was in charge of the Story Teilers' Club. It consisted of reproductions of stories from a number of selected authors, the readings being given ny members of the club.

CROP REPORTS.

There is a good demand for this season's crop of wainuts and the prices offered are higher than those received last year. This is due to an attual shortage in the California product and to advices from abroad of a short crop there. Yet the fine quality and size of the nuts produced this year warrant a higher price, even though the yield were equal to that of last year, when the nuts were inferior in size.

The Tuatin Association has signed contracts to dispose of the crop for 9 and 7½ cents, an increase of 1 cent per pound for each grade over last year's price. This association will handle the product from Tustin and nearly all the walnuts of Santa Ana growers. Capistrano has lately formed an association, and there are also associations in Orange, anaheim and Fullerton, which will dispose of the crop of their respective districts. Orange county will send out three-fourths of the California crop.

The crusade organized against the sulphuring process has come to nothing so far as this years crop is concerned, many of the growers having already entered into contracts which would prevent their abandoning the sulphur treatment at this time. There has come, however, an almost unanimous sentiment in favor of abolishing the practice at the close of the present season and of refusing to accede again to the demand of the sulphur dust. There is a feeling that a simple analysis will show that the nuts are injured by being sulphured, and the growers hope to make this clear to the dealers who oppose them now.

The olive crop comparatively new to this country, will be

GOLD IN MEXICO. GOLD IN MEXICO.

Charles Bailey, a former resident of this county, left on Saturday for Sinaloa, Mex., to investigate a placer mining claim in the interest of a company of San Francisco capitalists. He has had shipped from Los Angeles a complete equipment of mining machinery, which will be taken to the mines.

Mr. Bailey says the district into which he is going is exceedingly rich in minerals, and he is very sanguine of success in locating a deposit of great value. He expects to spend two or three months in the work, and if his report is satisfactory, the San Francisco capitalists are ready to open up the mines and begin work on an extensive scale.

The trial of John Harris for deadly assault upon his brother-in-law, Will Soules, comes before the Superior Court Tuesday.

LETTERS TO THE TIMES.

Why Are Decisions Deferred? REDLANDS, Sept. 22.—[To the Editor of The Times:] Juries are required to arrive at a verdict imme-

REDLANDS, Sept. 22.—[To the Editor of The Times:] Juries are required to arrive at a verdict immediately, and if necessary the court shuts them up till they agree. When we consider what an average jury is and how it is made up, this treatment may seem severe, but it is undoubtedly satisfactory to the community, for in law emphatically time is money. A trial without a verdict is but time wasted, and till a decision comes, all the costly apparatus of justice—bench, lawyers, witnesses, sheriff, stenographers—avails nothing. To secure a verdict courts are justified in resorting to extreme measures.

Now suppose instead of a jury verdict we say a judicial decision; is the case essentially different? Is there less urgency and is time less precious when the case is determined by the bench? And are not judges able to decide with promptness, as they compel juries to do? A jury is a random collection of average—laymen—ranchers, mechanics, clerks, builders, teamsters—selzed and made to serve in court. They have no special training for this compulsory duties, nor any experience; yet as soon as they have listened to the testimony and arguments they are commanded to decide the case, and kept prisoners till they do it or else fail, and are discharged from duty. May we not expect that picked lawyers on the bench of the Supreme Court, experienced jurists whose profession is to administer and define the law, can with at least equal facility arrive at conclusions? Is there any sense in demanding from twelve laymen in a box an instant and unanimous verdict, while learned magistrates before whom suits have been laid may suspend judgment upon them for months and years? Of course, questions of law are often very intricate; but on the other hand unanimity is not required of judges, but only that each judge give his opinion be it what it may, and the voice of the court.

to the Supreme Court of California has learned the inconvenience and vexation resulting from the wholly needless delays of that tribunal in rendering decisions. Questions submitted to the court are exhaustively argued and then left for years undecided, so that often when the decision is at last handed down, it finds the parties chiefly interested dead or bankrupt, and has no more value than a stale egg. Judgment is the one thing needful for which courts exist, and time is of the essence of its value. Matters important enough to be determined. Until judgment is rendered the large expenditures incident to litigation yield to the suitor absolutely no return.

All this being obvious, one is at a loss to account for the dilatory proceedings of our court of last resort. When it shall sit in Los Angeles next month and hear many cases presented and argued, it will decide but few; indeed, most of the suits tried last October have not been determined, and no one knows when they will be. Many highly-important cases appealed and argued years ago are still pigeon-holed. In the county of San Bernardino, and doubtless in many other counties, appeals listened to in 1895 or earlier remain today undecided.

It may be aaid, judges require time for consideration. True, but to go on and hear forty new suits does not help them to decide forty others that were heard in the same court years earlier. Were the foreman of a jury to propose to work in this manner, to hear twenty cases in succession without deciding any, leaving to the indefinite future the bringing in of the verdicts, any one of our Supreme Judges hearing so unreasonable a request would probably impose a fine for contempt. Judges and jurors are alike human, facts will slip out of their memory and essential points will be forgotten, particularly when the mind is constantly taking in new cases to consider. So far from being better prepared for judgment by having devoted an indefinite time to this sort of consideration, the justices of the Supreme Court are sometimes obliged

LOS ANGELES, Sept. 25.—[To the Editor of The Times:] That Spring street should be resurfaced is no longer rancher which had been tigd up since early morning without having been fed or cared for in any way. The rancher's seven-year-old son was left in the wagon and was not provided for until late in the evening. The father was raked from the street and compelled to drive home.

All of the departments of the public school are crowded. The High School has a registration of 156, which is ten more than that of any previous year. The new kindergarten, lately added to the public-school system, starts out with forty-three children in attendance. An additional teacher will be employed in the First-street primary.

Railying-day services were held Sunday morning and evening at the First Presbyterian Church. In the morning service Miss Ella Chaffee sang a solo by Prinsuit, "I will dive You Rest." In the evening Mrs. Celia M. Fisher of Unity Church, Los Angeles, sang Dudley Buck's "My Redeemer and My Lord."

There is an active movement in Orange, backed by the Gordon Granger Post, favoring the organisation of a local branch of the Lincoln Monument League. An Executive Committee has been appointed to arrange for a public meeting.

The directors of the Santiago Orange Growers' Association have organized by electing R. B. Guthrie president, J. A. Scarritt' vice-president, O. P. Koerting secretary, and the Bank of Orange treasurer.

On Monday Co. L. N.G.C., will hold its State target practice over 200, 300 and 500 yard ranges. The shoot will be in competition for the company me-alis.

sixty-fourth of the property of the city; so the cost to him will be greater if taken out of the tax levy, and in the latter case, he will have no voice in protesting against a poor job. I am aware that a number of the protestants were misinformed as to the cost. We are assured the work will not cost more than 9 cents per superficial foot, or about \$1.20 per front foot, and for my part, if there is travel enough on the street to wear the pavement out in one year, I will gladly pay for it that often, for in that case my tenants will have paid the extra amount to me several times over. I have no money to throw away, but am willing to pay for my own pavement. I am not willing to have the man who owns a small home contribute even a 10-cent plece toward keeping up my property.

RAN OFF THE TRACK. Southern Pacific Engine Derniled at

Southern Pacific engine No. 1803 ran off the track at Bassett about 10:30 o'clock-Saturday night and fell upon her side in the ditch. The engine was bound for Los Angeles from Yuma and

was "running light."

The wrecking crew was summoned from this city, and after several hours' work the locomotive was righted and ought to town. Neither the engineer brought to town. Neither the engineer nor the fireman was injured, and the damage to the engine was very slight. The locomotive ran off what is known as a derailment swith. Instead of the switch running it to a side track, the engine was run off the rails entirely and turned upon her side in the ditch below.

Characteristics of Fire Brigades

A correspondent, in commenting on a recent paragraph on the unnecessary destruction often wrought by firemen, a recent paragraph on the unnecessary destruction often wrought by firemen, says that every fire brigade has its characteristic way of working. In some brigades all possible attention is given to the rapidity of the actual turn-out, whilst in others the speed at which the engines run to the fire is considered to be of primary importance. Other brigades, again, give equal attention to both. Some brigades work entirely on military lines, each man having certain duties marked out for him beferehand for every possible occasion, while in others a happy-go-lucky method of operation is preferred. One chief officer always arrives provide the working of his brigade from a distant position of vantage; another chief of a still brigade always delights to be in the onick of the fire, where a fireman would be more in place than a commander. Some brigades make a point of working quietly, and shouting is absolutely forbidden. All commands are given by word of mouth, and there is much bawling. In others the command is even repeated on horns and the noise becomes ridiculous. As a rule, quiet working is a sign of efficiency. Some brigades work as close as possible to the fire; others are satisfied with putting water on or about the fire at a distance. Some attack the fire directly, others or try to protect what surrounds the seat of the flames. In many brigades the orders are to always try and attack by the natural routes of the front door and ways have to attempt some more irthe staircases. In others, the men al-ways have to attempt some more ir-regular entrance, with the aid of ladders, through windows, for instance. Some brigades carefully extinguish a fire, some simply swamp it. There are cases where officers will go so far as to let a roof that is alight burn itself out, simply keeping the surrounding walls, or, say, the attic floor, damp.

Seal and Other Furs.

"Is the seal worth preserving?" and answers the question by showing that the world could get along very well without it. One effect of the international dispute, which is agitating the diplomatists and the press, is that a search has been begun for other sources of supply for the materials for winter habiliments. There is no sufficient reason why the seal should remain the monarch of the fur trade. There are innumerable beautiful and workable furs in many countries only 'Is the seal worth preserving?" and main the monarch of the fur trade. There are innumerable beautiful and workable furs in many countries only waiting on the trapper and the furrier. India and Africa are particularly rich in furs, which may be made as rare and costly as the most expensive of sealskins. Australia may be relied upon to supply something quite as good in its line as the object of the Bering difficulty. In 1895 the value of the opossum,' wallaby and other marsupial skins exported from New South Wales was estimated at \$905.035. To these may be added rabbit skins, kangaroo skins, and miscellaneous skins including a number of platypus, forming a total of \$1.161.485. The opossum has a fine, long fur, of a wooly texture, and of an ash-gray color. The demand for hare and rabbit skins in good condition is practically unlimited, the fur being made into the felt hats now worn. The kangaroo skin is valued both as a fur and for the production of leather; the fur, which is soft and silky, is of a reddish color. Platypus skins are rapidly becoming scarce. The skin resembles that of the otter, and is sometimes known in the trade variously as silver or golden otter. It is very popular for winter wear, and when the coarser outer hair becomes shabby it is plucked away, revealing beneath a dark second coat of lustrous beautiful fur resembling the finest seal skin.

Bogus Electric Schemes.

WANT PROTECTION.

RESIDENTS OF PORTIONS OF THE CITY UNEASY ABOUT FIRES.

Engines Too Far Away From th Southwestern Residence District to be Effective.

TOTAL LOSSES TOO FREQUENT.

INSURANCE MEN WANT TO KNOW WHY THESE OCCUR

The Burning of the Smith House Directs Attention to Lack of Ap-paratus and Other

The residents of the southwestern portion of the city are seriously alarmed at the frequency of fires in that portion of Los Angeles, almost all of which have resulted in the total destruction of not only the houses, but their contents. Insurance men are looking into the matter, and what was once considered by them the "gilt edge" district and consequently had correspondingly low rates, may soon be rated as dangerous, and premiums on policies may go jump ing upward.

The cause of the present agitation is the burning of the home of Ira O. Smith at No. 636 West Adams street last week. Last February the home of W. P. Gardiner at No. 666 West Adams street, only a stone's throw away from the Smith house, was burned, and in both cases the loss was total. The Smith fire has directed attention

both cases the loss was total.

The Smith fire has directed attention to some matters concerning the fire department. According to the statements of all the residents of the neighborhood the engines did not reach the Smith fire until from twelve to fifteen minutes after the alarm had been sent in. When the apparatus did reach the fire there was no chief, assistant chief or any one else to direct the firemen, and they went at their work as best they could. The result was one engine was so placed that the hose on the reel would not reach to the burning building and more hose had to be sent for. Other water than that furnished by the hydrant to which the engine hitched was close at hand and in abundance, and had a district engineer or assistant chief been on the ground to direct the placing of the apparatus, could have been utilized, saving minutes of most valuable time. When the firemen got more hose they found themselves with—"t landers, and it was on a rickety, ushackfe ladder grabbed up at ranach in the neighborhood that the captain of the Pico-street Chemical Company was injured. He was acting as chief, and when he was hurt there was no one to take his place.

"There is no question," said Ira. O. Smith, "but what my house could have been saved, with a few thousand dollars' damage, had the department arrived in time and been properly handled.

"I can hardly blame the working firemen. The nearest engine to my place was on Main and Adams streets, three-quarters of a mile away. The chemical was on Star and Pico streets, a mile and a half away, and the Sixteenth-street engine was a mile and a quarter away. It seemed to me the engines would never come. Had there been a chemical within ten minutes' run of my house after the alarm was telephoned in, the house could have been saved. It seems to me, and I am an old engineer, that there is something wrong with a fire department that has to send from Adams to Main street for coal and get it only half a sack at a time. There was no head to anything. to some matters concerning the fire de

an old engineer, that there is something wrong with a fire department that has to send from Adams to Main street for coal and get it only half a sack at a time. There was no head to anything. I didn't worry when the engines got there, for, although the fire had a good start, I was sure the blaze would be put out. When I found hose was needed, water was needed, and most of all, somebody needed to direct affairs, I gave up hope an tried to save some of my things, but it was too late."

T. A. Isen, the architect, a neighbor of Mr. Smith's, said: "I don't know what was the matter exactly, but I do know Smith's house should never have been allowed to burn down. We need more protection against fire. We need chemical engines, ladder wagons and more hydrants. The southwestern portion of the city contains some of the finest residences in all Los Angeles, and they are practically unprotected. The farther you go from the location of the Smith fire to the south and west, the less protection from fire you have. Something must be done out our way or people will cease building dwellings in that locality."

"Yes," added Mr. Hunt, Mr. Isen's partner, "unless something is done pretty soon nobody will feel safe out our way. Every house that catches fire burns to the ground. Witness the destruction of F. C. Howes's home on Thirty-first street, a block from Figueroa, on last Christmas day. It was a total loss. The firemen do the best they can when they get there, but they are too far away. No city of the size of Los Angeles leaves its residence districts so unprotected from fire as we do here."

they can when they get there, but they akangaroo skin is relianced skins, including a number of latypus skins, including a number of latypus forming a total of \$1.16.485. That you sum has a fine, long fur, of a wooly texture, and of an ash-gray color. The demand for hare and rabbit skins in good condition is precically unlinted, the fur being made into the felt hats now worn. The kangaroo skin is valued both as a fur and for the production of the state of the distribution of the state of the distribution which was a fur and for the production of the state of the distribution which would repeat the coarser outer hair becomes shabby it is plucked away, revealing beneath a dark second coat of lustrous beautiful fur resembling the finest seal skin.

Bogus Electric Schemes.

Bogus Electric Schemes.

Bogus Electric Schemes.

Electricians generally were recently astonished to see in a reputable New York paper a description of one of the mose barefaced of the harb been foisted upon the public with harb last the years. It was stated that the last the years. It was stated that the son named as the inventor of the particular the present methods of railway transportium in a system of electrical distribution which would revolutionize the present methods of railway transportium in a system of electric lighting by means of a new third read energy, by means of a new third read the production of the supplying sixty standard candle-power long and state of the supplying sixty standard and lead to the s

when plenty of water could have been reached within half a block. If this is true, it is no wonder they didn't have hose enough. Each company knows the number of feet of hose it carries on its reel and how far it will reach. There is something wrong and the insurance men are getting tired of paying total losses on costly dwellings.

It is probable there will be concerted action upon part of the citizens of the residence portion of the city, asking for more protection against fire. What form of action will be adopted has not been settled upon as yet, but when insurance men begin talking about canceling policies and doubling rates, owners of costly residences have reason to get uneasy. Inquiry made among the firemen shows that the members of the force are not as familiar with the location of hydrants, etc., as they should be. An engineer was asked the location of the nearest hydrant to No. 636 West Adams, and he said, "Til have to look at the map."

"A City Government That Caz

At 3:30 yesterday afternoon, Mrs. Mattie Jenkins, the wife of Charles Jenkins, formerly a clerk at the Hollenbeck and Nadeau hotels, was arrested in her room at the St. Nicholas Hotel, San Francisco, on a warrant sworn out by Dr. H. Bert Ellis of this city charging her with having obtained Do Things" Needed-Main Street "Sti-Smells Like Sam Hill." terms Chief Executive of the great State of Iowa, back in the 80's, was

rested in her room at the St. Nicholas Hotel, San Francisco, on a warrant sworn out by Dr. H. Bert Ellis of this city, charging her with having obtained \$1000 from him under false pretenses. The arrest was made by Deputy Sheriff White of Sheriff Burr's force, who was sent from here to get the woman. The following telegram from San Francisco gives the details:

SAN FRANCISCO, Sept. 28.—[Special Dispatch to The Times.] Mrs. Mattle Jenkins, a lady of good family and prepossessing appearance, was arrested today at Hotel St. Nicholas by Detective Dillon and Deputy Sheriff White of, Los Angeles on the charge of obtaining money by false pretenses. She was taken to the City Prison, and there detained until 4 o'clock, when she left on the train for Los Angeles, accompanied by White.

The complaint was sworn to by Dr. H. Bert Ellis of Los Angeles. Mrs. Jenkins sent for Attorney Kowalsky as soon as she arrived at the City Prison, and, acting upon his advice, made no attempt to secure bonds here, but went on the first train in the custody of the deputy sheriff to answer to the charge made against her by Dr. Ellis. Mrs. Jenkins was greatly distressed at the position in which she so unexpectedly found herself. She declares she has committed no criminal offense, and that, in swearing out a warrant for her arrest on such charge, Dr. Ellis has proved false to a lifetime friendship that has existed between him, herself and her family, and denounces his action as spite work.

Deputy Sheriff White arrived in the city early this morning. He at once went to the police headquarters, and after exhibiting the papers in his possession, was piaced in charge of Detective Dillon, who conducted him to the St. Nicholas Hotel, where Mrs. Jenkins's room and was at once invited up. He there explained his mission and took her into custody.

Ezza Washburn, bailiff of the Supreme Cgurt, arrived at the prison with Col. Kowalsky. He has known Mrs.

to the way they kept their streets clean there by hand sweeping. Boys did the work there, little fellows whose badge of office was a peculiar cap, and whose tool outfit was a broom with a scraper and a short shovel, and whose wages were 33 cents a day. They would dodge among, and fairly under, the horses to clean up the dirt and then deposit it in a receptacle on the curb. There would be a half a dozen such cans set along the street in a distance as far as from here to Second street"—about a block. "It's the horses that keep the streets dirty, and then the vehicles scatter the dirt. Those little fellows would dodge in and catch up the dirt before it became scattered, as it is right here on Spring street now, and in every other street in town, in a way that should disgust any person of refinement. Drivers there would respect the little fellows, turn out for them and wait for them to get out of the way. Traffic there is much heavier than on this street, but one never saw a street as dirty there as this Spring street is here. Then, too, the cans at the curbs were emptied at night and carted away when the streets were almost deserted. Nobody ever sees such a sight as that open cart of offal in the streets of London; the driver would be mobbed before he could be arrested.

"What we need here is some sort of city government or other authority that can do things. Col. Waring is right when he says the great trouble is that the public service is used as a political dumping ground for derelicts.

"These streets ought to be washed at night, too. Why, when Gen. Butler was in command of New Orleans and the city was thronged with soldiers, refugees, renegades and all the riff-raff that accompanies an army in time of war, besides its regular inhabitants, it was by cleaning the streets and washing them daily that he averted the yellow fever, which would otherwise have depopulated the city in its then over-crowded and demoralized condition."

"I wish you'd come down to my place and just take a sniff." said Dr. A. F. F. McCullou her into custody.

Ezra Washburn, bailiff of the Supreme Caurt, arrived at the prison with Col. Kowalsky. He has known Mrs. Jenkins and her family for over twelve years, and after hearing her story offered to do all in his power to help her. Mrs. Jenkins did not seem to worry about the charge against her, but was greatly distressed lest her mother should learn of the affair.

"I am not afraid of being able to refute this charge," she said, "but the fact that I am in this awful situation would kill my mother if she hears of it, and the disgrace of it all, undeserved although it is, just breaks my heart. I never dreamed that I would ever be in prison, under arrest and charged with crime, and that by a man who has professed the greatest friendship for me, who has written letters full of kind words to me and to my folks right up to the eve of this dreadful occurrence. The thought that all his protestations of friendship were hollow and false almost kills my belief in humar kind."

The story leading up to the arrest as told by Mrs. Jenkins is as follows: She was living in Los Angeles last June, her husband being a clerk in one of the hotels there. He lost his position and was obliged to seek other fields. She remained behind, and, thinking she saw an apportunity to get hold of a millinery business, went to Dr. Ellis, who was an old friend of her family, and asked his assistance.

This he willingly extended, and to enable her to secure money, indorsed her notes to the extent of \$1000. These notes she discounted at one of the banks. Immediately after this Dr. Ellis who was as a seriously hurt in a railroad accident. She is just now getting over the effects of the accident. Some of the notes are now due, and she supposes that because she did not devote the money to the object originally intended, the doctor has been induced to so represent matters to a Los Angeles Justice of the Peace that he issued a warrant for her arrest on a charge of felony.

Kowalsky said he has known Mrs. Jenkins's brother, G. M. Antrim, is enga

THE COMPLAINANT'S STORY.

reason for Dr. Ellis's action.

THE COMPLAINANT'S STORY.

Mrs. Jenkins is well-known in Los Angeles. Before her marriage with Charley Jenkins she was a Miss Antrim. After her marriage with the hatel clerk, Mrs. Jenkins became noted for the extravagant manner in which the dressed, and there was no end of gossip about her. Her busband first lost his position at the Hollenbeck and then at the Nadeau under circumstances which the proprietors of the hotels decline to discuss.

Arout the 1st of June last Jenkins left his wife here and went to San Francisco. A few days after his departure, Mrs. Jenkins went East and her mother went to San Francisco of the wife with a son. It was understood at the time that Mr. and Mrs. Jenkins had separated, and subsequent events bear out the supposition, as she has not been living with her husband since her return from the East to San Francisco, some two weeks ago.

The allegations upon which the complaint and warrant were issued are substantially as follows: Early in May of this year Mrs. Jenkins went to Dr. Ellis as one of the oldest friends her mother had, and told him she was having trouble with her husband; that he gave her no money, wasted his salary and was dissipated. She said she wanted to do something for herself, something to support herself and har

mother, and that a chance had offered.
Mr. and Mrs. Gotthelf, who own the
millinery business at No. 121 South
Spring street, were going to Europe,
and Mrs. Jenkins said she could get
a fourth interest in the business for
illow, to take care of it during their
absence. It is alleged that she told
Dr. Ellis she expected money from
the East in a few weeks, and that
Mr. Chase of the Nadeau had promised to reserve a portion of her husband's salary each week for her. She
asked Dr. Ellis to help her. He told
her he was about to go East, and
said he had no money to loan, but
told her if she could get the money
from a bank on her note with himself
as indorser, he would gladly accommodate her.

Mrs. Jenkins went to the Merchants'
National Bank and made arrangements to borrow \$1000. On May 12 of
this year she gave the bank four notes
of \$250 each, payable thirty days apart,
the first note to fall due on August 25,
1897. Dr. Ellis indorsed the notes,
and Mrs. Jenkins got the money.

On May 23 last Dr. Ellis started for
a trip East. The day before he
started Mrs. Jenkins, it is alleged,
called on him and told him the
money she expected from the East,
would arrive on May 28, and on that
day she wculd take up the notes.

Dr. Ellis arrived home about the
list of July. He received word from
the bank that the notes were unpaid, and he found that Mr. and Mrs.
Jenkins had left for parts unknown.
He began making inquiries, but as
Mme. Gotthelf was still in Europe he
had no way of ascertaining positively
whether Mrs. Jenkins, and finally
located her in Chicago, where she was
ilving in style at a swell private hotel. He learned she was soon coming
West. Meanwhile Mme. Gotthelf returned from Europe, and when seen, at
once denied Mrs. Jenkins's stery in regard to purchasing an interest in her
business, saying she had never even
talked of such a thing. On Friday last
Dr. Ellis swore out a warrant for
Mrs. Jenkins's arrest.

The prisoner will arrive in the city
today. It is understood she has telegraphed to a prominent la
